PUBLISHED BY CAMBRIDGE UNIVERSITY PRESS FOR
AND ON BEHALF OF THE ASSOCIATION OF SYMBOLIC LOGIC.

The BULLETIN, the JOURNAL and the REVIEW OF SYMBOLIC LOGIC are the official organs of the Association for Symbolic Logic, an international organization for furthering research in logic and the exchange of ideas among mathematicians, computer scientists, linguists, and others interested in this field. The BULLETIN encourages submissions of *Articles* and *Communications* in all areas of logic, including mathematical or philosophical logic, logic in computer science or linguistics, the history or philosophy of logic, and applications of logic to other fields. It also encourages the submissions of abstracts for doctoral level theses in logic. The BULLETIN also publishes reviews of publications in logic.

Thesis abstracts editor

Christian Rosendal rosendal@math.uic.edu

Articles present topics of broad interest in a way that is accessible to a large audience. They can be purely expository, survey, or historical articles or they may contain, in addition, new ideas or results or new approaches to old ones.

Communications should be announcements of important new results and ideas in any aspect of logic; they may be short papers in their final form or preliminary announcements (extended abstracts, position papers) of longer, full papers that will be published elsewhere. In any case, they should include, in addition to a description of the new results or ideas, enough history, background, and explanation to make the significance of the work apparent to a wide audience. *Communications* will be quickly refereed and published within six months of the submission of final version.

To submit *Articles* or *Communications* please follow the procedure described at <http://www.aslonline.org/journals-bulletin-guide.html>

To submit *Thesis Abstracts* please follow the procedure described at <http://aslonline.org/LogicThesisAbstracts.html>

Books for review in the BULLETIN should be sent to ASL, Department of Mathematics, University of Connecticut, 341 Mansfield Road, U-1009, Storrs, CT 06269-1009, USA.

TABLE OF CONTENTS

The BSL 25th anniversary prize, by FRANK WAGNER.....	207
---	-----

ARTICLES

An exposition of the compactness of $L(Q^{cf})$, by ENRIQUE CASANOVAS AND MARTIN ZIEGLER.....	212
Gödel diffeomorphisms, by MATTHEW FOREMAN.....	219
Computability in partial combinatory algebras, by SEBASTIAAN A. TERWIJN.....	224
Gödel’s second incompleteness theorem: how it is derived and what it delivers, by SAEED SALEHI.....	241
Bounds for indexes of nilpotency in commutative ring theory: a proof mining approach, by FERNANDO FERREIRA.....	257
Finding the limit of incompleteness I, by YONG CHENG.....	268

REVIEWS

T. Button and S. Walsh, <i>Philosophy and Model Theory</i> . Reviewed by Andrew Arana.....	286
