WEED TECHNOLOGY

Published six times a year by the Weed Science Society of America

Jason K. Norsworthy, *Editor*

The Weed Science Society of America publishes original research and scholarship in the form of peer-reviewed articles in three international journals. *Weed Science* is focused on understanding “why” phenomena occur in agricultural crops. As such, it focuses on fundamental research directly related to all aspects of weed science in agricultural systems. *Weed Technology* focuses on understanding “how” weeds are managed. As such, it is focused on more applied aspects concerning the management of weeds in agricultural systems. *Invasive Plant Science and Management* is a broad-based journal that focuses not only on fundamental and applied research on invasive plant biology, ecology, management, and restoration of invaded non-crop areas, but also on the many other aspects relevant to invasive species, including educational activities, policy issues, and case study reports. Topics for *Weed Technology* include all aspects of weed management in agricultural, horticultural, ornamental, forestry, aquatic, turf, recreational, rights-of-ways, and other settings; weed resistance to herbicides; herbicide resistant crops; biological weed control agents; new weed management techniques; impacts of weed competition with crops; vegetation management with plant growth regulators; weed surveys; weed-related grower surveys; education; and extension. Symposia papers and reviews are accepted. Consult the editor for additional information.

Associate Editors (Assignment Year)

Jason Bond, *Stoneville, MS* (2010)

Kevin Bradley, *Columbia, MO* (2012)

Barry Brecke, *Jay, FL* (2013)

Peter Dittmar, *Gainesville, FL* (2016)

Steve Fenimore, *Salinas, CA* (2004)

Aaron Hager, *Urbana, IL* (2012)

Brad Hanson, *Davis, CA* (2013)

Prashant Jha, *Huntley, MT* (2016)

Amit Jhala, *Lincoln, NE* (2018)

William Johnson, *West Lafayette, IN* (2007)

Andrew Kniss, *Laramie, WY* (2016)

Drew Lyon, *Pullman, WA* (2018)

Patrick McCullough, *Griffin, GA* (2016)

Scott McElroy, *Auburn, AL* (2012)

Robert Nurse, *Guelph, ON* (2016)

Darren Robinson, *Ridgetown, ON* (2008)

Larry Steckel, *Jackson, TN* (2007)

Daniel Stephenson, *Alexandria, LA* (2013)

Mark VanGessel, *Georgetown, DE* (2013)

Michael Walsh, *Crawley, Australia* (2016)

Eric Webster, *Baton Rouge, LA* (2018)

Cammy Willett, *Fayetteville, AR* (2017)

Tracy Candelaria, *Managing Editor*

Officers of the Weed Science Society of America

<http://wssa.net/society/bod/>

Weed Technology (ISSN 0890-037X) is published by the Weed Science Society of America, 12011 Tejon Street, Suite 700, Westminster, CO 80234. It is published bimonthly, one volume per year, six issues per year beginning in February.

Membership includes online access to *Weed Technology*, *Weed Science*, *Invasive Plant Science and Management*, and the online *WSSA Newsletter*. Dues should be sent to WSSA, 12011 Tejon Street, Suite 700, Westminster, CO 80234 no later than December 1 of each year. Membership in the society is on a calendar-year basis only.

New subscriptions and renewals begin with the first issue of the current volume. Please visit the *Weed Technology* subscription page at <https://www.cambridge.org/core/journals/weed-technology/subscribe>; Email: subscriptions_newyork@cambridge.org in USA, journals@cambridge.org outside USA.

Weed Technology publishes six times a year in February, April, June, August, October, and December. Annual institutional electronic subscription rates: US \$388.00; UK £270.00.

Please use Editorial Manager to access manuscript submissions (<http://www.editorialmanager.com/wt>). Authors are asked to pay \$85 for the first page and \$65 per page thereafter as a portion of the cost of publication, plus an additional processing charge of \$55 per manuscript if none of the authors are WSSA members. The Editor can make exceptions in advance when justified.

The Weed Science Society of America fully subscribes to the belief that progress in science depends upon the sharing of ideas, information, and materials among qualified investigators. Authors of papers published in *Weed Technology* are therefore encouraged, whenever practicable and when state and federal laws permit, to share genotypically unique propagative materials they might possess with other workers in that area who request such materials for the purpose of scientific research.

NUMBER 1

• RESEARCH ARTICLES

Effect of Growth Stage on Cotton Response to a Sublethal Concentration of Dicamba. John T. Buol, Daniel B. Reynolds, Darrin M. Dodds, J. Anthony Mills, Robert L. Nichols, Jason A. Bond, Johnie N. Jenkins and Janice L. DuBien	1
Response of 'Russet Burbank' Seed Tubers Containing Dicamba and Glyphosate. Nelson D. Geary, Harlene Hatterman-Valenti, Gary A. Secor, Richard K. Zollinger and Andrew P. Robinson	9
Effect of Low Doses of Dicamba Alone and in Combination with Glyphosate on Parent Soybean and Offspring. Gordon T. Jones, Jason K. Norsworthy, Tom Barber, Edward Gbur and Greg R. Kruger	17
Off-Target Movement of Diglycolamine Dicamba to Non-dicamba Soybean Using Practices to Minimize Primary Drift. Gordon T. Jones, Jason K. Norsworthy and Tom Barber	24
Response of Soybean Offspring to a Dicamba Drift Event the Previous Year. Gordon T. Jones, Jason K. Norsworthy and Tom Barber	41
Off-target Movement of DGA and BAPMA Dicamba to Sensitive Soybean. Gordon T. Jones, Jason K. Norsworthy, Tom Barber, Edward Gbur and Greg R. Kruger	51
Droplet Size Impact on Efficacy of a Dicamba-plus-Glyphosate Mixture. Thomas R. Butts, Chase A. Samples, Lucas X. Franca, Darrin M. Dodds, Daniel B. Reynolds, Jason W. Adams, Richard K. Zollinger, Kirk A. Howatt, Bradley K. Fritz, W. Clint Hoffmann, Joe D. Luck and Greg R. Kruger	66
Evaluating risks of plant growth regulator-resistant soybean technologies to horseradish production. Kayla N. Wiedau, Ronald F. Krausz, S. Alan Walters, Joseph L. Matthews and Karla L. Gage	75
Effects of Low-Dose Flumioxazin and Metribuzin Postemergence Applications on Soybean. Daniel O. Stephenson IV, Todd A. Spivey, Michael A. Deliberto Jr., David C. Blouin, Brandi C. Woolam and Trace B. Buck	87
Palmer Amaranth (<i>Amaranthus palmeri</i>) and Velvetleaf (<i>Abutilon theophrasti</i>) Control in No-Tillage Conventional (Non-genetically engineered) Soybean Using Overlapping Residual Herbicide Programs. Debalin Sarangi and Amit J. Jhala	95
Herbicide Options for Control of Palmer Amaranth (<i>Amaranthus palmeri</i>) and Common Waterhemp (<i>Amaranthus rudis</i>) in Double-Crop Soybean. Marshall M. Hay, Douglas E. Shoup and Dallas E. Peterson	106
Control of Atrazine-Resistant Palmer Amaranth (<i>Amaranthus palmeri</i>) in Double-Crop Grain Sorghum. Marshall M. Hay, Jeffrey J. Albers, J. Anita Dille and Dallas E. Peterson	115
Turnip Tolerance to Preplant Incorporated Trifluralin. Sushila Chaudhari, Katherine M. Jennings, Stanley Culpepper, Roger B. Batts and Robin Bellinder	123
Response of Palmer Amaranth and Sweetpotato to Flumioxazin/Pyroxasulfone. Shawn C. Beam, Sushila Chaudhari, Katherine M. Jennings, David W. Monks, Stephen L. Meyers, Jonathan R. Schultheis, Mathew Waldschmidt and Jeffrey L. Main	128
Evaluation of POST-Directed Applications of Flumioxazin in New Mexico Chile Pepper. Brian J. Schutte, Erik A. Lehnhoff and Leslie L. Beck	135
Development and Evaluation of a Hole-Punch Applicator for Precision Application of Preemergence Herbicides in Plasticulture Production. Nathan S. Boyd and Arnold Schumann	142
Tolerance of Sweetpotato to Herbicides Applied in Plant Propagation Beds. Stephen C. Smith, Katherine M. Jennings, David W. Monks, Jonathan R. Schultheis and S. Chris Reberg-Horton	147
Droplet-Size Effects on Control of <i>Chloris</i> spp. with Six POST Herbicides. J. Connor Ferguson, Bhagirath S. Chauhan, Rodolfo G. Chechetto, Andrew J. Hewitt, Steve W. Adkins, Greg R. Kruger and Chris C. O'Donnell	153
Can Weeds Overtopping Soybean or Adzuki Bean Be Mechanically Pulled to Reduce Their Seed Input? Marie-Josée Simard, Eric R. Page and Robert E. Nurse	159
Preplant and Residual Herbicide Application Timings for Weed Control in No-Till Soybean. Kurt M. Vollmer, Mark J. VanGessel, Quintin R. Johnson and Barbara A. Scott	166

Suppression of Annual Ryegrass in Corn with Nicosulfuron. Taïga B. Cholette, Nader Soltani, David C. Hooker, Darren E. Robinson and Peter H. Sikkema	173
Sensitivity of Dry Bean to Herbicides Applied Preplant for Glyphosate-Resistant Horseweed Control in a Strip-Tillage Cropping System. Nader Soltani, Christy Shropshire and Peter H. Sikkema	178
Fineleaf Fescue Species and Variety Tolerance to Glyphosate. Shawn D. Askew, Whitnee B. Askew and J. Michael Goatley Jr	185
Great Plains Yucca (<i>Yucca glauca</i>) Control on Shortgrass Rangelands. Walter H. Fick and Keith Harmony	192
Key Morphological Events following Late-Season Goosegrass (<i>Eleusine indica</i>) Germination. Robert Andrew Kerr, Lambert B. McCarty, William C. Bridges and Matthew Cutulle	196

• **WEED BIOLOGY AND COMPETITION**

Studies on Seed biology, Distribution, and Chemical Control of Smellmelon (<i>Cucumis melo</i> var. <i>agrestis</i> Naudin): An Invasive Weed. Reza Noor-Ziarat, Mohammad Rezvani, Naser Bagherani and W. James Grichar	202
---	-----

• **RESEARCH ARTICLES**

Carolina Redroot (<i>Lachnanthes caroliniana</i>) in Cranberry: Assessment of Shoot and Rhizome Control with POST Herbicides. Thierry E. Besançon	210
Dispersal and Frequency of Glyphosate-Resistant and Glyphosate-Tolerant Weeds in Soybean-producing Edaphoclimatic Microregions in Brazil. Felipe Ridolfo Lucio, Augusto Kalsing, Fernando Storniolo Adegas, Caio Vitagliano Santi Rossi, Núbia Maria Correia, Dionisio Luiz Pisa Gazziero and Alexandre Ferreira da Silva	217
