Workable Solutions to Advancing Women in the Profession Ad Hoc Committee

The goal of the committee is not to collect more data about the position of women in political science but to begin the process of ensuring that such focused and systematic policies are put in place. The committee will be concerned with actual and potential solutions to the problem; it will identify and bring together promising policies that already exist in some universities with suggestions for new policies that offer workable solutions. The package of policies will then be publicized as "best practice" throughout our discipline so that everyone is aware of what can and should be done.

The APSA has no enforcement powers, but it does have the power of publicity and the support of women in our profession.
