COMMONWEALTH INSTITUTE OF ENTOMOLOGY**56 Queen's Gate, London SW7 5JR, England****FIFTH INTERNATIONAL COURSE
ON
APPLIED TAXONOMY OF INSECTS
AND MITES OF AGRICULTURAL
IMPORTANCE****11 April–29 May 1983**

This course, lasting seven weeks, will be held at the Commonwealth Institute of Entomology at the address below. It aims to provide training in the taxonomy of insects and mites of agricultural importance with special reference to the identification of pest species and their natural enemies, and will highlight the role of taxonomy as a major input in modern agricultural technology. A large part of the training will be devoted to practical work and demonstrations to equip participants with a working knowledge that will enable them to act as first-level field identifiers.

Candidates should preferably have a degree in biology or agriculture and be employed in a plant protection or field research orientated department with some involvement in pest identification.

Twelve students can be admitted to this fifth course, for which there is a fee of £500 Sterling. Maintenance in the U.K. will be the responsibility of the participants.

A limited number of fellowships may be made available by the Commonwealth Fund for Technical Cooperation to suitable candidates officially nominated by governments of the developing countries of the Commonwealth. These fellowships cover travel, subsistence and course fees.

Application forms for admission and further information may be obtained from the Director, Commonwealth Institute of Entomology, 56 Queen's Gate, London SW7 5JR, England. Closing date for receipt of applications 1 November 1982.

COMMONWEALTH INSTITUTE OF ENTOMOLOGY

Leading World Information Service
on Insects & Mites of Economic Importance

PUBLICATIONS

- **Review of Applied Entomology:** an abstract journal covering the world literature on pests and beneficial arthropods. In two monthly parts: *Series A (Agricultural)* and *Series B (Medical and Veterinary)*.
- **Bulletin of Entomological Research:** a quarterly journal of original research papers on arthropods of economic importance.
- **Distribution Maps of Pests:** giving the world distribution, with supporting references, of individual arthropod pests.
- **Books and Monographs:** on various subjects. Current list available on request.

RETRIEVAL SERVICES

- **Computerised Information Retrieval:** from the Commonwealth Agricultural Bureaux Abstracts Database, including *RAE* and all other main CAB abstract journals.
- **Annotated Bibliographies:** collections of abstracts on particular topics. Current list available on request; further bibliographies compiled to order.
- **Micrographic Unit:** facilities for most types of microform work.
- **Library:** a major world collection of research literature on arthropods of economic importance. Open to visitors.

TAXONOMIC SERVICES

- **Identification Service:** open to users in all parts of the world. Located in the British Museum (Natural History); over 30 000 insects and mites identified each year.
- **International Training Courses:** held annually in the applied taxonomy of insects and mites.
- **Consultancy:** advice on specific taxonomic problems and involvement of CIE taxonomists in research projects.
