Production, Circulation, and Accumulation: The Historiographies of Capitalism in China and South Asia – ERRATUM

Andrew B. Liu

doi:10.1017/S0021911819000676, published by Cambridge University Press 1 July 2019

Due to a production error, the published version of this article is missing the prime mark in Marx's formula for the accumulation of capital on page 15. The correct sentence should read:

In Marx's *Capital*, he summarized the movement of capital as “the transformation of money into commodities, and the change of commodities back again into [more] money”: M-C-M' in his particular notation (Marx [1867] 1976, 250).

The publisher apologizes for this error.
