

## ERRATUM

### THE WUWEI MEDICAL MANUSCRIPTS: A BRIEF INTRODUCTION AND TRANSLATION – ERRATUM

Yong Yang and Miranda Brown

<https://doi.org/10.1017/eac.2017.3> Published by Cambridge University Press, 24 April 2017.

**Keywords:** Wuwei, medical strips, pharmacology, Eastern Han dynasty, 武威, 醫簡, 藥物學, 東漢,

The article by Yang and Brown<sup>1</sup> as published in the latest issue of the journal was accidentally missing the translation section, and included only the Introduction. The complete article, including both sections was first published online as an individual, complete article but on placing it in the issue the translation part was excluded. The entire issue has now been updated and reprinted to include the complete article, and thus the pagination for this article and those following it have been changed. The corrected citation is provided below.

The publisher apologises to the authors and readers for this error.
