

Parasitology

Back volumes. Vols. 1–71: Inquiries should be addressed to Wm. Dawson & Sons Ltd, Cannon House, Folkestone, Kent. Vols. 72 onwards: quotations for parts still in print may be obtained from Cambridge or the American Branch of Cambridge University Press.

Copying. This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923, USA. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of US copyright law) subject to payment to C.C.C. of the per-copy fee of \$16.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0031–1820/2016 \$16.00.

Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

ISI Tear Sheet Service. 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

For all other use, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

Claims for missing issues can only be considered if made immediately after receipt of the subsequent issue.

Advertising. Details of advertising in *Parasitology* may be obtained from the publisher.

Online submission. Authors are encouraged to submit their manuscripts online. Go to <http://mc.manuscriptcentral.com/par/> to open an author's account for *Parasitology*. Manuscript Central is helping to improve the speed of the publication process for the journal.

Front Cover illustration: Plasmodium merozoites emerging out of a ruptured red blood cell and circulating in the microvasculature.

CONTENTS

SPECIAL ISSUE

INVITED REVIEWS

Naturally acquired immunity to malaria

Alyssa Barry and Diana Hansen

125

Plasmodium malariae and antimalarial antibodies in the first year of life

Katherine R. Dobbs and Arlene E. Dent

129

Immunity to malaria in an era of declining malaria transmission

Freya J. I. Fowkes, Philippe Boeuf and James G. Beeson

139

Insights into the naturally acquired immune response to *Plasmodium vivax* malaria

Rhea J. Longley, Jetsumon Sattabongkot and Ivo Mueller

154

The role of PfEMP1 as targets of naturally acquired immunity to childhood malaria: prospects for a vaccine

Peter C. Bull and Abdirahman I. Abdi

171

Naturally acquired immunity to sexual stage *P. falciparum* parasites

Will J. R. Stone, Kathleen W. Dantzer, Sandra K. Nilsson, Chris J. Drakeley, Matthias Marti, Teun Bousema and Sanna R. Rijpma

187

Immunological processes underlying the slow acquisition of humoral immunity to malaria

Victoria Ryg-Cornejo, Ann Ly and Diana S. Hansen

199

Examining cellular immune responses to inform development of a blood-stage malaria vaccine

Danielle I. Stanisic and Michael F. Good

208

Immune activation and induction of memory: lessons learned from controlled human malaria infection with *Plasmodium falciparum*

Anja Scholzen and Robert W. Sauerwein

224

Immunomics: a 21st century approach to vaccine development for complex pathogens

Karina P. De Sousa and Denise L. Doolan
