

Experimental Agriculture

Volume 22, Number 2 April 1986

CONTENTS

Deborah Merrill Sands: Farming Systems Research: Clarification of Terms and Concepts (Farming Systems Series – Number 2)	87
Sarah Davies and Watkin Williams: Development of Reproductive Structures in Grain Legumes: the Growth, Cell Structure and Maturation of Pods and Seeds	105
Prem Sagar and R. L. Kapoor: A Field Screening Technique for Drought Tolerance	117
R. J. Roughley and R. A. Date: The Effect of Strain of <i>Rhizobium</i> and of Temperature on Nodulation and Early Growth of <i>Trifolium semipilosum</i>	123
R. A. Date and R. J. Roughley: Effects of Root Temperature on the Growth and Nitrogen Fixation of <i>Trifolium semipilosum</i> and <i>Trifolium repens</i>	133
P. N. Takkar, V. K. Nayyar and U. S. Sadana: Response of Wheat on Coarse Textured Soils to Mode and Time of Manganese Application	149
D. J. Rees: Crop Growth, Development and Yield in Semi-arid Conditions in Botswana. I. The Effects of Population Density and Row Spacing on <i>Sorghum bicolor</i>	153
D. J. Rees: Crop Growth, Development and Yield in Semi-arid Conditions in Botswana. II. The Effects of Intercropping <i>Sorghum bicolor</i> with <i>Vigna unguiculata</i>	169
R. K. Pandey and J. W. Pendleton: Soyabeans as Green Manure in a Maize Intercropping System	179
D. A. Preece: Some General Principles of Crop Rotation Experiments	187
Book Reviews	199
Notes for Contributors	203
