INTRODUCES...**

DOUBLE- EDGED PROTECTION

Powerful against microorganisms, yet gentle to your skin: The new disposable HIBICLENS™ Sponge/Brush with Nail Cleaner. The tapered-bristle brush ensures hard-to-reach cuticles, nails, and interdigital spaces become scrupulously clean; while the HIBICLENS-impregnated sponge gently degerms the more sensitive open surfaces of your hands and forearms, keeping skin soft and supple, even with repeated use. Repeated six-minute scrubs provide over 99% bacterial reduction.¹ The effect is more persistent than with povidone-iodine,² more rapid than with hexachlorophene,² and remains unaffected by organic matter such as blood.³

POWERFUL YET GENTLE. There's never been a more convenient choice for inhibiting surgical suite infections.

NEW HIBICLENS™ (CHLORHEXIDINE GLUCONATE) **SPONGE/BRUSH WITH NAIL CLEANER FOR SURGICAL HAND SCRUB**
