“My husband is 55 years old.
And he’s been stolen from me.”

Alzheimer Disease is a degenerative brain disorder that destroys vital brain cells. It affects over 300,000 Canadians. And that’s not including the people who love them.

Slowly, the disease steals away the ability to think, understand, remember, communicate, or perform the simplest tasks, leaving them completely dependent.

There is no known cause, nor is there a cure. Today.

The Alzheimer Society of Canada is a national organization dedicated to helping those affected by the disease, as well as their caregivers. We also conduct research into possible causes, treatments and a cure, so that we can put an end to the devastation of this killer disease.

Tomorrow.

Alzheimer
CANADA

Help for Today. Hope for Tomorrow.

Fight cancer with will power.

When it comes to your will, your family and loved ones come first.

But after everyone in your life has been well provided for, we ask that you give some thought to leaving a bequest to the Canadian Cancer Society.

While much of the Society's funds come from regular donations, a significant amount comes from bequests made in

wills. The money is used to support the Society's on-going programs in research, public education and patient services.

No matter what the size of the bequest, we need your support.

So when the time comes, please remember: a strong will can go a long way in the fight against cancer.

Copies of articles from this publication are now available from the UMI Article Clearinghouse.

For more information about the
Clearinghouse, please fill out and mail back
the coupon below.
