

CONTENTS OF No. 334, JUNE 1981

| | <i>page</i> |
|---|-------------|
| B. W. D. YARDLEY and C. B. LONG: Contact metamorphism and fluid movement around the Easky adamellite, Ox Mountains, Ireland | 125 |
| M. J. LE BAS: Carbonatite magmas | 133 |
| C. TH. PAPAVALIIOU and M. E. COSGROVE: Chemical and mineralogical changes during basalt-seawater interaction: Site 223, Leg 23, DSDP, north-west Indian Ocean | 141 |
| A. E. MOORE: Unusual perovskite textural relationships in olivine melilitites from Namaqualand-Bushmanland, South Africa | 147 |
| S. A. WILLIAMS: Duhamelite, $\text{Cu}_4\text{Pb}_2\text{Bi}(\text{VO}_4)_4(\text{OH})_3 \cdot 8\text{H}_2\text{O}$, a new Arizona mineral | 151 |
| P. BAYLISS: Unit cell data of serpentine group minerals | 153 |
| C. K. BROOKS, P. HENDERSON, and J. G. RØNSBO: Rare-earth partition between allanite and glass in the obsidian of Sandy Braes, Northern Ireland | 157 |
| R. N. THOMPSON: Thermal aspects of the origin of Hebridean acid magmas. I. An experimental study of partial fusion of Lewisian gneisses and Torridonian sediments | 161 |
| M. B. FOWLER, H. R. WILLIAMS, and B. F. WINDLEY: The metasomatic development of zoned ultramafic balls from Fiskenaeset, West Greenland | 171 |
| A. REAY: The effect of disc mill grinding on some rock-forming minerals | 179 |
| P. J. TRELOAR: Garnet-biotite-cordierite thermometry and barometry in the Cashel thermal aureole, Connemara, Ireland | 183 |
| A. KERR: Zoning in garnets from the mainland Lewisian | 191 |
| G. D. PRICE: Diffusion in the titanomagnetite solid solution series | 195 |
| J. A. ASPDEN: The composition of solid inclusions and the occurrence of shortite in apatites from the Tororo carbonatite complex of eastern Uganda | 201 |
| J. E. CHISHOLM: Pyribole structure types | 205 |
| B. BEDDOE-STEPHENS and N. J. FORTEY: Columbite from the Carrock Fell tungsten deposit | 217 |
| Z. AHMED and J. C. BEVAN: Awaruite, iridian awaruite, and a new Ru-Os-Ir-Ni-Fe alloy from the Sakhakot-Qila complex, Malakand Agency, Pakistan | 225 |
| R. NAWAZ and J. F. MALONE: Orientation and geometry of the thomsonite unit cell: a re-study | 231 |
| P. J. DUNN: Akrochordite, a second occurrence: Sterling Hill, New Jersey | 235 |
| M. C. GEORGE, M. STONE, E. E. FEJER, and R. F. SYMES: Triplite from the Megilgar Rocks, Cornwall | 236 |
| Book Reviews | 239 |

UNIVERSITY PRESS, OXFORD, ENGLAND
