Aims and Scope

The National Institute Economic Review is the peer reviewed quarterly publication of the National Institute of Economic and Social Research (NIESR). Founded in 1938, we are one of Britain's oldest and most prestigious independent research organisations. Our objective is to promote, through quantitative and qualitative research, a deeper understanding of the interaction of economic and social forces that affect peoples' lives, and the ways in which policies can improve them. We have no political affiliation, and receive no core funding from government. Our research programme is organised within four groups: employment, macroeconomics and finance, productivity innovation and skills, and labour markets and disadvantage.

Apart from fair dealing for the purposes of research or private study, or criticism or review, and only as permitted under the Copyright, Designs and Patent Act 1988, this publication may only be produced, stored or transmitted, in any form or by any means, with the prior permission in writing of the Publishers, or in the case of reprographic reproduction, in accordance with the terms of licences issued by the Copyright Licensing Agency. US: Authorisation to photocopy journal material may be obtained directly from SAGE or through a licence from the Copyright Clearance Center, Inc. (www.copyright.com/). Enquiries concerning reproduction outside those terms should be sent to SAGE Publications.

The *Review* welcomes articles relating to the themes listed on the back cover, with publication dates in February, May, August and November respectively. Articles should normally comprise 4–10,000 words. All articles are refereed. Full notes for contributors are available from Fran Robinson (f.robinson@niesr.ac.uk). Articles intended for publication should be sent to National Institute Economic Review, 2 Dean Trench Street, London SW1P 3HE, or by e-mail to Fran Robinson (as above).
