REGISTRATION NOW OPEN

SAVE THE DATE

**BOSTON, MA
OCT. 11 – 15**

REGISTRATION IS OPEN FOR IDSA, SHEA, PIDS AND HIVMA MEMBERS, AS WELL AS SIDP MEMBERS WHO ARE NOT A MEMBER OF IDSA/HIVMA/SHEA/PIDS.

**SIDP members are not currently eligible for IDWeek member rates.*

**Don't miss the
premier international
infectious diseases
meeting of the year!**

See You There!

IMPORTANT DATES

**INTERACTIVE PROGRAM
PLANNER NOW AVAILABLE**

**REGISTRATION OPENS TO
ALL ATTENDEES, JUNE 6**

**LATE BREAKER
ABSTRACT SUBMISSION
SITE OPENS, JUNE 13**

ADVANCING SCIENCE, IMPROVING CARE

CONTENTS

Commentary

- 1365** Implementation should be a standard component of practice guidelines and guidance documents
Joshua K. Schaffzin, Emily E. Sickbert-Bennett, Valerie M. Deloney and David J. Weber
- 1369** To treat or not to treat: *Clostridioides difficile* infection (CDI) guidelines, diagnostic algorithms, and CDI reporting
Dale N. Gerding
- 1371** Approaching coronavirus disease 2019 (COVID-19) vaccine hesitancy among healthcare personnel: The importance of cultural competency
Zanthia E. Wiley and David J. Weber
- 1373** Back to the future: Redefining “universal precautions” to include masking for all patient encounters
Ibukunoluwa C. Kalu, David K. Henderson, David J. Weber and Sarah Haessler

Original Articles

- 1375** Impact of measurement and feedback on chlorhexidine gluconate bathing among intensive care unit patients: A multicenter study
Yoona Rhee, Mary K. Hayden, Michael Schoeny, Arthur W. Baker, Meghan A. Baker, Shruti Gohil, Chanu Rhee, Naasha J. Talati, David K. Warren, Sharon Welbel, Karen Lolans, Bardia Bahadori, Pamela B. Bell, Heilen Bravo, Thelma Dangana, Christine Fukuda, Tracey Habrock Bach, Alicia Nelson, Andrew T. Simms, Pam Tolomeo, Robert Wolf, Rachel Yelin and Michael Y. Lin for the CDC Prevention Epicenters Program
- 1381** Nudging to select single-lumen over multiple-lumen peripherally inserted central catheters (PICCs) in a large safety net system
Daniel Alaiev, Mona Krouss, Sigal Israilov, Lara Musser, Joseph Talledo, Nessreen Mestari, Amit Uppal, Theresa Madaline, Gabriel Cohen, Nathaniel Bravo, Marialeah Cervantes, Daniel Contractor, Peter Alacron Manchego, Komal Chandra, Milana Zaurova, Surafel Tsega and Hyung J. Cho
- 1386** Getting to zero: Impact of a device to reduce blood culture contamination and false-positive central-line-associated bloodstream infections
Lucy S. Tompkins, Vivian Tien and Alexandra N. Madison
- 1391** Effect of microbiology comment nudging on antibiotic use in asymptomatic bacteriuria: A before-and-after quasi-experimental study
Madeline G. Belk, Olivia D. Hammond, Callie C. Seales, Jonathan D. Edwards and Taylor D. Steuber
- 1396** Random variation drives a critical bias in the comparison of healthcare-associated infections
Kenneth J. Locey, Thomas A. Webb, Robert A. Weinstein, Bala Hota and Brian D. Stein
- 1403** Baseline stool toxin concentration is associated with risk of recurrence in children with *Clostridioides difficile* infection
Thomas J. Sandora, Larry K. Kociolek, David N. Williams, Kaitlyn Daugherty, Christine Geer, Christine Cuddemi, Xinhua Chen, Hua Xu, Timothy J. Savage, Alice Banz, Kevin W. Garey, Anne J. Gonzales-Luna, Ciarán P. Kelly and Nira R. Pollock

- 1410** Quantification of time delay between screening and subsequent initiation of contact isolation for carriers of extended-spectrum beta-lactamase (ESBL)-producing Enterobacterales: A post hoc subgroup analysis of the R-GNOSIS WP5 Trial
Friederike Maechler, Frank Schwab, Sonja Hansen, Michael Behnke, Marc J. Bonten, Rafael Canton, Cristina Diaz Agero, Carolina Fankhauser, Stephan Harbarth, Benedikt D. Huttner, Axel Kola, Petra Gastmeier on behalf of the R-GNOSIS WP5 Study Group
- 1417** Evaluating the impact of incorporating clinical practice guidelines for the management of infectious diseases into an electronic application (e-app)
Holly M. MacKinnon, Kathryn L. Slayter, Jeannette L. Comeau, Caroline King and Emily K. Black
- 1423** Epidemiology of resistant gram-negative bacteria in nursing homes
John P. Mills, Julia Mantey, Marco Cassone, Keith S. Kaye and Lona Mody
- 1429** Association of the coronavirus disease 2019 (COVID-19) pandemic with the incidence of healthcare-associated infections in California hospitals
Andrea M. Parriott, N. Neely Kazerouni and Erin E. Epton
- 1437** Hospital-acquired bacterial infections in coronavirus disease 2019 (COVID-19) patients in Israel
Mitchell J. Schwaber, Elizabeth Temkin, Rona Lobl, Vered Schechner, Amir Nutman and Yehuda Carmeli
- 1443** Bloodstream infection and ventilator-associated pneumonia in patients with coronavirus disease 2019 (COVID-19) supported by extracorporeal membrane oxygenation
Charlie Tan, Susy S. Hota, Eddy Fan, Krista Marquis, Elisa Vicencio and Alon Vaisman
- 1451** A new automated national register-based surveillance system for outbreaks in long-term care facilities in Norway detected three times more severe acute respiratory coronavirus virus 2 (SARS-CoV-2) clusters than traditional methods
Kirsten Gravningen, Petter Nymark, Torgeir B. Wyller and Oliver Kacelnik
- 1458** Impact of changing case definitions for coronavirus disease 2019 (COVID-19) hospitalization on pandemic metrics
Claire N. Shappell, Michael Klompas, Christina Chan, Tom Chen and Chanu Rhee
- 1467** Patient-facing job role is associated with SARS-CoV-2 positivity among healthcare workers in long term care facilities in Minnesota, August–December, 2020
R. Adetunji Bakare, John F. Mulcahy, Matthew F. Pullen, Ryan T. Demmer, Sara L. Cox, Julie A. Thurn and Alison L. Galdys
- 1472** Personal protective equipment use among dental healthcare personnel during the coronavirus disease 2019 (COVID-19) pandemic and the impact of an educational video in clinical practice
Lucy C. Vogt, Kimberly A. Reske, Daniel Park, Tracey Habrock Bach, Henry B. Stewart, Olivia G. Arter, Daniel Stoeckel, Heidi M. Steinkamp, Stephen Y. Liang, Michael J. Durkin and Jennie H. Kwon
- 1481** A novel method for the quantitative assessment of the fitted containment efficiency of face coverings
William D. Bennett, Steven E. Prince, Kirby L. Zeman, Hao Chen and James M. Samet
- 1485** Endoscopic retrograde cholangiopancreatography and endoscopic ultrasound endoscope reprocessing: Variables impacting contamination risk
Ashley M. Ayres, Julia Wozniak, Jose O'Neil, Kimberly Stewart, John St. Leger, A. William Pasculle, Casey Lewis, Kevin McGrath, Adam Slivka and Graham M Snyder

Concise Communication

- 1490** Not as simple as it seems: extensive facility and training gaps in nursing home bathing
Kristine P. Nguyen, Raveena D. Singh, Raheeb Saavedra, John T. Billimek, Steven P. Tam, Karl E. Steinberg, Lori Porter, John Mitchell and Susan S. Huang

- 1494** Real-world evaluation of a two-step testing algorithm for *Clostridioides difficile* infection
Michelle T. Hecker, Andrea H. Son, Patricia Zuccaro, Jennifer Conti and Curtis J. Donskey
- 1497** County-level spatiotemporal distribution of fluoroquinolone-resistant Enterobacteriaceae in outpatient settings of the Veterans' Health Administration, 2000–2017
Matthew W. Smith, Margaret Carrel and Michihiko Goto
- 1500** Seasonality of healthcare-associated *Stenotrophomonas maltophilia*
Dianne B. Auld, Phinnara Has and Leonard A. Mermel
- 1502** A comparison of methods for microbiologic environmental sampling
Sharon C. Thompson, William A. Rutala, Emily E. Sickbert-Bennett, Lauren M. DiBiase, Deverick J. Anderson, David J. Weber and for the Centers of Disease Control and Prevention Epicenters Program
- 1505** Comparing UV-C dosages of emitter placement strategies in a community hospital setting
Cody W. Haag, George Holliday, Kenneth Archulet and Weiming Tang
- 1508** Impact of Alzheimer's disease and related dementias (ADRD) on the quality of room cleaning in nursing homes
Joshua B. Hsi, Raveena D. Singh, Robert Pedroza, Gabrielle M. Gussin, Thomas T. Tjoa and Shruti K. Gohil
- 1511** Antimicrobial physician and pharmacist experience and perception of an antimicrobial Self-Stewardship Time-Out Program (SSTOP) intervention at eight Veterans' Affairs medical centers
Cassie Cunningham Goedken, Jorie M. Butler, Joshua Judd, Nui Brown, Michael Rubin and Matthew Bidwell Goetz
- 1515** Antimicrobial use and opportunities for antimicrobial stewardship in pediatric postacute and long-term care settings
Candace L. Johnson, Natalie Neu and Lisa Saiman
- 1518** Low rates of antibiotics prescribed during telehealth primary-care visits persisted during the coronavirus disease 2019 (COVID-19) pandemic
Robin L. P. Jump, Nicole Mongilardi, Brigid M. Wilson, Taissa A. Bej, Sunah Song, Corinne M. Kowal, Federico Perez and Ukwon C. Akpoji
- 1522** Impact of the coronavirus disease 2019 (COVID-19) pandemic on the adherence to hand hygiene practice in hospitals—Data from a Swiss national surveillance system
Susanne Rüfenacht, Philipp Kohler, Rolf Kuhn, Domenica Flury, Andreas F. Widmer, Matthias Schlegel and Swissnoso
- 1526** Impact of a culturally sensitive multilingual community outreach model on coronavirus disease 2019 (COVID-19) vaccinations at an urban safety-net community hospital
Stephanie L. Echeverria, Genessa Shultz, Orquidea Navarro, Ella Li, James Sifuentes, Romeen Lavani, Eden Takhsh and Alfredo J. Mena Lora
- 1529** Two masks can be worse than one: N95 respirator failure caused by an overlying face mask
Jeffrey T. Mueller, Holly D. Geyer, Soroor Karimi, Karl A. Poterack, Maria Teresa A. Seville, Skye Buckner Petty and Steven M. Tipton

Full details may be found at: www.cambridge.org/about-us/rights-permissions.

Subscriptions

The individual subscription prices for 2023 are: Print & Online: \$305; Online Only: \$236. Individuals have the option to order directly from Cambridge University Press. Institutional print + electronic and e-only subscriptions are available from Cambridge University Press and include unlimited online access; rates are tiered according to an institution's type and research output and may be reviewed at the journal's homepage on Cambridge Core: cambridge.org/ICHE.

Please direct subscription inquiries and requests for back issues to Customer Services at Cambridge University Press, e-mail: subscriptions_newyork@cambridge.org (USA, Canada, and Mexico) or journals@cambridge.org (outside of USA, Canada, and Mexico).

Postmaster: Send address changes to *Infection Control & Hospital Epidemiology*, Cambridge University Press, One Liberty Plaza, New York, NY 10006 USA.

About the cover:

Title: Nile's Joy, Horses & Hope, 2006

Beginning with volume 43 (January 2022), the cover of *Infection Control & Hospital Epidemiology* (ICHE) will feature art inspired by or reflective of topics within the scope of the journal and their impact on patients, healthcare personnel and our society. These topics include healthcare-associated infections, antimicrobial resistance, and healthcare epidemiology. The intent is to feature original artwork that has been created by individuals who have a personal connection to one or more of these topics through their clinical work, research, or experience as a patient or an affected patient's family member, friend or advocate. The goal is to provide readers with a visual reminder of the human impact of the topics addressed in the journal and the importance of the work being done by those who read or contribute to ICHE and by all who are trying to make healthcare safer through the elimination of healthcare-associated infections.

For more information about the ICHE cover and how to submit artwork for consideration for a future cover, please visit the ICHE website: <https://www.cambridge.org/core/journals/infection-control-and-hospital-epidemiology/front-covers>

Artist: Nile Moss (1990-2006)

Medium: Tissue paper, stained glass technique

Nile's parents, Carole and Ty Moss, spoke to ICHE about his artwork.

What was the inspiration for this artwork? Nile began every morning with a loud announcement, "It's going to be such a great day!" At the end of the day, he would jump off the school bus and announce, "I had such a great day!" Nile's love of horses began very early in life thanks to his school's participation at a nearby therapeutic riding center. His horses brought him great joy and his faith gave him the hope and promise of a rainbow every day. This piece was inspired by the love Nile had for his horses, Tex and Clutch.

Why is this work appropriate for the cover of *Infection Control & Hospital Epidemiology*? Nile's art expression and techniques blossomed from August 2005 to April 2006 in his first high school art class. He returned home with this final creation on April 14, 2006. His life ended only days later when physicians failed to recognize the initial symptoms of sepsis caused by methicillin-resistant *Staphylococcus aureus* (MRSA) that he had acquired while receiving care in a local hospital. Nile's story represents the preventable harm that happens when people are unaware and unprepared to protect their loved ones and their patients. Patient safety begins with a robust bench of healthcare professionals, including healthcare epidemiologists, infection preventionists and antimicrobial stewards, that are given the knowledge, tools, training and support they need to do their work effectively. Our healthcare professionals deserve to feel joy and hope at the start of each new day, just as Nile did, and not doubt that their hard work saving lives is appreciated.

What is your personnel connection to the content of ICHE? When Nile died, our lives were changed forever. After researching the "why" and the "how," we decided to become a part of the solution to end preventable harm in honor of Nile. We became educated on the science of infection prevention to help inform and empower the public and educate healthcare professionals about what happens when healthcare facilities don't maintain a culture of safety and allow preventable healthcare-associated infections to occur. We celebrate his life every day by empowering the public and healthcare professionals with our story of prevention and action to end preventable healthcare harm.

Carole and Ty Moss are the founders and Executive Directors of Nile's Project, a non-profit organization founded in 2007 to end unnecessary deaths due to preventable hospital-acquired infections. Nile's Project works with survivors, families, healthcare professionals, public health officials, and other advocacy groups to increase public awareness and advocate for changes that will make the healthcare system safer. For more information, visit www.nilesproject.com.
