## WRIGHT'S *of Bristol*

### WORLD HEALTH AND HISTORY

A fascinating account of the war against disease which has been raging through the ages from prehistoric times. This book describes how disease has changed and determined the course of world history; there are some lessons to be learnt from this as we enter the space-age.

The excellent illustrations amplify and emphasize the highlights of the author's story, and range from fifteenth-century prints to present-day photographs which vividly indicate the range and success of the work of the World Health Organization.

*W. Hobson*

*Price 45s., post 1s. 4d.*

### THE STORY OF A WOMAN PHYSICIAN

In giving us her life story, the author provides a vivid account of the social changes and the revolution in medicine which have occurred in the last fifty years. In becoming the first woman house physician at the London Hospital and later Consultant Physician at the Royal Sussex County Hospital and an authority on diabetes the author records with humour and skill an account of the struggle of a woman doctor against early prejudice.

As Lord Brain says in the foreword, "Everyone will enjoy this book who enjoys seeing human nature portrayed with insight and feeling."

*G. M. Wauchope*      *Price 17s. 6d., post 8d.*

trists, and Space Physicians (Medicine  
in the Twentieth Century)*

**Epilogue: TO BE A DOCTOR**  
*Recommended Reading / Nobel  
Prize Laureates / Selected Medical  
and Historical Chronology / Index*

The colorful and stirring saga of medicine, as told in this enlightening new book, embodies a stimulating concept in the writing of the history of medicine. Reflecting the author’s lifelong enthusiasm for this discipline, A PRELUDE TO MEDICAL HISTORY traces the evolution of medical ideas in relation to the history of civilization, capturing the romance and magnificence of the vast panorama of medicine. In telling the epic of the physician through the ages, the author brings to life through the magic of story-telling, the places and times, persons and events, from prehistory to the present, which framed the great moments of the history of medicine. For physicians, educators, students, and all those interested in this important facet of man’s cultural heritage, this book promises a surprising new enjoyment of the splendid pageant of medicine.

---

**The Central Middlesex  
Hospital**  
*J. D. Allan Gray*

The life-story of one of the best-known hospitals in the country, this book deals with the development of the Central Middlesex from its start, as a Poor Law institution under a Board of Guardians to its position now as an outstanding hospital of the modern Welfare State.  
**30s. net**

---

**The London:  
The Second Hundred  
Years, 1840–1948**  
*A. E. Clark-Kennedy*

The story of The London, in this the second volume of Dr. Clark-Kennedy's work, flows against the social changes of the nineteenth century and the tragic events of the twentieth. The story captures the spirit of the voluntary hospital system, a system which now belongs to a past age.

## PSYCHIATRIC MONOGRAPH SERIES

*No. 4 now available*

**JOHN CONOLLY.** An inquiry concerning the indications of insanity. London, 1830. Annotated and introduced by Richard Hunter, M.D., M.R.C.P., D.P.M. and Ida Macalpine, M.D., M.R.C.P. £4 4s.

This book was Conolly's first major contribution to psychiatry and the first psychiatric text in which the attempt was made to correlate the normal functions of the mind with its pathological manifestations. The editors in their introduction have written the first modern authoritative biographical study of Conolly using fresh source material and have brought to light new facts and facets of this famous Victorian physician's personality and career.
