Arabic Sciences and Philosophy

A Historical Journal

Executive Editor

Roshdi Rashed, *CNRS, Paris, France & University of Tokyo, Japan*

Managing Editor

Ahmed Hasnaoui, *CNRS, Paris, France*

Arabic Sciences and Philosophy (ASP) is an international journal devoted to the Arabic sciences, mathematics and philosophy in the world of Islam between the eighth and eighteenth centuries, in a cross-cultural context. In 2009, the journal extended its scope to include important papers on scientific modernization from the nineteenth century in the Islamic world. Together with original studies on the history of all these fields, *ASP* also offers work on the inter-relations between Arabic and Greek, Indian, Chinese, Latin, Byzantine, Syriac and Hebrew sciences and philosophy. Casting new light on the growth of these disciplines, as well as on the social and ideological context in which this growth took place, *ASP* is essential reading for those interested in these areas.

Modern Intellectual History

Editors

Charles Capper, *Charles Capper*

Duncan Kelly, *University of Cambridge, UK*

Anthony J. LaVopa, *North Carolina State University, USA*

Samuel Moyn, *Columbia University, USA*

This important journal serves as a focal point and forum for scholarship on intellectual and cultural history from the mid-seventeenth century to the present, with primary attention to Europe and the Americas and to transnational developments that encompass the non-West. *MiH* enquires into this era's intellectual discourses and texts, their contextual origins and reception, and the recovery of their historical meanings. The journal encompasses various forms of intellectual and cultural history, including political thought and culture, philosophy, religion, literature and literary criticism, social sciences, natural sciences, visual arts and aesthetic theory, communications, law, economic thought, social and cultural theory, psychology, anthropology, music and the history of the book.

Philosophy

Published for the Royal Institute of Philosophy

Editor

Anthony O'Hear, *University of Buckingham, UK*

Philosophy is the journal of the Royal Institute of Philosophy, which was founded in 1925 to build bridges between specialist philosophers and a wider educated public. The journal continues to fulfil a dual role: it is one of the leading academic journals of philosophy, but it also serves the philosophical interests of specialists in other fields (law, language, literature and the arts, medicine, politics, religion, science, education, psychology, history) and those of the general reader. Contributors are required to avoid needless technicality of language and presentation. Each issue contains an editorial on a topic of philosophical or public interest, and a 'New Books' section.

The institutional subscription includes two supplements and a subscription to *Think*.

Science inContext

Editor

Asaf Goldschmidt, *Tel Aviv University, Israel*

Jürgen Renn, *Max-Planck-Institut für Wissenschaftsgeschichte, Berlin, Germany*

Science in Context is an international journal edited at The Cohn Institute for the History and Philosophy of Science and Ideas, Tel Aviv University, with the support of the Van Leer Jerusalem Institute. It is devoted to the study of the sciences from the points of view of comparative epistemology and historical sociology of scientific knowledge. The journal is committed to an interdisciplinary approach to the study of science and its cultural development - it does not segregate considerations drawn from history, philosophy and sociology. Controversies within scientific knowledge and debates about methodology are presented in their contexts.

Victorian Literature and Culture

Editors

John Maynard, *New York University, USA*

Adrienne Munich, *State University of New York at Stony Brook, USA*

Victorian Literature and Culture encourages high quality original work concerned with all areas of Victorian literature and culture, including music and the fine arts. The journal presents work at the cutting edge of current research, including exciting new studies in untouched subjects or new methodologies. Contributions are welcomed from internationally established scholars as well as younger members of the profession. Future Editors' topics include 'Food, Drink and the Victorians' and 'Victorian Natural History'. Review essays form a central part of the journal, and offer an authoritative view of important subjects together with a list of relevant works that serves as an up-to-date bibliography. The Works in Progress section allows the communication of parts of major works well in advance of their final publication. The Special Effects section allows publication of primary materials either previously unavailable or unknown to most readers.
