Microfilmed copies of back numbers are available from EP Microform Ltd, Bradford Road, East Ardsley, Wakefield, Yorkshire.

**THE NATIONAL INSTITUTE OF
ECONOMIC AND SOCIAL RESEARCH**

This Review is intended to be of service to those, in business and elsewhere, who need to take a view of the general economic situation and prospects. The workings of the economy are not fully understood; and even if they were economic prediction would remain hazardous because of the impact of political events and technological developments. Nevertheless the Institute believes that a group of economists, presenting a comprehensive account of current economic developments and a coherent view of likely trends, can perform a useful service.

Acknowledgements

The Review was launched with the aid of a five-year grant from the Ford Foundation. Since 1966 the Social Science Research Council has made grants towards the cost of research and editorial work for the Review. The Institute gratefully acknowledges these grants and also the contributions from British companies and banks for support of the Institute's research. Subscriptions to the Review cover the cost of printing and distribution only.

The Institute is also grateful to many people in industry for giving the authors the benefit of their knowledge and experience, and to officials in Government departments who have assisted with advice in the interpretation of official statistics.

Authorship

The general articles in this Review are the joint work of members of the research staff, under the general supervision of the Editorial Board. The contents will usually be unsigned, the views expressed being the responsibility of the Editorial Board. When articles are signed the views expressed are the responsibility of the authors.
