## UK COGNITIVE LINGUISTICS ASSOCIATION

The central objectives of the UK-CLA are to develop and promote the multi-disciplinary field of Cognitive Linguistics within the UK, as well as contribute to the research- and event-based synergy currently growing across Europe, and to foster initiatives and exchanges at the wider international level. To this end, the Association organises a biennial UK-based conference in Cognitive Linguistics (see <http://www.uk-cla.org.uk> for details).

A key aspect of the work undertaken by the Association is cooperation with other Cognitive Linguistics Associations, under the auspices of the International Cognitive Linguistics Association. To find out more about the Association and get involved in its activities, please subscribe to the UK-CLA mailing list at <http://www.uk-cla.org.uk>.

The UK-CLA is affiliated to the International Cognitive Linguistics Association and the Linguistics Association of Great Britain.

Membership of the UK-CLA is achieved by subscribing to *Language and Cognition*. Details on how to subscribe to the journal can be found at the journal website [www.cambridge.org/lco](http://www.cambridge.org/lco). Subscription is available in the following options: online only, or online plus print. Individual subscription includes automatic electronic access to all back issues.

In addition, the Association strongly supports contacts and cooperation between its members, the development of research projects, curricula and international graduate and doctoral programmes in Cognitive Linguistics, as well as the organisation of conferences, workshops, and other relevant events.
