Corruption and Human Rights Law in Africa *Kolawole Olaniyan*

Endorsement: "This book demonstrates the author's mastery of complex jurisprudential and theoretical discourses. His review of the existing literature is extensive, the doctrinal analysis rigorous and the treatment of the subject innovative." Ndiva Kofele-Kale, University Distinguished Professor of Law, SMU Dedman School of Law, Dallas, USA.

This important new book provides a framework for complementarity between promoting and protecting human rights and combating corruption. It takes up one of the pervasive problems of governance - large-scale corruption - to examine its impact on human rights and the degree to which a human rights approach to confronting corruption can buttress the traditional criminal law response.

Kolawole Olaniyan, Legal Adviser, Amnesty International's International Secretariat, London.

The Chagos Islanders and International Law *Stephen Allen*

In 1965, the UK excised the Chagos Islands from the colony of Mauritius to create the British Indian Ocean Territory (BIOT) in connection with the founding of a US military facility on the island of Diego Garcia. Consequently, the inhabitants of the Chagos Islands were secretly exiled to Mauritius, where they became chronically impoverished. This book considers the resonance of international law for the Chagos Islanders. It advances the argument that BIOT constitutes a 'Non-Self-Governing Territory' pursuant to the provisions of Chapter XI of the UN Charter and for the wider purposes of international law. In addition, the book explores the extent to which the right of self-determination, indigenous land rights and a range of obligations contained in applicable human rights treaties could support the Chagossian right to return to BIOT.

Stephen Allen, Queen Mary, University of London.

International Law for Common Goods

Normative Perspectives on Human Rights, Culture and Nature

Edited by Federico Lenzerini and Ana Filipa Vrdoljak

International law has long been dominated by the State. But it has become apparent that this bias is unrealistic and untenable in the contemporary world where the rise of the notion of common goods challenges this dominance. These common goods - typically values (like human rights, rule of law, etc) or common domains (the environment, cultural heritage, space, etc) - speak to an emergent international community beyond the society of States and the attendant rights and obligations of non-State actors. This book details how three key areas of international law - human rights, culture and the environment - are pushing the boundaries in this field.

Federico Lenzerini, Università degli Studi di Siena.

Ana Filipa Vrdoljak, University of Technology, Sydney.

Foreign Relations Law

Campbell McLachlan

\$200.00; Hardback: 978-0-521-89985-7; 648 pp.

“Questions concerning the role of international law before national courts are confronting the courts with constitutional problems as profound as any that have arisen during the past 200 years. This masterly study, by an eminent practitioner and academic, offers both an incisive analysis of the problems and a subtle and precise approach to a solution based upon the methodologies of private international law.”

—Vaughan Lowe, QC, Emeritus Chichele Professor of Public International Law, University of Oxford

Foreign Relations Law tackles three fundamental issues: the distribution of the foreign relations power between the organs of government; the impact of the foreign relations power on individual rights; and the treatment of the foreign state within the municipal legal system. Focusing on the four Anglo-Commonwealth states (the United Kingdom, Australia, Canada and New Zealand), McLachlan examines the interaction between public international law and national law and demonstrates that the prime function of foreign relations law is not to exclude foreign affairs from legal regulation, but to allocate jurisdiction and determine applicable law in cases involving the external exercise of the public power of states: between the organs of the state; amongst the national legal systems of different states; and between the national and the international legal systems.

The Law of Refugee Status

Second Edition

James C. Hathaway and Michelle Foster

\$160.00; Hardback: 978-1-107-01251-6; 773 pp.

\$60.00; Paperback: 978-1-107-68842-1

“This edition of The Law of Refugee Status continues the leadership established by the first edition as the most cited scholarly work considered by courts internationally. It stands out for its principled approach to refugee law and for its comprehensive coverage.”

—Justice Tony North, Federal Court of Australia, Past President International Association of Refugee Law Judges

The first edition of *The Law of Refugee Status* (published in 1991) is generally regarded as the seminal text on interpreting the refugee definition set by the UN's 1951 Refugee Convention. Its groundbreaking analysis served as the bedrock for not only much judicial reasoning, but also for a burgeoning academic literature in law and related fields. This second edition builds on the strong critical focus and human rights orientation of the first edition, but undertakes an entirely original analysis of the jurisprudence of leading common law and select civil law states. The authors provide robust responses to the most difficult questions of refugee status in a clear and direct way.

JOURNALS

International Journal of Law in Context

A global forum
for interdisciplinary
legal studies

The *International Journal of Law in Context* now features an exciting new section entitled 'Law in other contexts'. This section is dedicated to making available specially commissioned reports of socio-legal research in places where English is not the first language. In this way the journal hopes to bring attention to work which may not be easily accessible to those without knowledge of the relevant language (and culture).

World Trade Review

Editor

L. Alan Winters, *University of Sussex, UK*

The *World Trade Review* was established at the initiative of the Secretariat of the World Trade Organization (WTO) in close cooperation with Cambridge University Press. It is an independent journal - the Editor and all but one member of the Editorial Board are drawn from university faculties - that includes articles written from economic, legal, political and inter-disciplinary perspectives on issues of relevance to the multilateral trading system. Priority is given to papers that, along with being academically rigorous, are also accessible to government policy officials and the wider public. The journal also includes shorter articles seeking to rebut or challenge published papers.

The Cambridge Law Journal

Editor

John Bell *University of Cambridge, UK*

The Cambridge Law Journal publishes articles on all aspects of law. Special emphasis is placed on contemporary developments, but the journal's range includes jurisprudence and legal history. An important feature of the journal is the Case and Comment section, in which members of the Cambridge Law Faculty and other distinguished contributors analyse recent judicial decisions, new legislation and current law reform proposals. The articles and case notes are designed to have the widest appeal to those interested in the law – whether as practitioners, students, teachers, judges or administrators – and to provide an opportunity for them to keep abreast of new ideas and the progress of legal reform. Each issue also contains an extensive section of book reviews.
