International Psychogeriatric Association (IPA)

Representing more than 66 countries around the world, IPA is a unique and diverse professional healthcare community promoting better geriatric mental health — across disciplines, across borders, and across geriatric issues. Psychiatrists, Scientists, Neurologists, Geriatricians, Primary Care Physicians, Epidemiologists, Nurses, Psychologists, Occupational Therapists, Social Workers, and many other healthcare professionals come to the IPA community from all over the globe to discuss, learn, share, and research information about behavioral and biological aspects of geriatric mental health. IPA's leaders and members contribute their wealth of expertise and knowledge from the research, clinical, education, service and program development arenas.

There are many benefits to being a member of IPA, including a subscription to this peer-reviewed journal, *International Psychogeriatrics*. For more information please contact info@ipa-online.org.

The **International Psychogeriatric Association (IPA)** is the leading multidisciplinary, international organization dedicated to the advancement of geriatric mental health knowledge.

Benefits of IPA Membership Include

- An opportunity to **interact with colleagues** around the world who share an interest in advancing research, education, and theory about mental health in older people
- **Education and meetings** reflecting the many disciplines in Psychogeriatrics and the collective expertise of the world; IPA members receive special “members only” rates for all our meetings and activities
- A subscription to ***International Psychogeriatrics***, IPA’s peer-reviewed journal, which includes eight issues per year and any additional special-focus supplements
- The ***IPA Bulletin***, an informative quarterly newsletter
- **IPA Online** – the IPA website – including member area with special features including access to fellow members, and the IPA Learning Portal
- Support the **growth of Psychogeriatrics around the world**, including contributing to the Sponsored Member Program to help associations in developing countries pass knowledge to their members

IPA’s membership dues have been adjusted to accommodate the needs of a wide variety of colleagues worldwide. To find out what the membership rates are for your country, please visit www.ipa-online.org.

IPA ... Better Mental Health for Older People

The International Psychogeriatric Association (IPA) invites national and regional organizations in the field of Psychogeriatrics to apply for affiliation.

We believe much can be accomplished when organizations work together to achieve shared goals. Together we can find ways to support more effective research efforts, better educational and informational activities, and enlightened public policy in all nations.

Organizations that have goals addressing mental health and aging issues are eligible to apply for affiliation. Affiliate organizations can be from any of the various disciplines associated with IPA. IPA also welcomes multiple organizations from any country.

Below we acknowledge these outstanding organizations as IPA Affiliates and our joint commitment to the common goal of better mental health for older people.

IPA ... Better Mental Health for Older People

Scope and contributions

International Psychogeriatrics is written by and for those doing clinical, teaching, and research work with older people. It is the official journal of the International Psychogeriatric Association (IPA) and is published by Cambridge University Press, Cambridge, UK. Although it is primarily concerned with psychogeriatrics, the journal welcomes contributions from all concerned with the field of mental health and aging. Original research papers are particularly sought.

Contributions include original research articles, case reports, reviews of the literature, book reviews, letters to the editor, and editorials. Apart from editorials and book reviews, which are commissioned, contributions to *International Psychogeriatrics* are spontaneously written and submitted by authors. Papers are reviewed by two expert reviewers selected by the Editor-in-Chief. At present, about half of the papers submitted are accepted for publication. The journal's Science Citation Index Impact Factor (2008) is 2.098. Submission of a paper implies that it is neither under consideration for publication elsewhere, nor previously published in English. Manuscripts must be formatted double-spaced with ample margins on all sides and the pages should be numbered. *International Psychogeriatrics* uses the spelling of American English. Manuscripts written by those whose primary language is not English should be edited carefully for language prior to submission. The journal has a Language Assistance Panel consisting of both native English speakers willing to check manuscripts for style prior to submission, and bilingual experts willing to assist with the translation of manuscripts into English. Further details including contact information for individual panel members can be found at both the journal and IPA websites (journals.cambridge.org/ipg and www.ipa-online.org).

An up to date version of the journals instructions for contributors can be found at the *International Psychogeriatrics* website journals.cambridge.org/IPG. Please read these instructions carefully before submitting articles. **Articles that are not prepared in accordance with these guidelines will be returned to authors.**

Manuscripts should be submitted online via our manuscript submission and tracking site, <<http://mc.manuscriptcentral.com/ipg>>. Full instructions for electronic submission are available directly from this site.
