

Editorial

I would like to thank Katherine Demuth for all the hard work she has put in as an Associate Editor of the Journal over the last four years, and to welcome Daniel Dinnsen of Indiana University and Rosemarie Tracy of the University of Mannheim as new Associate Editors.

Readers may like to know that provided their institution subscribes to the Journal, everyone within that institution can obtain access to the full text. In addition, the service provides all users with free access to tables of contents and abstracts, and a free email alerting service.
