*THE
LANGUAGE
OF
TAXONOMY*

*An Application
of Symbolic Logic
to the Study
of Classificatory Systems*

by JOHN R. GREGG

The important central taxonomic notion of classificatory system is presented for the first time in such a way as to attempt to satisfy modern standards of adequacy.

MOVING?

To be sure of receiving every issue of your Journal, notify the publisher 60 days in advance. Supply: your old address; your new address; and the name of the journal to which you subscribe.

Journals sent to your former address will be destroyed unless you notify your postmaster that you will pay the forwarding postage.

You can replace missing journals only by purchasing duplicates from the publisher—at the regular price of single issues—and our stock of overcopies may be exhausted by that time.

So—well before moving day—notify:
