

Proceedings of the
CAMBRIDGE PHILOSOPHICAL
SOCIETY

(MATHEMATICAL AND PHYSICAL SCIENCES)

VOLUME 53

PART 2

CAMBRIDGE UNIVERSITY PRESS

BENTLEY HOUSE, 200 EUSTON ROAD, LONDON, N.W.1
AMERICAN BRANCH: 32 EAST 57TH STREET, NEW YORK 22, N.Y.

Price Thirty-five Shillings Net (U.S.A. \$6.00)

Subscription price per volume £6 net post free (\$20.00 in U.S.A.)

April 1957

CAMBRIDGE PHILOSOPHICAL SOCIETY

FOUNDED 1819; ROYAL CHARTER 1832

Session 1956-1957

President: F. J. W. ROUGHTON

Vice-Presidents: E. C. BATE-SMITH, F. P. BOWDEN, F. G. YOUNG

Treasurer: M. V. WILKES

Secretaries: (Mathematical) H. G. EGGLESTON

(Physical) T. E. FABER

(Biological) S. SMITH

The publications of the Society consist of the *Proceedings* and of the *Biological Reviews*. The publication of *Transactions* was suspended at the end of Volume XXII.

Orders should be sent to: THE MANAGER, CAMBRIDGE UNIVERSITY PRESS, BENTLEY HOUSE, 200 EUSTON ROAD, LONDON, N.W.1. Enquiries from the U.S.A. should be addressed to the Cambridge University Press, American Branch, 32 East 57th Street, New York 22, U.S.A.

For the purchase of early parts of the *Transactions*, *Proceedings* and *Biological Reviews* application should be made to the Secretaries. All parts of the *Proceedings* and *Biological Reviews* are available, and prices of sets or single parts will be quoted on application.

Fellows and Associates of the Society are particularly requested to inform the Secretaries of any change of postal address, and to send their subscriptions to the Treasurer, CAMBRIDGE PHILOSOPHICAL SOCIETY, FREE SCHOOL LANE, CAMBRIDGE.

All correspondence regarding library exchanges and Fellows' copies should be addressed to the Secretaries at the Society's office.

PROCEEDINGS of the CAMBRIDGE PHILOSOPHICAL SOCIETY

edited by

H. G. EGGLESTON

H. P. F. SWINNERTON-DYER

in consultation with

T. E. FABER

D. R. HARTREE

D. G. KENDALL

F. SMITHIES

F. URSELL

D. H. WILKINSON

1. Four parts of the *Proceedings* are issued each year.
2. Communications for the *Proceedings* should be sent to *The Librarian, Cambridge Philosophical Society, Free School Lane, Cambridge*. Papers by Fellows and Associates of the Society should be communicated directly by the author. Other papers must be communicated by a Fellow, who in doing so should give his opinion on the suitability of the paper for publication.
3. Papers occupying more than twenty pages of print can only very rarely be accepted.
4. It is recommended that each paper be prefaced by a short abstract. Copies of a *Guide for the Preparation of Synopses*, prepared by the Abstracting Services Consultative Committee and issued by the Royal Society, may be obtained from the Librarian.
5. Drawings for illustrations and diagrams should be on a large scale and on smooth white Bristol board in Indian ink.
6. References should be listed at the end of each paper. World List abbreviations for titles of journals should be used and first and last page numbers given where relevant.
7. Authors are particularly requested to prepare their manuscripts in a form suitable for printing, with adequate margins. A pamphlet on the preparation of papers may be obtained from the Librarian. If a large number of corrections are required in the proofs, the Council reserves the right to make a charge towards the cost.
8. Authors may receive, on request, fifty offprints of a paper in the *Proceedings* without charge.

Thermodynamics & Statistical Mechanics

A. H. WILSON

A book for theoretical physicists, experimental physicists, and physical chemists interested in the fundamental principles of the subject. 50s. net

Vibration Analysis Tables

R. E. D. BISHOP & D. C. JOHNSON

Tabulated functions and standard formulae for designers calculating the natural frequencies of vibration of engineering structures and mechanisms.

10s. 6d. net

Table of the Fresnel Integral

T. PEARCEY

A table of the Fresnel Integral to six decimal places, first published in Australia. A companion volume to *Anti-Composition* Tables, published in 1955.

12s. 6d. net

Plastic Design of Portal Frames

JACQUES HEYMAN

An account of the plastic theory of the design of steel-framed buildings, developed at Cambridge over the past twelve years. *Ready May.*

12s. 6d. net

The Hypercircle in Mathematical Physics

J. L. SYNGE

A method for the approximate solution of boundary value problems. The mathematics is precise and the book should interest mathematicians, physicists and engineers. *Ready May.*

THE JOURNAL

MONTHLY. Subjects of general interest, as apart from the specialised papers and discussions appearing in Parts "A" and "B" of the Proceedings, are treated in the monthly JOURNAL which is distributed free to members of the Institution but is also on sale to non-members.

THE PROCEEDINGS

Part "A". Contains papers and discussions concerning the specialised spheres of power generation, transmission, meters and instruments...and applications of electricity. Published in February, April, June, August, October, and December.

THE PROCEEDINGS

Part "B". Contains papers and discussions concerning the progress and developments in the fields of telecommunication, radio, electronics and the many allied interests. Published in January, March, May, July, September, and November.
