**INTRODUCING PREVACARE\*  
SKIN CARE SYSTEM. PROVEN  
TO DESTROY  
PRACTICALLY EVERYTHING  
IN ITS PATH.**

*[ Except your hands. ]*

*By combining our unique mild surfactant technology with enhanced efficacy, Johnson & Johnson Medical's PREVACARE\* antimicrobial handwashes wipe out microorganisms-while protecting hands from the effects of harsh ingredients. Even with frequent washings, PREVACARE antimicrobial handwashes maintain skin integrity and leave hands feeling soft and smooth.*

*PREVACARE skin cleansers and moisturizers follow the same philosophy, using a unique combination of ingredients that shield hands from moisture-stripping ingredients. Best of all, PREVACARE Skin Care products work together to stop the spread of infection while sparing hands from the drying, irritating effects of repeated washings. Benefits that do wonders for handwashing compliance. So arm your workplace with the PREVACARE Skin Care system of infection prevention today. For hard-working, sensitive hands, relief has finally arrived.*

*Call 1-800-423-58.50 for product information or contact your Johnson & Johnson Medical representative.*

# ALL THE ANSWERS UNDER ONE COVER

Learn From The Experts

## A Practical Handbook for Hospital Epidemiologists

Edited by Loreen A. Hetwaldt, MD  
and co-edited by Michael D. Decker, MD, MPH

Soft Cover, 250 pp, ISBN 1-55642-302-0, Order# 13020, \$39.95

A Practical Handbook for **Hospital** Epidemiologists is the most complete source for practical advice on hospital epidemiology. It is intended to be a pragmatic guide that will assist both beginning and experienced epidemiologists in establishing and operating a successful hospital epidemiology program.

This handbook will supplement the various scientific references already available for hospital epidemiologists. It will provide practical information and advice regarding many aspects of operating a hospital epidemiology program and will help hospital epidemiologists improve their practices.

The Society for Healthcare Epidemiology of America (SHEA) has recruited the most recognized leaders in

the field to share their expertise. They will share successful strategies for handling specific situations. The authors cover many topics that every newcomer should know but are usually learned through experience. These topics include:

- Overarching goals and ethical principles you should adopt to guide your practice
- What you can do to educate yourself
- How to negotiate with the administration and communicate with colleagues
- How to develop policies and procedures
- How to develop a surveillance system

### Contents

Getting Started  
Chapter 1: An Introduction to Practical Hospital Epidemiology  
Chapter 2: The Hospital Epidemiologist—Practical Ideas  
Chapter 3: Educational Needs and Opportunities for the Hospital Epidemiologist  
Chapter 4: Negotiating with the Administration—or How to Get Paid for Doing Hospital Epidemiology  
Chapter 5: The Infection Control Committee  
Chapter 6: Developing policies and Guidelines  
Chapter 7: Intramural and Extramural Communication  
Chapter 8: Ethical Aspects of Infection Control Surveillance and Analysis  
Chapter 9: Basics of Surveillance—An Overview  
Chapter 10: Hospital-Acquired Pneumonia: Perspectives for the Health Care Epidemiologist  
Chapter 11: Basics of Surgical Wound Infection Surveillance  
Chapter 12: Surveillance for Infections Associated with Vascular Catheters  
Chapter 13: Designing Surveillance for Noninfectious Outcomes of Medical Care  
Chapter 14: Outbreak Investigations  
Chapter 15: Exposure Work-Ups  
Chapter 16: Isolation  
Chapter 17: Basics of Stratifying for Severity of Illness  
Chapter 18: Quantitative Epidemiology

Support Functions  
Chapter 19: Microcomputers in Hospital Epidemiology  
Chapter 20: The Computer-Based Patient Record: The Role of the Hospital Epidemiologist  
Chapter 21: Basic Microbiologic Support for Hospital Epidemiology  
Chapter 22: Epidemiologic Typing Systems  
**Special Topics**  
Chapter 21: Epidemiologic Approaches to Quality Assessment  
Chapter 24: Disinfection and Sterilization of Patient Care Items  
Chapter 25: Controlling Use of Antimicrobial Agents  
Chapter 26: Product Evaluation  
Chapter 27: Employee Health and Infection Control  
Chapter 28: Tuberculosis Control in Healthcare  
Chapter 29: Infection Control Issues in Construction and Renovation  
Chapter 30: Hospital Epidemiology in Smaller Hospitals  
Chapter 31: Infection Control in Public Hospitals  
Chapter 32: Infection Control in Long-Term Care Facilities  
Chapter 33: Infection Control in the Outpatient Setting  
Chapter 34: OSHA Inspections  
Chapter 35: Preparing for and Surviving a JCAHO Inspection

## INFECTION CONTROL COORDINATOR

Founded in 1860, **Denver Health Authority** integrates acute hospital and emergency care with public and community health to deliver preventive, primary and acute care services to the citizens of Denver.

We are seeking a lead person to work in our 308 staffed bed medical center and our 11 family healthcare centers system.

The ideal candidate will perform nosocomial infection surveillance, investigate communicable diseases, work with physician and nursing staff to provide infection control services, staff education and report to regulatory agencies. Prefer BS in Biological Sciences or Nursing, and 2 years' experience in hospital infection control and training in epidemiology.

For consideration, please forward resume to:

**Denver Health, MC 19 18**  
660 Bannock St.  
Denver, CO 80204  
**Fax: (303) 436-7159**  
EOE

## Do More.

Parkland Health & Hospital System, Dallas County Hospital District, is one of the Southwest's leading teaching and referral centers. It's the region's leading Level I Trauma Center. And it's home to challenges and experiences you won't find anywhere else. Which you'll see first hand as an Infection Control Coordinator.

### Infection Control Coordinator

Your various responsibilities will include monitoring infection control, analyzing data, assessing the disinfection and sterilization practices, and educating patients and staff on infection control.

This challenging opportunity requires Texas licensure, with Certification in Infection Control preferred. You must also have a BSN degree (master's preferred) with at least 3 years infection control experience in an acute care setting. Excellent communication skills and some computer literacy required.

Make the most of your skills. Bring them to the one place where you can truly see more. Do more. And be more.

Contact Nurse Recruitment at Parkland Health & Hospital System, 5201 Harry Hines Blvd., Dallas, TX 75235. For more information, please call (214) 590-8992 or 1-800-527-0333. EOE/AA.

## Be More.
