# NOTES ON THE OLD SYSTEM

*To Transform American Politics*

**MARCUS RASKIN,**

*Institute for Policy Studies*

**W**ith the increased momentum toward impeachment, the attention of all Americans is focused on the power of the Presidency. For the issue now confronting the country goes far beyond the issue of whether or not illegal acts were committed by this particular President. Marcus Raskin, one of this country's most able political thinkers and theorists, examines the system of checks and balances existing among the branches of our Government, and particularly explores the Presidency of Richard Nixon. It is Raskin's position that the existing system does not guarantee against encroachment of power by the Executive and he shows how Nixon has manipu-

lated the system to gain unprecedented power.

As a counterbalance, Raskin proposes the establishment of a Congressional grand jury system that would act on behalf of the people to exercise control over untrammelled power in any form and he describes the functions and duties of such a grand jury.

*Notes on the Old System* is not only a challenging proposal for a way in which the citizens of this country could more directly control the affairs and future course of their government, it is also an analysis of how power is wielded in the American political system.
