## **James Hutton and the History of Geology**

DENNIS R. DEAN

Dean examines the growth and development of Hutton's thought in the light of his training and experience in medicine, agriculture, and philosophy, locating him within the intellectual milieu of Edinburgh at the height of the Scottish Enlightenment. Drawing upon a wealth of primary and secondary research, Dean traces the reception of Hutton's ideas across the nineteenth century and into the twentieth. \$42.35

## **The Electrification of Russia, 1880–1926**

JONATHAN COOPERSMITH

Here is the first full account of the adoption of electricity in Russia, from the beginning in the 1880s to the early years of Soviet rule. \$43.95

## **Physics as a Calling**

*Discipline and Practice in the Königsberg Seminar for Physics*

KATHRYN M. OLESKO

Olesko reconstructs in fine detail the evolution, across the nineteenth century, of Franz Neumann's physics seminar at Königsberg University in East Prussia. As the first official science seminar to incorporate mathematical considerations, Neumann's institute pioneered the integration of two quantitative traditions in physics—the mathematical and the exact experimental. *Cornell History of Science*. \$43.95

## **The Search for the Gene**

BRUCE WALLACE

From Gregor Mendel's experiments on garden peas to the mammoth Human Genome Project of today—how did we get where we are in the science of genetics? In this intriguing book, Wallace examines the concept of the gene and recounts the history of its development, providing a concise transition from genetics to modern molecular biology. A Comstock Book. \$41.75 cloth, \$16.45 paper

## ESSAYS IN THE HISTORY OF THERAPEUTICS

Edited by W.F. Bynum and V. Nutton. Amsterdam/Atlanta, GA 1991. 146 pp. (Clio Medica 22)

ISBN: 90-5183-266-4

Hfl. 65,-/US-\$ 32.50

The history of therapeutics has been central to the medical enterprise in all times and all places. It is also, as Guenter Risse points out in his introductory essay, a subject which is all too often neglected by historians. He analyses some of the reasons for this and urges historians to take this complex and important theme more seriously. The essays which follow range in chronology from antiquity to the 1980s and in geography from the Mediterranean Basin to the New World. They touch on such matters as diet and drugs, magic and surgery, orthodox and unorthodox approaches. What they share is an attempt to get beyond the easy dismissal of almost all therapeutics before the twentieth century as meaningless and harmful and to examine concrete dimensions of the therapeutic encounter in its social, professional, religious and scientific reverberations.

Contents: Guenter B. Risse: The History of Therapeutics. Vivian Nutton: From Medical Certainty to Medical Amulets: Three Aspects of Ancient Therapeutics. Luis Garcia-Ballester: Dietetic and Pharmacological Therapy: A Dilemma among Fourteenth-Century Jewish Practitioners in the Montpellier Area. Christa Habrich: Characteristic Features of Eighteenth-Century Therapeutics in Germany. Renate Wittern: The Origins of Homoeopathy in Germany. John Harley Warner: Science, Healing and the Physician's Identity: A Problem of Professional Character in Nineteenth-Century America. Ulrich Trohler: "To Operate or not to Operate?" Scientific and Extraneous Factors in Therapeutical Controversies within the Swiss Society of Surgery 1913-1988.

USA/Canada: Editions Rodopi, 233 Peachtree Street, N.E., Suite 404, Atlanta, Ga. 30303-1504, Telephone (404) 523-1964, Call toll-free 1-800-225-3998 (U.S. only), Fax (404) 522-7116

*'It is difficult to be literate about the nature of modern science and technology without at least a passing awareness of work appearing in Social Studies of Science. For anyone who takes science or technology seriously as objects of study, this is the indispensable journal. Quite simply it sets the hallmarks for the field.'*

Shella Jasanoff, Cornell University

Published quarterly in February, May, August and November

## Science Preserved

*A directory of scientific instruments in collections in the United Kingdom and Eire*

Mary Holbrook, with additions and revisions by  
RGW Anderson and DJ Bryden

*Science Preserved* is the Domesday Book of historical scientific instruments in the United Kingdom and Eire. At its core is an inventory in which are individually described some 3700 instruments from collections throughout the British Isles. Astronomical, mathematical, optical and other types of instrument are all covered, as well as philosophical, physical and chemical apparatus. The inventory is preceded by a substantial glossary in which more than 50 categories of instrument are described, illustrated with 140 photographs, it is of particular value as an aid to identification.

## Weighed in the Balance

*A history of the Laboratory of the Government Chemist*

PW Hammond and Harold Egan

The Laboratory of the Government Chemist was founded in 1842, at a time when official Government interest in science was minimal, 150 years later it has become one of the most modern analytical laboratories in the world. This is the first comprehensive history of the work and development of the Laboratory, but it is more than just an institutional history. It shows the human side of that development, including early Government support for scientific education and gives an interesting picture of the scientific and social developments outside. It also illustrates the growing interest of the Government in the use of science for the support of health, environmental and revenue protection in Britain.

LABORATORY OF THE GOVERNMENT CHEMIST  
September 1992 246x189mm 388 pages illus ISBN 0 11 515302 0 Hardback £9.95

## THE BRITISH SOCIETY FOR THE HISTORY OF SCIENCE

**Membership** of the Society, which normally includes a subscription to *The British Journal for the History of Science*, is open to all persons approved by the Council of the Society and elected at an ordinary meeting. The annual subscription for the membership year 1993 is £22.00 (\$45.00) or £11.00 (\$25.00) for associate membership, which includes students at centres of higher education. There is an Introductory Offer for ordinary members who pay £17.00 (\$35.00) for the first year. Applications for membership should be made on a form which is available from the Society's Executive Secretary at the address below. Other sterling rates may apply to overseas members.

**Meetings:** The Society mounts an ambitious programme of meetings. The pattern is flexible, but includes a three-day summer meeting, usually held at a different British University or Polytechnic each year. About four other meetings, lasting for between one and three days, are held during the year, sometimes devoted to a clearly defined theme or an important anniversary, and often arranged in conjunction with other scholarly societies.

**The British Journal for the History of Science** is the official organ of the Society. All correspondence on the contents of the *Journal* should be addressed to the Editor, Dr J. H. Brooke, Department of History, University of Lancaster, Lancaster LA1 4YG, England. Books for review should be sent to the Reviews Editor, Dr John Henry, Science Studies Unit, University of Edinburgh, 21 Buccleuch Place, Edinburgh EH8 9LN.

**Advertising:** Contact the Journals Advertising Manager, Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 2RU.

**Other publications:** BSHS Monograph Series is designed to allow the publication of monographic studies in the history of science quickly and cheaply. All correspondence on the subject of monographs, and any new suggestions for titles, should be sent to the Series Editor, Dr P. Weindling, Wellcome Unit for the History of Medicine, 45–47 Banbury Road, Oxford OX2 6PE, England. Monographs are available to members at a special price, post-free from the Society's Executive Secretary. Non-members may obtain them through bookshops, or post-free from the Executive Secretary. Titles are as follows:

2. *The Letters of Georges Cuvier: A Summary Calendar*. Ed. by Dorinda Outram. 1980. £4.50/\$10.00 (£3.50/\$8.00 to members).
3. *Rationality and Ritual: The Windscale Inquiry and Nuclear Decisions in Britain*. By Brian Wynne. 1982. £7.00/\$15.00 (£5.00/\$11.00 to members).
4. *The Royal Society and Its Fellows 1660–1700: The Morphology of an Early Scientific Institution*. By Michael Hunter. Reprint with additional material (expected mid 1993).
5. *Francis Bacon's Natural Philosophy: A New Source. A Transcription of Manuscript Hardwick 72A with Translation and Commentary*. By Graham Rees, assisted by Christopher Upton. 1984. £7.90/\$17.00 (£5.60/\$12.00 to members).
6. *Archives of the British Chemical Industry, 1750–1914: A Handlist*. By Peter J. T. Morris and Colin A. Russell. Contributing editor John Graham Smith. 1988. £14.50/\$31.00 (£9.00/\$19.00 to members).
7. *Index to the Scientific Correspondence of John William Dawson*. By Susan Sheets-Pyenson. 1992. £20.00/\$44.00 (£12.00/\$26.00 to members).

Each year, the Society publishes a *List of Theses in History of Science* in British universities. This is available free to members, and at £3.00 (\$6.00) to non-members on request to the Executive Secretary. Standing orders are accepted from members or non-members who wish to receive the list regularly.

The Society's *Newsletter*, an informal publication edited by Dr Frank A. J. L. James, RICHST, The Royal Institution, 21 Albemarle Street, London W1X 4BS, appears in January, May and September each year. It is free to members, £6.00 (\$12.00) for institutions and non-members. The Society's Education Section also has a regular *Newsletter, Education Forum*, edited by Peter Ellis, 12 Belvedere Street, Ryde, Isle of Wight, PO33 2JW.

**Administrative business** of the Society is handled by The Executive Secretary, Wing-Commander G. Bennett, 31 High Street, Stanford in the Vale, Faringdon, Oxfordshire SN7 8LH. The Society is registered in England as a Limited Company (No. 562208) and is a Registered Charity (No. 258854).

**Copying:** This journal is registered with the Copyright Clearance Center, 27 Congress Street, Salem, MA 01970. Organizations in the USA who are also registered with the CCC may therefore copy material (beyond the limits permitted by sections 107 and 108 of US copyright law) subject to payment to CCC of the per-copy fee of \$5.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0007-0874/93 \$5.00+.00.

*ISI Tear Sheet Service*, 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

*For all other use*, permission should be sought from Cambridge or the American branch of Cambridge University Press.

**Back volumes** are obtainable as follows: Volumes 1–23: Wing-Commander G. Bennett, 31 High Street, Stanford in the Vale, Faringdon, Oxon SN7 8LH. For volume 24 onwards, apply to Cambridge University Press.
