## The Fatherhood of St. Joseph

By

**JOSEPH MUELLER, S.J.**

'Dr Mueller defends his thesis with erudition and skill, and readers of this book will find him convincing.'—*The Clergy Review*.

'... of interest certainly to the student of theology, and the preacher, as supplying them with a rich harvest of carefully thought-out texts. The citations from Papal documents are well chosen and commented on. The printing and the format leave nothing to be desired.'—*Irish Ecclesiastical Record*.

'Without a doubt Father Mueller's lectures constitute one of the finest theological studies on St Joseph's office and dignity.'—*F. L. Filas, S.J., in America*.

'... by his collaboration in the work of the Incarnation from its very inception, by his chaste marriage... by his legal status as the father of the family, St Joseph contracted a real, though not natural, paternity toward the child of Mary. To prove this from Scripture, from the Fathers of the Church and from theologians is the burden of the first part of the book.

'The second part develops the corollaries that flow from the very nature of this paternity. The book is not only sound theologically, it reads uncommonly well for a theology tome.'—*Ave Maria*.

*Translated by Athanasius Dengler, O.S.B.*
