## Editorial Administrator

Ralph DeMarco

## Chief Copy Editor

Sumitra Mukerji

## Proofreaders

Sylvia Elvin  
Rashidah Ismaili AbuBakr

## Editorial Board

### *Atypical Neurodevelopment*

Simon Baron-Cohen/Cambridge U.

### *Behavioral Neurogenetics*

Wim E. Crusio/CNRS UMR

### *Cognition and Artificial Intelligence*

Zenon Pylyshyn/Rutgers U.

### *Cognitive and Decision Sciences*

Nick Chater/University College London

### *Cognitive Development*

Annette Karmiloff-Smith/Birbeck College

### *Computational Neuroscience*

Nestor A. Schmajuk/Duke U.

### *Evolution of Brain and Cognition*

Dean Falk/Florida State U.

### *Evolution of Cognition*

Celia Heyes/Oxford U.

### *Experimental Analysis of Behavior*

A. Charles Catania/U. Maryland, Baltimore County

### *Language and Language Disorders*

Max Coltheart/Macquarie U.

### *Linguistics*

Robert A. Freidin/Princeton U.

### *Perception*

Bruce Bridgeman/U. of California, Santa Cruz

### *Philosophy of Science*

Massimo Piattelli-Palmarini/U. of Arizona

### *Primate Cognition*

Laurie R. Santos/Yale U.

### *Social Cognition*

Mahzarin R. Banaji/Harvard U.

### *Social Cognitive Neuroscience*

Rebecca Saxe/MIT

### *Vision, Language and Computation*

Shimon Edelman/Cornell U.

## FOUNDING EDITOR (1978–2001)

Stevan Harnad

**Editorial Policy** *Behavioral and Brain Sciences (BBS)* is an international journal providing a special service called Open Peer Commentary™ to researchers in any area of psychology, neuroscience, behavioral biology, or cognitive science who wish to solicit, from fellow specialists within and across these *BBS* disciplines, multiple responses to a particularly significant and controversial piece of work. (See Instructions for Authors and Commentators, inside back cover and also at [http://www.editorialmanager.com/bbs/account/BBS\\_ifc.pdf](http://www.editorialmanager.com/bbs/account/BBS_ifc.pdf)) The purpose of this service is to contribute to the communication, criticism, stimulation, and particularly the unification of research in the behavioral and brain sciences, from molecular neurobiology to artificial intelligence and the philosophy of mind.

Papers judged by the editors and referees to be appropriate for Commentary are circulated to a large number of commentators selected by the editors, referees, and author to provide substantive criticism, interpretation, elaboration, and pertinent complementary and supplementary material from a full cross-disciplinary perspective. The article, accepted commentaries, and the author's response then appear simultaneously in *BBS*.

Commentary on *BBS* articles may be provided by any qualified professional in the behavioral and brain sciences, but much of it is drawn from a large body of *BBS* Associates who have become formally affiliated with the project (see <http://www.bbsonline.org/assoclist.html>).

Qualified professionals are eligible to become *BBS* Associates if they have (1) been nominated by a current *BBS* Associate, (2) refereed for *BBS*, or (3) had a commentary or article accepted for publication. A special subscription rate is available to Associates. Individuals interested in serving as *BBS* Associates are asked to view the full instructions for joining at [http://www.editorialmanager.com/bbs/account/BBS\\_ifc.pdf](http://www.editorialmanager.com/bbs/account/BBS_ifc.pdf). and then email [bbs@bbsonline.org](mailto:bbs@bbsonline.org).

© 2009 Cambridge University Press. All rights reserved. No part of this publication may be reproduced, in any form or by any means, electronic, photocopy, or otherwise, without permission from Cambridge University Press. General enquiries from the U.S.A., Mexico, and Canada should be addressed to the New York office of Cambridge University Press <http://www.cambridge.org/us/information/rights/contacts/newyork.htm>; general enquiries from elsewhere should be addressed to the Cambridge office <http://www.cambridge.org/uk/information/rights/contacts/cambridge.htm>; permission enquiries from Australia and New Zealand should be addressed to the Melbourne office [http://www.cambridge.org/aus/information/contacts\\_melbourne.htm](http://www.cambridge.org/aus/information/contacts_melbourne.htm); enquiries regarding Spanish-language translation rights (only) should be addressed to the Madrid office <http://www.cambridge.org/uk/information/rights/contacts/madrid.htm>.

**Copying** This journal is registered with the Copyright Clearance Center (222 Rosewood Dr., Danvers, MA 01923, U.S.A.). Organizations in the U.S.A. who are also registered with the CCC may therefore copy material (beyond the limits permitted by sections 107 and 108 of U.S. Copyright Law) subject to payment to the CCC. This consent does not extend to multiple copying for promotional or commercial purposes. Notwithstanding the above, the Item-Fee Code for this publication is 0140-525X/09. ISI Genuine Article Service, 3501 Market Street, Philadelphia, PA 19104, U.S.A. is authorized to supply single copies of separate articles for private use only. For all other use, permission should be sought from the Cambridge or New York offices of the Press.

**Subscriptions** *Behavioral and Brain Sciences* (ISSN 0140-525X) is published bimonthly in February, April, June, August, October, and December. The subscription price of Volume 32 (2009) for institutions is US \$1020.00 for print and online, US \$860.00 for online only, and US \$920.00 for print only in the U.S.A., Canada, and Mexico; and UK £580.00 for print and online, UK £490.00 for online only, and UK £530.00 for print only elsewhere. The subscription price for individuals is US \$290.00 for print and online and US \$265.00 for print only in the U.S.A., Canada, and Mexico; and UK £170.00 for print and online and UK £155.00 for print only elsewhere. For *BBS Associates*, with proof of eligibility with order, US \$109.00 in the U.S.A., Canada, and Mexico; and UK £68.00 elsewhere. For *students*, with proof of eligibility with order, \$89.00 in the U.S.A., Canada, and Mexico; and UK £54.00 elsewhere. Subscription price includes surface postage. Single parts cost US \$210.00 (UK £90.00) plus postage. Institutional orders may be sent to a bookseller, or, in the U.S.A., Canada, and Mexico direct to: Cambridge University Press, 32 Avenue of The Americas, New York, NY 10013-2473 email: [journals\\_subscriptions@cambridge.org](mailto:journals_subscriptions@cambridge.org); in the U.K. and rest of the world to: Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, England, e-mail: [journals\\_subscriptions@cambridge.cam.ac.uk](mailto:journals_subscriptions@cambridge.cam.ac.uk). Individuals must order direct from the Press. You may also subscribe through the Cambridge Journals website, <http://journals.cambridge.org/bbs>.

**Postmaster:** Send address changes in the U.S.A., Canada, and Mexico to *Behavioral and Brain Sciences*, Cambridge University Press, Journals Dept., 100 Brook Hill Drive, West Nyack, NY 10994-2133, U.S.A. Send address change elsewhere to *Behavioral and Brain Sciences*, Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, England.

**Online availability** *Behavioral and Brain Sciences* is part of the Cambridge Journals Online (CJO) service at <http://journals.cambridge.org>.

**Institutional subscribers:** Access to full-text articles online is currently included with the cost of the print subscription. Subscription must be activated; see <http://cambridge.journals.org>.

**Advertising** Inquiries about advertising should be sent to the Journals Advertising Department of the Cambridge or New York Office of Cambridge University Press.

\*Modelled on the "CA Comment" service of the journal *Current Anthropology*.

# Contents Volume 32:1 February 2009

<b>Del Giudice, M.</b> Sex, attachment, and the development of reproductive strategies		1
<b>Open Peer Commentary</b>		
<b>Ackerman, J. M. &amp; Kenrick, D. T.</b> Selfishness and sex or cooperation and family values?	21	
<b>Bakermans-Kranenburg, M. J. &amp; van IJzendoorn, M. H.</b> No reliable gender differences in attachment across the lifespan	22	
<b>Beckes, L. &amp; Simpson, J. A.</b> Attachment, reproduction, and life history trade-offs: A broader view of human mating	23	
<b>Campbell, A.</b> "Fatal attraction" syndrome: Not a good way to keep your man	24	
<b>Chen, B.-B. &amp; Li, D.</b> Avoidant strategy in insecure females	25	
<b>Figueredo, A. J., Sefcek, J. A. &amp; Olderbak, S. G.</b> Attachment and life history strategy	26	
<b>Flinn, M. V., Muehlenbein, M. P. &amp; Ponzi, D.</b> Evolution of neuroendocrine mechanisms linking attachment and life history: The social neuroendocrinology of middle childhood	27	
<b>Goetz, C. D., Perilloux, C. &amp; Buss, D. M.</b> Attachment strategies across sex, ontogeny, and relationship type	28	
<b>Goldstein Ferber, S.</b> Co-regulation of stress in uterus and during early infancy mediates early programming of gender differences in attachment styles: Evolutionary, genetic, and endocrinal perspectives	29	
<b>Harris, J. R.</b> Attachment theory underestimates the child	30	
<b>Hönekopp, J.</b> Pre-adjustment of adult attachment style to extrinsic risk levels via early attachment style is neither specific, nor reliable, nor effective, and is thus not an adaptation	31	
<b>Jackson, J. J. &amp; Ellis, B. J.</b> Synthesizing life-history theory with sexual selection: Toward a comprehensive model of alternative reproductive strategies	31	
<b>Kang, M. J. &amp; Glassman, M.</b> Attachment patterns of homeless youth: Choices of stress and confusion	32	
<b>Kerns, K. A.</b> Developmental transformations in attachment in middle childhood	33	
<b>Kruger, D. J.</b> Life history as an integrative theoretical framework advancing the understanding of the attachment system	34	
<b>Lewis, A. J. &amp; Tooley, G.</b> Disorganized attachment and reproductive strategies	35	
<b>Li, N., He, J. &amp; Li, T.</b> Gender difference of insecure attachment: Universal or culture-specific?	36	
<b>Maestripieri, D.</b> The contribution of comparative research to the development and testing of life history models of human attachment and reproductive strategies	37	
<b>Penke, L.</b> Adaptive developmental plasticity might not contribute much to the adaptiveness of reproductive strategies	38	
<b>Petters, D. &amp; Waters, E.</b> Modeling, simulating, and simplifying links between stress, attachment, and reproduction	39	
<b>Quinlan, R. J.</b> Predicting cross-cultural patterns in sex-biased parental investment and attachment	40	
<b>Seltzer, L. J. &amp; Pollak, S. D.</b> Neuroendocrine features of attachment in infants and nonhuman primates	41	
<b>Symons, D. K. &amp; Szielasko, A. L.</b> Attachment styles within sexual relationships are strategic	42	
<b>Volpe, L. E. &amp; Barton, R. A.</b> Attachment and sexual strategies	43	
<b>Zayas, V. &amp; Ram, D.</b> What love has to do with it: An attachment perspective on pair bonding and sexual behavior	44	
<b>Author's Response</b>		
<b>Del Giudice, M.</b> Human reproductive strategies: An emerging synthesis?		45

**Oaksford, M. & Chater, N.** *Précis of Bayesian Rationality: The Probabilistic Approach to Human Reasoning*

69

**Open Peer Commentary**

<b>Allott, N. &amp; Uchida, H.</b> Classical logic, conditionals and “nonmonotonic” reasoning	85	<b>O’Brien, D. P.</b> Human reasoning includes a mental logic	96
<b>Brighton, H. &amp; Olsson, H.</b> Identifying the optimal response is not a necessary step toward explaining function	85	<b>Over, D. E. &amp; Hadjichristidis, C.</b> Uncertain premises and Jeffrey’s rule	97
<b>Danks, D. &amp; Eberhardt, F.</b> Explaining norms and norms explained	86	<b>Pfeifer, N. &amp; Kleiter, G. D.</b> Mental probability logic	98
<b>De Neys, W.</b> Beyond response output: More logical than we think	87	<b>Poletiek, F. H.</b> Popper’s <i>Severity of Test</i> as an intuitive probabilistic model of hypothesis testing	99
<b>Evans, J. St. B. T.</b> Does rational analysis stand up to rational analysis?	88	<b>Politzer, G. &amp; Bonnefon, J.-F.</b> Let us not put the probabilistic cart before the uncertainty bull	100
<b>Griffiths, T. L.</b> The strengths of – and some of the challenges for – Bayesian models of cognition	89	<b>Schroyens, W.</b> On is an ought: Levels of analysis and the descriptive versus normative analysis of human reasoning	101
<b>Hahn, U.</b> Explaining more by drawing on less	90	<b>Stenning, K. &amp; van Lambalgen, M.</b> “Nonmonotonic” does not mean “probabilistic”	102
<b>Halford, G. S.</b> Complexity provides a better explanation than probability for confidence in syllogistic inferences	91	<b>Straubinger, N., Cokely, E. T. &amp; Stevens, J. R.</b> The dynamics of development: Challenges for Bayesian rationality	103
<b>Khalil, E. L.</b> Are stomachs rational?	91	<b>Wagenmakers, E.-J.</b> How do individuals reason in the Wason card selection task?	104
<b>Liu, I.-m.</b> Is the second-step conditionalization unnecessary?	92		
<b>McKenzie, C. R. M.</b> Bayes plus environment	93		
<b>Nelson, J. D.</b> Naïve optimality: Subjects’ heuristics can be better motivated than experimenters’ optimal models	94		
<b>Oberauer, K.</b> Oaksford & Chater’s theory of reasoning: High prior, lower posterior plausibility	95		
		<b>Authors’ Response</b>	
		<b>Oaksford, M. &amp; Chater, N.</b> The uncertain reasoner: Bayes, logic, and rationality	105
