

The Fifth Universal Health Conference: Disaster and Emergency Medicine

Moscow, Russia
September 28 - October 3, 1997

Join us in the celebration of 850 years of Moscow!

Conference Objective

The goal of this Fifth Universal Health Conference is to provide a forum for the mutual exchange of scientific work, experience and technology in disaster management and emergency medicine.

This is a unique opportunity to learn from our Russian colleagues and see a demonstration drill of their special units dedicated to the management of disasters.

Conference Tracks

Emergency Medicine
Disasters and Mass Casualty Incidents
Prehospital Emergency Medical Services
Environmental Contamination Resulting from Natural & Technological Disasters
- Planning, organization, training, operations, financing, medical care, and research -

MicroHospital Workshops

Certified medical education courses will address topics and technologies recommended by the corporate sponsors active in the region.

Regional Organizers

Ministry of Health of Russian Federation
The All Russian Center on Disaster Medicine of the Ministry of Health of Russia
The Ministry of Russian Federation for Civil Defense, Emergencies and Elimination of the Consequences of Natural Disasters, Russia
