

SOUTH WEST CHARTERING

continuing to specialize in Polar Chartering
Over 40 years providing ice-strengthened ships for expeditions to the Arctic and
Antarctic — for charter — for purchase
Our service includes all other types of survey vessels

Contact: Polar Department, South West Chartering (UK) Limited, Suite Five, Lloyds Wharf, Mill Street, London SE5 2BA Tel 01 231 8565 Telex 886819 Fax 01 231 3712

ANNOUNCEMENTS

POLAR RECORD BACK NUMBERS 1931-87 (1-147) are available from Bluntisham Books, Oak House, East Street, Bluntisham PE17 3LS, UK, Tel (1487) 840 449. Prices: Pre-1982 (1-129) £2.50 each; 1982-85 (130-141) £5.00 each; 1986-87 (142-47) £10.00 each. Postage extra.

ADVERTISING IN *Polar Record*

Quarter page (118 x 81 mm) : £50.00 (US\$90.00)

Half page (240 x 81 mm or 118 x 165) : £70.00 (US\$130.00)

Whole page (240 mm x 165 mm): £100.00 (US\$180.00)

Flier (A4 or A5): £100.00 (US\$180.00)

Announcements: £2.00 per column line.

VAT of 15% is payable on all UK orders. Please send payment or an official order form with your order. There are negotiable discounts for running the same advertisement in three successive issues. We make up advertisements (from £20.00) and print fliers (from £50.00) by arrangement.

ADVENTURE CRUISES TO ANTARCTICA

Join Mountain Travel on our Norwegian adventure ship, the MV *Nordbrise*. Our inaugural season itineraries include two 17-day cruises to the Falkland Islands on November 25 and March 8, and seven cruises along the Antarctic Peninsula departing on December 9, December 25, January 4, January 17, January 29, February 10 and February 22. Come enjoy the exotic wildlife, tumbling glaciers, and the rare opportunity to set foot on the "Last Continent".

Please contact:

Mountain Travel
6420 Fairmount Avenue, Dept.175
EI Cerrito, CA 94530 USA
Phone: (415) 527-8100, ext. 175
FAX: (415) 525-7710

Each departure is limited to just 39 passengers, so make your reservations early!

**ARE YOU COMING TO THE
BRITAIN IN THE ARCTIC
CONFERENCE ???**

To be held at the SCOTT POLAR
RESEARCH INSTITUTE IN CAMBRIDGE
UK, 4-6 APRIL 1990

An opportunity for the UK Arctic re-
search community to meet and share
experiences and information

**THEME: Current and future research
opportunities in the Arctic**

Registration free to undergraduate and
postgraduate students

For details, write immediately to:
THE INFORMATION OFFICER
SCOTT POLAR RESEARCH INSTITUTE,
UNIVERSITY OF CAMBRIDGE
LENSFIELD RD, CAMBRIDGE
CB2 1ER UK

**HEAT FLOW AND
GEOTHERMAL SENSING**

- **Geothermal Heat Flow Transducers**
For sensitive ice, ocean floor, and geothermal
heat flux determinations.
- **Liquid/Solid Thermal Conductivity Cells**
- **Hi/Lo Temperature Thermal Flux Meters**
For structural heat loss, physiological heat flow, and
a variety of laboratory or commercial applications.
- **Thermoelectric Microcalorimeters**
For endo/exothermic heat flow determination during
biological or chemical experimentation.
- **Custom Instrumentation**
Providing thermal system integration and consulting
services for research and commercial applications
worldwide for over 20 years.

ITI INTERNATIONAL THERMAL INSTRUMENT COMPANY

**Polar and
Glaciological
Abstracts**

A new abstracting journal produced by
the Scott Polar Research Institute,
replacing *Recent Polar and Glaciological
Literature*, the widest-circulation bibliog-
raphy devoted to polar subjects

* provides wide, *annotated* coverage of
books, papers, reports and reviews on all
aspects of polar life and science, both
Arctic and Antarctic

* subject, author and geographic indexes
will cumulate annually

* for further details contact:
Journals Publicity Department
Cambridge University Press
FREEPOST

Cambridge Journals

To meet the growing needs of today's scientists, Cambridge University Press brings you five new science journals in 1990. To order, or for further information and a sample copy fill in the coupon and return it to the address below.

Journal of Functional Programming

Editors:

R. J. M. HUGHES, *Department of Computing Science, Glasgow*
P. L. WADLER, *Department of Computing Science, Glasgow*
P. HUDAK, *Department of Computer Science, Yale University*
H. BARENDREGT, *Katholieke Universiteit Nijmegen*

Journal of Functional Programming is the first journal to be devoted to this important area of computer science. It covers new languages and extensions, reasoning, proof and program synthesis, implementation techniques, type theory, parallelism, and applications. The journal is of interest to computer scientists, engineers working in parallelism, and mathematicians working in theoretical science.

Volume 1 in 1990: two parts

Subscription

£60 for UK subscribers; £65/\$110 elsewhere; £40/\$70 for IFIP members

ISSN 0956-7968

Psychological Science

Editor:

WILLIAM K. ESTES, *Department of Psychology, Harvard University*

Published for the American Psychological Society

This publication is being launched as the flagship journal of the American Psychological Society and is the forum for research, theory and application in psychology and the closely related behavioural, cognitive, neural and social sciences. Unlike most research journals, *Psychological Science* encourages articles of general theoretical significance or of broad interest across specialities, written to be intelligible to a wide range of readers. Topics in the first volume include language in scientific psychology and similarities involving attributes and relations.

Volume 1 in 1990: January, March, May, July, September and November

Subscription

£65/\$100 for institutions; £30/\$50 for individuals

ISSN 0956-7976

Arabic Sciences and Philosophy: A Historical Journal

Executive Editors:

BASIM MUSALLAM, *Centre of Middle Eastern Studies, University of Cambridge*

ROSHDI RASHED, *Centre d'Histoire des Sciences et de la Philosophie Arabes, Centre National de la Recherche Scientifique*

JEAN JOLIVET, *L'Ecole Pratique des Hautes Etudes, Paris*
MUHSIN MAHDI, *Department of Eastern Languages and Literature, Harvard University*

This international journal is devoted to the history of the Arabic sciences, mathematics and philosophy in the world of Islam between the eighth and the eighteenth centuries in a cross-cultural context. *Arabic Sciences and Philosophy* casts new light on the growth of these disciplines as well as on the social and ideological context in which this growth took place. Articles are published in English, French or German with abstracts in all three languages.

Volume 1 in 1990: March and September

Subscription

£48/\$75 for institutions; £28/\$39 for individuals

ISSN 0957-4239

European Journal of Applied Mathematics

Editor-in-Chief:

JOHN OCKENDON, *Mathematical Institute, University of Oxford*

EJAM is a new journal for original work in areas of mathematics in which an understanding of the application requires the use of new and interesting mathematical ideas. The advent of powerful user-friendly computer codes in science and industry has increasingly led research workers to pose their problems in mathematical terms. Such activity frequently leads to a need for new mathematical analysis at a high level. EJAM will focus on this growing area of mathematics inspired by real world applications, and at the same time it will foster the development of theoretical methods with broad areas of applicability.

Volume 1 in 1990: March, June, September and December

Subscription

£75 for UK subscribers; £80/\$150 elsewhere; members of ECMI should write for special rates

ISSN 0956-7925

Polar and Glaciological Abstracts

Editor:

WILLIAM MILLS, *Scott Polar Research Institute, Cambridge*

Polar and Glaciological Abstracts is the first specialist abstracting publication to offer comprehensive coverage of the world's polar regions. Produced by the library of the Scott Polar Research Institute, it provides comprehensive and convenient access to the rapidly growing research and scholarship of all relevant disciplines. It scans over 900 series, plus relevant books, reports and theses. Each issue contains author, subject and geographic indexes. The indexes are cumulated annually.

Volume 1 in 1990: January, April, July and October

Subscription

£40/\$75 for institutions; £30/\$55 for individuals

ISSN 0957-5073

The Fragile Environment

Edited by LAURIE FRIDAY and RONALD LASKEY

Famine . . . deforestation . . . acid rain . . . pollution . . . soil erosion . . . the greenhouse effect. For those who want the facts behind the headlines. *The Fragile Environment* brings together a team of distinguished international authors to identify and analyse areas of rapid and serious change, and outline approaches to some of the outstanding fundamental questions concerning the environment.

In clear, readable terms, *The Fragile Environment* explores the changing impact of human populations on the environment from prehistoric times to today and discusses the future of the forests, the impact of man on animal species, and the likely effects of man's activities on the atmosphere and global climatic patterns. Finally, a NASA scientist puts these and other environmental problems into a new perspective, as environmental changes are examined from space.

The Darwin College Lectures Series

208 pp. 73 photographs and tables

£12.95 0 521 36337 3

Cambridge Polar Studies

The Frozen Earth

Fundamentals of Geocryology

P. J. WILLIAMS and M. W. SMITH

This book describes the effects of cold climates on the surface of the earth. This is the first book in the English language which concentrates on the analysis of the causes and effects of frozen ground phenomena, rather than on the description of the natural features characteristic of freezing and thawing ground.

£37.50 net 0 521 36534 1 324 pp. 1989

Studies in Polar Research

Living Ice

Understanding Glaciers and Glaciation

ROBERT P. SHARP

Living Ice is a non-technical and engaging book that attempts to increase our knowledge and understanding of glacial activity and products. The text is peppered with anecdotes and insights from one of the world's glacier experts, and is copiously illustrated.

£15.00 net 0 521 33009 2 235 pp. 1989

The Age of Arctic

Hot Conflicts and Cold Realities

G. OSHERENKO and O. R. YOUNG

This timely review offers a comprehensive and systematic framework for understanding and responding to the military, political and socio-economic conflicts emerging in the far north. It will be essential reading for all those interested in, and concerned with, this important region of the earth.

£37.50 net 0 521 36451 5 320 pp. 1989

Now in paperback

The Living Tundra

YU I. CHERNOV

Translated by DORIS LÖVE

This classic of ecological literature provides an insight into the ways in which animals, plants and climate interact in an inhospitable environment.

'This is a book that anyone interested in the Arctic should have.'
Countryside

£12.95 net Pb 0 521 35754 3 213 pp. 1988

For further information write to Susan Chadwick at the address below

Cambridge University Press, The Edinburgh Building, Cambridge, CB2 2RU, UK

postage. POSTMASTER: send address changes in the USA and Canada to *Polar Record*, Cambridge University Press, 110 Midland Avenue, Port Chester, New York, NY 10573.

Claims for missing issues can be considered only if made immediately after receipt of the subsequent issue.

Back issues

For vols 1-23 inclusive apply to Bluntisham Books, Oak House, East Street, Bluntisham, Huntingdon, PE17 3LS, UK. For vols 24 onward apply to Cambridge University Press, UK or USA.

Advertising

Prices appear in the advertisements section; for details apply to the Editor or to the publishers.

Advice to contributors

Polar Record publishes original articles (2000 to 8000 words) and notes (usually less than 2000 words) of current and historic polar interest. Manuscripts, maps and photographs are accepted on the understanding that they are original, do not infringe copyright, and are not currently being offered elsewhere. Receipt is acknowledged; manuscripts are submitted to referees and any rejected will normally be returned to the author within six to eight weeks. Where the subject matter is appropriate, the Editor is usually prepared to advise authors on ways of making their material acceptable.

Presentation

Typescripts should be double-spaced with 3 cm margins, on one side only of A4 or similar paper. Send two copies and keep one for reference. Give name, affiliation and address of each author on the title page, noting which author the Editor corresponds with. Follow the style of articles and notes in the most recent issue of *Polar Record*.

Articles should start with an abstract of 150-250 words and a table of major headings; secondary and tertiary headings are not listed. Indicate in margins where tables and illustrations fit. Footnotes are discouraged; places where they are considered essential are marked in text with a superscript number, and the footnotes are listed at the end before the References.

Notes are short articles, generally of less than 2000 words. They do not require an abstract or table of headings, but either the first or the final paragraph should summarize the content.

References (essential ones only, please) are cited in text; full references appear in the listing under References at the end; for forms of citations and references see the most recent issue of *Polar Record*. Authors alone are responsible for the accuracy of their references. References to privately printed or other unpublished reports and data are not accepted unless copies of the material are freely available from a named library or similar repository. Tables should be kept as simple as possible and typed on separate sheets. They will normally be fitted across the single- or double-column page, only exceptionally lengthwise.

Illustrations. Drawings, maps and diagrams must be of professional standard, with lettering and numbers pencilled in clearly. Authors may be charged for re-drawing if an illustration is inadequate. They should if possible allow for about one-third reduction in width to fit a column (7.8 cm) or page (16.4 cm). Photographs (black and white only) that add substantially to the material are welcome. Glossy prints with high contrast, about one-third oversize, generally reproduce well.

Contributions on disc

The Editor welcomes contributions on floppy discs. The most suitable format is Apple Macintosh 3.5" disc. Output from a wide variety of word processing packages can be accepted, but in case of doubt, a MacWrite-compatible document should be produced. Diagrams also can be transferred on Macintosh discs. Discs from other microcomputers may be acceptable if the text is in the form of an ASCII file, with no word processing codes. TAB characters are acceptable. Currently, *Polar Record* can accept discs from Acorn BBC and Torch microcomputers, Amstrad PCW series microcomputers and, less readily, IBM PC compatible machines (5.25" discs only). If in doubt, please consult the Editor.

ISSN 0032-2474

POLAR RECORD

VOLUME 26 NUMBER 156 JANUARY 1990

CONTENTS

ARTICLES

Properties and history of the central eastern Arctic sea floor. J. Thiede, A. Altenbach, U. Bleil, R. Bötze, P. Mudie, S. Pfirman, E. Sundvor and others p 1

Ministerial directives and constitutional development in the Yukon Territory. S. Smyth p 7

Limnology of Priyadarshani Lake, Schirmacher Oasis, Antarctica. B. S. Ingole and A. H. Parulekar p 13

Gas, environmentalism and native anxieties in the Soviet Arctic: the case of Yamal peninsula. P. Vitebsky p 19

Profile: Knud Rasmussen. E. Cruwys p 27

Antarctic trials of the multi-box corer, a new device for benthos sampling. D. Gerdes p 35

The site of Fort Magnesia, Payer Harbour, Pim Island, NWT. W. Barr and W. Blake Jr p 39

NOTES

Northern communities in the Soviet census 1989. T. E. Armstrong p 43

The lichen and bryophyte flora of Scullin Monolith, MacRobertson Land. D. M. Bergstrom and R. D. Seppelt p 44

New offshore gas fields announced by Soviets. P. Vitebsky p 46

Intact baby mammoth discovered in Yamal peninsula, western Siberia. W. Barr p 46

Norwegian War Museum exhibition on allied operations in Svalbard, 1942–45. A. Glen p 47

The Institute of Arctic Studies, Dartmouth College. O. Young p 48

Alarming radiation levels reported in Chukotka peninsula. P. Vitebsky p 49

New genetic data on the feral cat population of Iles Kerguelen. Ph. Dreux p 50

Report on a visit to Dumont d'Urville, Antarctica. Greenpeace International p 51

French biologists reply to Greenpeace report. P. Jouventin and V. Bretagnolle p 54

Bicentenary of William Scoresby. S. G. Brown p 54

Breeding of the polar wolf in Greenland. A. K. Higgins p 55

A traveller's code for Antarctic visitors. B. Stonehouse p 56

REVIEWS

A Victorian earl in the Arctic. S. Kretsch III. W. Barr p 59. The frozen earth: fundamentals of geocryology. P. J. Williams and M. W. Smith. J. Dowdeswell p 60.

Safe return doubtful: the heroic age of polar exploration. J. Maxtone-Graham.

H. G. R. King p 60. Agayut: Eskimo masks from the 5th Thule Expedition. B.

Sonne. M. Nuttall p 61. Strategy in the southern oceans: a South American

view. V. Gamba-Stonehouse. J. Schmiegel p 61. The little platoon: diplomacy

and the Falklands dispute. M. Charlton. B. Stonehouse p 61. Birds of the

Seward Peninsula, Alaska. B. Kessel. B. Stonehouse p 62. International

resource management: the role of science and politics. S. Andersen and W.

Østregren. B. Stonehouse p 62. Brief reviews p 62

IN BRIEF

American Polar Society news: Recent warming noted from Tibetan ice: New airstrip for BAS: Polar Medal awards: Tour applications increasing for New Zealand's subantarctic islands p 64
