CUSTOMIZED PRODUCTION ION IMPLANTERS

- Beam energies from 10 keV up to several 10s of MeV
- Beam currents from 100 micro-amps up to several milliamps
- Ion species, including H, He, B, P, As and others
- Single wafer or batch processing of wafers up to and including 300 mm
- In-air or in-vacuum cassette-to-cassette wafer handling
- Electrostatic and/or mechanical wafer clamping

creative inking

Select. Formulate. **Bioprint.**

Want to keep innovation flowing in your bioprinting research? It's easy when you team up with a leader in polymers and nanomaterials for 3D printing. Watch your research take shape with our vast selection of materials and inks ready for your printer and application.

The life science business of Merck KGaA, Darmstadt, Germany operates as MilliporeSigma in the U.S. and Canada.

CONTENTS

3D BIOPRINTING OF ORGANS

- 557 **Progress in three-dimensional bioprinting**
Adam W. Feinberg and Jordan S. Miller, Guest Editors

- 563 **Toward next-generation bioinks: Tuning material properties pre- and post-printing to optimize cell viability**
Alexandra L. Rutz, Phillip L. Lewis, and Ramille N. Shah

- 571 **Three-dimensional printing with sacrificial materials for soft matter manufacturing**
Christopher S. O'Bryan, Tapomoy Bhattacharjee, Sean R. Niemi, Sidhika Balachandar, Nicholas Baldwin, S. Tori Ellison, Curtis R. Taylor, W. Gregory Sawyer, and Thomas E. Angelini

- 578 **Multimaterial, heterogeneous, and multicellular three-dimensional bioprinting**
Carmelo De Maria, Giovanni Vozzi, and Lorenzo Moroni

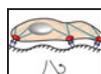

- 585 **Three-dimensional bioprinting of volumetric tissues and organs**
David Kilian, Tilman Ahlfeld, Ashwini Rahul Akkineni, Anja Lode, and Michael Gelinsky

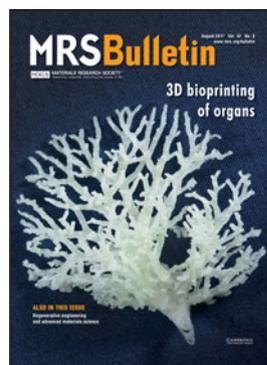

- 593 **Bioprinting of three-dimensional culture models and organ-on-a-chip systems**
Yan Yan Shery Huang, Duo Zhang, and Ye Liu

TECHNICAL FEATURE

- 600 **Regenerative engineering and advanced materials science**

The Fred Kavli Distinguished Lectureship in Materials Science 2016 MRS Spring Meeting
Roshan James and Cato T. Laurencin

ON THE COVER

3D bioprinting of organs. Three-dimensional (3D) printing and related additive manufacturing technologies have started to displace traditional manufacturing in a wide range of industries and applications. This issue of *MRS Bulletin* highlights 3D bioprinting approaches, including advances and challenges in support materials and multimaterials printing, along with applications in tissue engineering and organs-on-a-chip. The cover shows a 3D printed liver

blood vessel network demonstrating the complexity of the challenge in recapitulating the architectural form of living tissue and providing biocompatible environments conducive to cell growth. Image credit: MillerLab at Rice University. See the technical theme that begins on page 557.

About the Materials Research Society

The Materials Research Society (MRS), a not-for-profit scientific association founded in 1973 and headquartered in Warrendale, Pennsylvania, USA, promotes interdisciplinary materials research. Today, MRS is a growing, vibrant, member-driven organization of over 16,000 materials researchers spanning over 80 countries, from academia, industry, and government, and a recognized leader in the advancement of interdisciplinary materials research.

The Society's interdisciplinary approach differs from that of single-discipline professional societies because it promotes information exchange across many scientific and technical fields touching materials development. MRS conducts three major international annual meetings and also sponsors numerous single-topic scientific meetings. The Society recognizes professional and technical excellence and fosters technical interaction through University Chapters. In the international arena, MRS implements bilateral projects with partner organizations to benefit the worldwide materials community. The Materials Research Society Foundation helps the Society advance its mission by supporting various projects and initiatives.

2017 MRS BOARD OF DIRECTORS

President Susan Trolier-McKinstry, The Pennsylvania State University, USA
Immediate Past President Kristi S. Anseth, University of Colorado Boulder, USA
Vice President and President-Elect Sean J. Hearne, Sandia National Laboratories, USA
Secretary Eric A. Stach, Brookhaven National Laboratory, USA
Treasurer David J. Parrillo, The Dow Chemical Company, USA
Executive Director Todd M. Osman, Materials Research Society, USA

Charles T. Black, Brookhaven National Laboratory, USA
Li-Chyong Chen, National Taiwan University, Taiwan
Matt Copel, IBM Research Division, USA
Paul S. Drzaic, Apple, Inc., USA
Dawnielle Farrar-Gaines, Johns Hopkins University, USA
Yury Gogotsi, Drexel University, USA
Claudia Gutiérrez-Wing, Instituto Nacional de Investigaciones Nucleares, Mexico
Young-Chang Joo, Seoul National University, South Korea
Karen L. Kavanagh, Simon Fraser University, Canada
Lincoln J. Lauhon, Northwestern University, USA
Christine Ortiz, Massachusetts Institute of Technology, USA
Sabrina Sartori, University of Oslo, Norway
Magaly Spector, The University of Texas at Dallas, USA
Molly M. Stevens, Imperial College London, UK
Anke Weidenkaff, University of Stuttgart, Germany

MRS OPERATING COMMITTEE CHAIRS

Academic Affairs Bruce M. Clemens, Stanford University, USA
Awards Albert Polman, FOM Institute AMOLF, The Netherlands
Government Affairs Kevin J. Whittlesey, 4D Molecular Therapeutics, USA
Meetings Terry Aselage, Sandia National Laboratories, USA
Member Engagement Sossina M. Hale, Northwestern University, USA
Public Outreach Elizabeth Kupp, The Pennsylvania State University, USA
Publications Shefford Baker, Cornell University, USA

MRS HEADQUARTERS

Todd M. Osman, Executive Director
J. Ardie Dillen, Director of Finance and Administration
Damon Dozier, Director of Government Affairs
Patricia Hastings, Director of Meetings Activities
Eileen M. Kiley, Director of Communications

MRS Bulletin (ISSN: 0883-7694, print; ISSN 1938-1425, online) is published monthly by the Materials Research Society, 506 Keystone Drive, Warrendale, PA 15086-7573. © 2017 Materials Research Society. Permission required to reproduce content. Periodical postage paid at New York, NY, and at additional mailing offices. POSTMASTER: Send address changes to *MRS Bulletin* in care of the Journals Department, Cambridge University Press, 100 Brook Hill Drive, West Nyack, NY 10994-2113, USA. Printed in the U.S.A.

Membership in MRS is \$130 annually for regular members, \$32 for students, and includes an electronic subscription to *MRS Bulletin*. Print subscriptions are available to MRS members for an additional \$25. Individual member subscriptions are for personal use only. Non-member subscription rates are \$533 (USD) for one calendar year (12 issues). Requests from subscribers for missing journal issues will be honored without charge only if received within six months of the issue's actual date of publication.

MRS Bulletin is included in Current Contents®/Engineering, Computing, and Technology; Current Contents®/Physical, Chemical, and Earth Sciences, the SciSearch® online database, Research Alert®, Science Citation Index®, and the Materials Science Citation Index™. Back volumes of *MRS Bulletin* are available on microfiche through University Microfilms Inc., 300 North Zeeb Road, Ann Arbor, MI 48106, USA.

Authors of each technical article appearing in *MRS Bulletin* are solely responsible for all content in their article(s), including accuracy of the facts, statements, and citing resources. Facts and opinions are solely the personal statements of the respective authors and do not necessarily represent the views of the editors, the Materials Research Society, or Cambridge University Press.
