WITH FFPS

YOU KNOW WHERE ALL YOUR GIFT GOES

Nearly everybody donates to one charity or another,
but where does your money **really** go?

A legacy to the ORYX 100% Fund means
your gift—100% of it—will go direct to save an endangered species.

Please write to the FFPS office for further details.

The Partridge

Pesticides, Predation and Conservation

G. R. Potts

'The book is skilfully written and provides a valuable compendium of facts about the partridge and the impact on it of changing agricultural practices on arable farms . . . The author and the Game Conservancy are to be congratulated on this most productive study.'

BIRDS - Magazine of the RSPB

'This superb monograph could not be more timely'

Journal of The British Association of Nature Conservationists

There is an enormous tide of decline in partridge numbers due mostly to the use of pesticides. This book seeks to promote a better understanding of partridge ecology and thereby encourage methods of conservation which could arrest the decline.

288 pages hardback £19.95

CONSERVATION OF **EUROPEAN BATS**

R.E. Stebbings

A timely review of the complex conservation problems facing European bats. The book presents practical conservation policies, priorities and guidelines for bats. Written by one of Europe's leading authorities and published under the aegis of the International Union for the Conservation of Nature, this is an indispensable conservation handbook.
