Intending members of the Mathematical Association are requested to communicate with one of the Secretaries, F. W. Kellaway, 87 Pixmore Way, Letchworth, Herts.; Miss M. E. Bowman, Maria Grey College, Brondesbury, London, N.W. 6. The subscription to the Association is 21s. per annum, and is due on Jan. 1st. Each member receives a copy of "The Mathematical Gazette" and a copy of each new Report as it is issued.

Change of Address should be notified to the Membership Secretary, Mr. M. A. Porter, Gordon House, 29 Gordon Square, London, W.C. 1. If Copies of the "Gazette" fail for lack of such notification to reach a member, duplicate copies can be supplied only at the published price. If change of address is the result of a change of appointment, the Membership Secretary will be glad to have notice of this.

Subscriptions should be paid to the Hon. Treasurer, Mathematical Association, Gordon House, 29 Gordon Square, London, W.C. 1.

BELL

THE EARTH AND THE SKY ELEMENTARY MATHEMATICS

By A. ROBSON, M.A. 2s. 6d.

CONTENTS : I, The Earth ; II, The Sky ; III, Spherical Geometry ; IV, Plane Trigonometry ; V, Spherical Trigonometry ; VI, Astronomy and Navigation ; Declinations, Right Ascensions and Magnitudes.

" This excellent little book . . . many definitions and new terms usually crowded into the first chapter of an advanced book are here amplified and explained, and their understanding assisted by the provision of many easy exercises."

MATHEMATICAL GAZETTE.

POLISH UP YOUR MATHEMATICS

By R. C. FAWDRY, M.A., B.Sc. Eighth Edition. 6s. net.

A general survey of the elementary parts of mathematics which have a practical bearing in everyday life and which are within the grasp of anyone who takes any interest in the subject. " There is plenty of solid instruction as well as historical and practical illustration. . . . The text is full of interesting and amusing information . . . this lively and instructive book would make a good prize for a boy or girl still at school." MATHEMATICAL GAZETTE.

MATHEMATICS AND THE IMAGINATION

By EDWARD KASNER and JAMES NEWMAN. Second Edition. 15s. net.

" Makes fascinating reading and the book—a fine prize for the mathematically inclined Sixth-Former—may worthily occupy a place on the shelf by the side of, say, Rouse-Ball's *Mathematical Recreations* . . . Get it for the School library—but read it yourself first."—SCHOOL SCIENCE REVIEW.

" Although written in popular language it avoids the pitfalls commonly found in books of this type. . . . A book for the mathematical library to provide stimulating reading for sixth-form specialists and their teachers." JOURNAL OF EDUCATION.
