

AUGUST 1988

28-10 Structure-Property Relationships in Surface Modified Ceramics, Theory and Applications
 NATO Advanced Study Institute
 Pisa, Italy
 C.J. McHargue, Metals and Ceramics Division, Oak Ridge National Laboratory, P.O. Box X Oak Ridge, TN 37831-6118; (615) 574-4344
(See related article in this issue.)

OCTOBER 1988

2-7 35th National Vacuum Symposium
 Atlanta, GA
 N. Hammond, American Vacuum Society, 335 E. 45th St., New York, NY 10017

9-14 Electrochemical Society Fall Meeting
 Chicago, IL
 Electrochemical Society, 10 S. Main St., Pennington, NJ 08534-2896

NOVEMBER 1988

27-2 **MRS** Materials Research Society Fall Meeting
 Boston, MA
 A. Wagner, Materials Research Society, 9800 McKnight Rd., Suite 327, Pittsburgh, PA 15237; (412) 367-3003.

Positions Available

FACULTY POSITION

The Division of Materials Science and Engineering in the Department of Mechanical Engineering at the University of California, Davis invites applications from qualified individuals for a tenure-track faculty position. Candidates should have a dedicated interest in teaching and in experimental research directed toward the properties, processing, and characterization of electronic, nonlinear optical or dielectric materials. Qualifications must include an earned doctorate or equivalent degree in Materials Science and Engineering or a related field, a reputation in materials research, and an ability to teach at both the undergraduate and graduate levels.

Applications must be received by November 1, 1987. Send resume to:

Professor Harry Brandt
 Department of Mechanical Engineering
 Division of Materials Science
 and Engineering
 University of California
 Davis, California 95616

Equal Opportunity/Affirmative Action Employer

**FACULTY POSITION
 IN MATERIALS SCIENCE**

California Institute of Technology

The Division of Engineering and Applied Science at Caltech is seeking a faculty member for a tenure-track position in structure-property relationships of materials. The successful applicant is expected to develop a strong independent program of research. The potential for interaction with faculty in solid mechanics is desirable, as is the potential for interaction with the NSF sponsored Materials Research Group which is completing new facilities for the synthesis and characterization of materials. Preference is for applicants at the assistant professor level. Exceptionally qualified senior faculty will also be considered. Interested persons should send a curriculum vitae and arrange for three letters of recommendation to be sent to:
 Prof. T. Vreeland, Jr. 138-78, Chairman
 Materials Science Search Committee
 Keck Laboratory of
 Engineering Materials
 California Institute of Technology
 Pasadena, California 91125

The California Institute of Technology is an Equal Opportunity, Affirmative Action Employer.

**Ceramist
 or Materials
 Scientist**

The Navy's largest research, development, test, and evaluation facility, located at the foot of the Sierra Nevada has an opening for an individual to conduct research in the

CHEMISTRY OF CERAMIC PROCESSING

The candidate must have the ability to lead and direct a strong research effort in this area, build a Ceramics Laboratory, and interact strongly with chemists. New PhD's or more senior people with the ability and desire to conduct their own basic and applied research program in non-oxide ceramics and ceramic composites are encouraged to apply. Salary commensurate with experience.

Applications accepted until 1 September 1987.

Please submit resumes including transcripts and 2 letters of recommendation to:
