Editorial

Since the cessation of "Recent Publications" there have been some requests to publish the Contents of Poultry Science Journals published by Branches or Countries. This request will be complied with in the case of those Journals published *in English* or with *English summaries*. Two such appear in this issue under the Branches concerned, i.e. the Contents of Arch. Geflügelke under German (Fed.) Branch and the Contents of the Indian Journal of Poultry Science. For such information we are entirely dependent on Branch secretaries.

We would also remind contributors of main articles that their manuscripts *must* be submitted in *duplicate* with *4 copies* of the summary. References must adhere to the format in "Instructions to Contributors".

This issue also contains information regarding the provisional programme and instructions for submitting papers to the Vth European Federation Conference. The Conference emblem was open to competition and was won by our secretary, Dr. R. Coles who adds art to his many other accomplishments.

As a further economy, and since they are often of local interest only, Branch and Group Meetings will be restricted to author's names and paper titles. Abstracts will only be given when considered to be of unusual importance, or may be of sufficient importance to be offered as main contributions.
