

Erratum

In the article, "The Northwestern University Multihospital Twin Study. II Mortality of First Versus Second Twins," by R.F. Ellis, Gary S. Berger, Louis Keith, and Richard Depp, which appeared in the Symposium issue of *Acta Geneticae Medicae et Gemellologiae*, Volume 28, Number 4, 1979 (pp 347–352), the name of a co-author was inadvertently omitted. Dr. R. Hatcher, who is with the Department of Psychiatry and Pediatrics at the Northwestern University and Medical School and the Prentice Women's Hospital and Maternity Center in Chicago, was a contributor to the article, and his name should have been included among the other authors.
