Special sales and supplements

This journal accepts advertising and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplementary material including conference proceedings on behalf of academic and corporate sponsors. Please contact Sarah Maddox at Cambridge University Press for further details (email: smaddox@cambridge.org).

Subscription information

Public Health Nutrition is an international journal published 18 times per year by Cambridge University Press on behalf of the Nutrition Society. The online edition is available at journals.cambridge.org/PHN, with free table of contents alert (upon registration).

Annual subscription rates

Volume 23, 2020 (18 issues):
Internet/print package: £1391/\$2669 Americas only/€2230 EU only
Internet only: £1007/\$1911 Americas only/€1601 EU only

Any supplements to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

Claims for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

Advertising: The Nutrition Society is willing to include advertisements in its journals. However, it will retain the right to make decisions on which advertisements are acceptable and which are not, and will not be obliged to give reasons to prospective

advertisers for its decisions. The appearance of an advertisement in the Society's journals does not imply endorsement by the Society. For further details, please contact Cambridge University Press.

Back volumes will be available in due course. Please contact Cambridge University Press for further information.

US POSTMASTERS: Please send address corrections to Cambridge University Press
1 Liberty Plaza
Floor 20, New York
NY 10006
USA

Notes for Authors are available from the publisher at the given address and can be found inside the back cover.

Offprints: The author (or main author) of an accepted paper will receive a free PDF of their paper. Additional offprints are available for a fee and must be ordered at proof stage. **No page charges are levied by this journal.**

Copyright: As of 1 January 2001 the copyright of all articles submitted to *Public Health Nutrition* are retained by the authors or their institutions. For articles prior to this date permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Editorial Office, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, Hammersmith, London, W6 7NJ, UK.

Disclaimer: The information contained herein, including any expression of opinion and any projection or forecast, has been obtained from or is based upon sources believed by us to be reliable, but is not guaranteed as to accuracy or completeness. The information is supplied without obligation and on the understanding that any person who acts upon it or otherwise changes his/her position in reliance thereon does so entirely at his/her own risk. This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see www.fsc.org for information. Typeset by Macmillan India Limited, Bangalore, India and Printed in Europe by Bell and Bain, Glasgow.

Public Health Nutrition is covered in Science Citation Index Expanded (Web of Science), Current Contents, Agriculture, Biology & Environmental Sciences, Current Contents, Clinical Medicine, CAB ABSTRACTS[®], Global Health, Index Medicus[®] (MEDLINE[®]), EMBASE, Excerpta Medica, BIOSIS[®] Database and CINAHL[®] Database
Public Health Nutrition participates in the following initiatives: HINARI by WHO and AGORA by FAO.

Public Health Nutrition (PHN) provides a forum for the presentation of original research findings and high quality reviews of key topics, and for discussion of and debate on of current issues and controversies. It also publishes special issues on major topics of interest. Our field includes research, scholarship, and discussions on public health nutrition, that take a population, health promoting and preventive approach. Papers that do not have this emphasis may be directed to more appropriate journals. Potential contributors are encouraged to read the aims and scope of the journal, and to note and follow the guidelines set out below.

Content:

- **Original research findings and scientific reviews** are published as full papers usually less than 5000 words, not including the abstract, references, tables, figures and acknowledgements.
- **Editorials** express the opinion of the journal, as represented by its central editorial team, on topics judged by them to be important. Editorials, including guest editorials, are usually co-ordinated and developed by the editorial team.
- **Position papers**, including declarations and other statements of policy, may be invited or unsolicited.
- **Invited commentaries and book reviews** are expressions of opinion on a topical subject. These are commissioned by the members of the editorial team.
- **Letters to the Editors** are usually in response to material published in *PHN*. Submissions are sent to the author for comment and, when possible, published together with the author's reply.

Submission: PHN operates an online submission and reviewing system. All manuscripts should be submitted to <http://mc.manuscriptcentral.com/phnutr>. Please contact the Editorial Office on phn.edoffice@cambridge.org regarding any other types of submission.

Refereeing: Review articles and articles reporting original research are subject to external review by two or more referees who evaluate manuscripts based on their importance, relevance, and originality. Authors are asked to submit names and contact details (including email address) of up to four potential referees. All other contributions (editorials, position papers, invited commentaries, book reviews, and letters to the Editors) undergo an internal review process by at least two members of the editorial team. Invited commentaries and book reviews may also be checked externally as necessary to avoid technical errors and to improve salience.

Copyright: At the time of acceptance, authors will be asked to provide a completed copy of the 'Licence to Publish' (in lieu of copyright transfer), available at <https://www.nutritionociety.org/>. It is the author's responsibility to obtain written permission to reproduce any material (including text and figures) that has appeared in another publication.

Preparation of manuscripts: Please refer to the full Directions to Contributors on our website (<http://www.nutritionociety.org>). Manuscripts should be in clear and concise English, and spelling should follow the Oxford English Dictionary. For authors whose native tongue is not English, in-house editorial attention to their contributions will improve clarity. On acceptance, all contributions are subject to editorial amendment to conform to house style. Manuscripts should be prepared in a common word processing package (Word for Windows is preferred) in Times New Roman or other common typeface, prepared with double-spaced text, at least 2 cm margins, and page and line numbers. Standard abbreviations and SI units must be used.

Disclosure of financial support and any competing interests.

The submission must include a statement within an Acknowledgements section reporting any competing interests (financial and non-financial), all sources of funding, and the nature of the contribution of each author to the manuscript. If there are no competing interests, this must be stated. Authors are asked to provide this information during the submission process and should not include it as part of the manuscript to allow for double-blind reviewing.

Arrangement of papers:

1. **Title page** should include the article title, author(s), affiliation(s), up to eight keywords, one author identified for correspondence (with full postal address, telephone and fax numbers, and email address), and a running title of up to 45 characters. The title page should be submitted online as a separate cover letter, not as part of the manuscript, to enable double-blind reviewing.
2. **Abstract** should be structured, usually using the following internal headings: Objective, Design, Setting, Subjects, Results, Conclusions. Abstracts should be intelligible without reference to text or figures and should not exceed 250 words.
3. **Text** should be divided under headings (typically to include Introduction, Methods, Results, Discussion and Conclusions), and sub-headings as appropriate. Conclusions should include recommendations that derive from the research and that are concrete, feasible, and potentially effective. Emphasising that more research is needed is usually not necessary unless there is specific reason to say so. All submissions must include a statement that the research was conducted in accordance with guidelines laid down by the Declaration of Helsinki and approved by an ethics review committee.
4. **Acknowledgements** (sources of funding, competing interests declaration, authorship responsibilities, acknowledgements) should be provided during the submission process, not as part of the manuscript.
5. **References** should be in Vancouver style. Please refer to the full Directions to Contributors.
6. **Tables** should be reduced to the simplest form and should not be used where text or figures give the same information. Each table must be accompanied by a clear and concise caption that is comprehensible without reference to the text. Longer tables may be published online only.
7. **Figures** should be numbered, and legends should be provided. Each figure, with its legend, should be comprehensible without reference to the text and include definitions of abbreviations.

Proofs: Correspondence and proofs for correction will be emailed to the first named author unless otherwise indicated. The author will receive a PDF proof for checking. It is important that proofs be returned promptly. Authors may be charged for any alterations in excess of 10% of original setting.

Offprints: The corresponding author will receive a PDF of the published paper free of charge. Offprints are available to purchase and must be ordered before publication.

In this Issue

Food insecurity and its potential consequences
Allison Hodge 577

Monitoring and surveillance

What to expect from the price of healthy and unhealthy foods over time? The case from Brazil
Emanuella Gomes Maia, Camila Mendes dos Passos, Renata Bertazzi Levy, Ana Paula Bortoletto Martins, Laís Amaral Mais and Rafael Moreira Claro 579

Assessment and methodology

Accuracy of anthropometric measurements and weight status perceptions reported by parents of 4-year-old children
María D Esteban-Vasallo, Ignacio Galán, Maira A Ortiz-Pinto, Amelia Astray San Martín, Eva M Cabrero López, María Teresa Morales San José and Honorato Ortiz-Marrón 589

Behavioural nutrition

Validation of the Child Feeding Questionnaire among Saudi pre-schoolers in Jeddah city
Rana H Mosli 599

Vegetarianism and other eating practices among youth and young adults in major Canadian cities
Laura Vergeer, Lana Vanderlee, Christine M White, Vicki L Rynard and David Hammond 609

Estimating and differentiating maternal feeding practices in a country ranked first in childhood obesity
Ana María Salinas Martínez, Hid Felizardo Cordero Franco, Daniela Berenice Estrada de León, Gloria Estefanía Medina Franco, Francisco Javier Guzmán de la Garza and Georgina Mayela Núñez Rocha 620

Associations among eating behaviour traits, diet quality and food labelling: a mediation model
Raphaëlle Jacob, Vicky Drapeau, Benoît Lamarche, Éric Doucet, Sonia Pomerleau and Véronique Provencher 631

Nutritional epidemiology

Association between food insecurity and emotional eating in Latinos and the mediating role of perceived stress
Andrea López-Cepero, Christine Frisard, Ganga Bey, Stephenie C Lemon and Milagros C Rosal 642

Intakes of energy, macronutrients and micronutrients of a population in severe food insecurity risk in Brazil
Stefanie Eugênia dos Anjos Coelho Kubo, Teresa Helena Macedo da Costa and Muriel Bauermann Gubert 649

Depression among women of reproductive age in rural Bangladesh is linked to food security, diets and nutrition
Thalia M Sparling, Jillian L Waid, Amanda S Wendt and Sabine Gabrysch 660

Adherence to the Dietary Approaches to Stop Hypertension (DASH) diet is associated with lower presence of non-alcoholic fatty liver disease in middle-aged and elderly adults
Mian-Li Xiao, Jie-Sheng Lin, Yi-Hong Li, Meng Liu, Yun-Yang Deng, Chang-Yi Wang and Yu-Ming Chen 674

Assessing the impact of food insecurity on HIV medication adherence in the context of an integrated care programme for people living with HIV in Vancouver, Canada
Katrina Koehn, Taylor McLinden, Alexandra B Collins, Patrick McDougall, Rosalind Baltzer-Turje, Christiana Miewald, Lu Wang, Jenny Li, Kate A Salters, Robert S Hogg and Surita Parashar 683

Community nutrition

Development and validation of the Dental Nutrition Knowledge Competency Scale for low-income women
Prageet K Sachdev, Jeanne Freeland-Graves and Mahsa Babaei 691

Food insecurity is associated with suboptimal sleep quality, but not sleep duration, among low-income Head Start children of pre-school age
Muzi Na, Sally G Eagleton, Lamis Jomaa, Kristen Lawton and Jennifer S Savage 701

Recent surge of ready meals in South Korea: can they be healthy alternatives?
So-young Kim and Suyoun Kim 711

Food insecurity and weight status of socially vulnerable child beneficiaries of a food assistance programme in Maceió, Northeast Brazil
Priscila Nazaré Lucena, Nassib Bezerra Bueno, Karlla Almeida Vieira, Marcela Jardim Cabral, Ana Paulo Grotti Clemente and Telma Maria de Menezes Toledo Florêncio 721

Interventions

Parents' reactions to unhealthy food v. pro-health sponsorship options for children's sport: an experimental study
Maree Scully, Melanie Wakefield, Simone Pettigrew, Bridget Kelly and Helen Dixon 727

Public policies

Food democracy, health disparities and the New York City *trans* fat policy
Kimberly E Johnson 738

Evaluating the impact of Chile's marketing regulation of unhealthy foods and beverages: pre-school and adolescent children's changes in exposure to food advertising on television
Francesca R Dillman Carpentier, Teresa Correa, Marcela Reyes and Lindsey Smith Taillie 747

Effects of family income and conditional cash transfers on household food insecurity: evidence from a longitudinal study in Northeast Brazil
Poliana A Palmeira, Rosana Salles-Costa and Rafael Pérez-Escamilla 756
