

The **MUSLIM WORLD BOOK REVIEW**, a quarterly journal published by the Islamic Foundation, Leicester, U.K., in association with the International Institute of Islamic Thought (Héndon) U.S.A., provides a unique source of information for all who are concerned with development in the Muslim world. Most recent publications in this field are listed and important books are reviewed by eminent world scholars. It critically analyses views expressed both in the West and the East on a variety of issues related to the Muslim world. Each issue of this journal is rich in information, criticism and suggestions which go a long way to promoting a better understanding of the Muslim world and cementing healthy relations between the East and the West. The MWBR is a

most effective forum for the Muslim response to Western scholarship.

Apart from the classified guide to resources on Islam, the MWBR also includes occasional bibliographies on themes of vital interest for researchers and students of Islamic studies.

INDEX OF ISLAMIC LITERATURE, a supplement to the **MUSLIM WORLD BOOK REVIEW**, has been launched to bring the same norms of academic rigour, analytical clarity and Islamic commitment that have made the MWBR the mouthpiece of contemporary Muslim intellectualism, to the field of bibliography. It not only reports on the literature produced but guides as well. Recognizing that bibliographies function as ideological statements, the Index acts in the service of Muslim scholarship.

Together, the Review and the Index are indispensable for libraries, scholars and general readers. Nothing published elsewhere matches their ideational coverage, intellectual depth and critical acumen.
