Closed structures on the category of topological spaces determined by systems of filters by Maria Cristina Pedicchio	161
On Banach spaces of vector valued continuous functions by Pilar Cembranos	175
Relation between the Shapley value and null group cohomology by Andrzej Madrecki	187
Set mappings of unrestricted order by Greg G. Gibbon	199
On analytic functions with reference to an integral operator by R. Parvatham and T. N. Shanmugam	207
The Dirichlet problem for the equation of prescribed Gauss curvature by Neil S. Trudinger and John I. E. Urbas.	217
Stability, instability, oscillation and nonoscillation in scalar integrodifferential systems by K. Gopalsamy	233
Varieties with modular subalgebra lattices by Trevor Evans and Bernhard Ganter	247
Twills with bounded float length by Janet A. Hoskins, Cheryl E. Praeger and Anne Penfold Street	255
A connected metric space without an equally spaced chain of points by J. Arias de Reyna	283
ABSTRACTS OF AUSTRALASIAN PhD THESES	
Permutation polynomials in one and several variables by Rex W. Matthews	287
On modular representation algebras of cyclic p-groups by John Charles Renaud	291
Combining information in linear and log-linear analyses by Matthew William Knuiman	293
On choosing a goodness-of-fit test by Timothy R. C. Read	295
Asymptotic analysis of partition identities by Dennis Acreman	299
Non-linear effects in laminar flow over wavy surfaces by Philip John Kachoyan	303

INFORMATION FOR AUTHORS

The BULLETIN of the Australian Mathematical Society aims at quick publication of original research in all branches of mathematics. Timely expository articles are also welcomed.

To ensure speedy publication, editorial decisions on acceptance or otherwise are taken quickly, normally within a month of receipt of the paper. Papers are accepted only after being evaluated by the Editor and an Associate Editor or another expert. Of course responsibility for the correctness of results published in the BULLETIN remains with the authors.

For a paper to be acceptable for publication, not only should it contain new and interesting results but also

- (i) the exposition should be clear and attractive, and
- (ii) the manuscript should be in publishable form, without revision.

Nevertheless some meritorious papers will have to be rejected because speed of publication involves space limitations.

Authors should submit THREE clean, high quality copies to
The Editor, Bulletin of the Australian Mathematical Society,
Department of Pure Mathematics, La Trobe University,
Bundoora, Victoria 3083, Australia

but should not send the original typescript of their papers, as material submitted to the BULLETIN will usually not be returned. Authors should note that each paper submitted must include an abstract and one or more classification numbers following the 1980 Mathematics Subject Classification.

As even minor revisions are generally not permitted, authors should read carefully all the details listed on the inside back cover.

Abstracts of PhD Theses

The BULLETIN endeavours to publish abstracts of all accepted Australasian PhD theses in mathematics. One restriction, however, is that the abstract must be received by the Editor within 3 months of the degree being approved.
