MD PLATINUM™

The information contained herein provides key information about the respective MD Platinum™ investments and is not intended to be taken by, and should not be taken by, any individual recipient as investment advice, a recommendation to buy, hold, or sell any security, or an offer to sell or a solicitation of offers to purchase any security. The Platinum investments described in this document are subject to additional terms and conditions set out in the Platinum investments' operative agreements and regulatory suitability requirements as considered by your Portfolio Manager, MD Private Investment Counsel, an operating division of MD Financial Management Inc. The Platinum investments' operative agreements will also set out additional information about the investment objective, terms and conditions of such funds, tax information and risk disclosure that are material terms regarding a fund. Any investment in a Platinum investment would be speculative and would involve significant risks. The information and strategies presented here are not suitable for U.S. persons (citizens, residents or green card holders) or non-residents of Canada, or for situations involving such individuals. Employees of the MD Group of Companies are not authorized to make any determination of a client's U.S. status or tax filing obligations, whether foreign or domestic. The Platinum investments are intended for individuals that have a discretionary managed account with MD Private Investment Counsel. • No guarantee or representation is made that any MD Platinum investments will achieve its investment objective. In addition, there are risks associated with investing in the MD Platinum investments that are not applicable to typical investments in the public equity markets. These risks include, but are not limited to, the following: private equity investments are speculative and involve a high degree of risk; an investor could lose all or a substantial amount of his or her investment; interests in private equity investments are illiquid and there is no secondary market nor is one expected to develop for interests in such investments; there are significant restrictions on transferring private equity investments; private equity investments experience volatile performance; private equity funds are often concentrated and lack diversification and regulatory oversight. • Certain information contained herein constitutes "forward-looking statements." Due to various risks and uncertainties, actual events or results may differ materially from those reflected or contemplated in such forward-looking statements. As a result, no reliance should be put on such forward-looking statements. No representation or warranty is made as to future performance based on such forward-looking statements. MD Platinum investments are intended for discretionary managed account clients of MD Private Investment Counsel, a division of MD Financial Management Inc. All fees and expenses associated with and applicable to the MD Platinum investments may be higher than fees and expenses in public security funds. • MD Platinum™ is a trademark of The Bank of Nova Scotia, used under licence.
