

## INSTRUCTIONS FOR CONTRIBUTORS

**SCOPE** Epidemiology and Psychiatric Sciences (EPS) is an international, peer-reviewed journal providing updated data and scientific information to epidemiologists, psychiatrists, psychologists, statisticians and other research and mental health workers primarily concerned with public health and epidemiological and social psychiatry. Priority is given to original research and systematic reviews about mental health service research, aimed to improve the quality of everyday practice. EPS is published quarterly (in March, June, September and December).

A full instructions to authors is available at: <http://journals.cambridge.org/eps>

### EDITORIAL POLICY

EPS publishes the following article types:

- Editorials in this Issue
- Editorials
- Special Articles
- Original Articles
- Letters

The Editor will also consider Methodological Contributions, Systematic Reviews and Meta-analyses.

The following Sections may also appear in the journal:

- Contemporary Outsider Art
- Epidemiology for Clinical Psychopharmacology
- Epidemiology for Behavioural Neurosciences
- Instruments

All submissions must be in English.

All submissions require the following statements: Acknowledgements, Financial Support, Conflict of Interest, Ethical Standards. Full details can be found on the EPS website <[journals.cambridge.org/eps](http://journals.cambridge.org/eps)>

All contributions are accepted for publication after external peer review.

### SUBMISSION OF MANUSCRIPTS

Authors may submit their **Original Articles** or **Letters to the Editor** online via the website:

<http://mc.manuscriptcentral.com/eaps>

**All other paper types require the author to be invited via the online submission system, and should not be submitted online without consultation with the appropriate Editor as detailed on the inside front cover.**

If you have any questions about the submission of your manuscript please contact the Editorial Office, Lynet Smith, at [lsmith@cambridge.org](mailto:lsmith@cambridge.org)

A covering letter should give full mailing and email contact details of the author who will handle correspondence. Please pay attention to the format of all submitted papers (including word count of main text and Abstract, and reference list). Consult the Instructions for Contributors that are online at <http://journals.cambridge.org/eps> and EPS papers already published, as examples). Submission of a paper will be held to imply that it contains original work that has not been previously published and that it is not being submitted for publication elsewhere. The papers published in EPS are protected by copyright and cannot be published elsewhere without written permission given by the Publisher.

**PROOFS AND OFFPRINTS** Page proofs will be sent to the author designated to receive correspondence. Corrections other than to printer's errors may be charged to the author. All papers are published in their final version in the *FirstView* page of EPS before being printed. A final PDF will be sent to the corresponding author when the article is published.

Detailed instructions for authors can be found on the EPS website <[journals.cambridge.org/eps](http://journals.cambridge.org/eps)>

# Epidemiology and Psychiatric Sciences

## CONTENTS

### EDITORIALS IN THIS ISSUE, FEBRUARY 2015

**A Rosetta stone for epidemiology: genomic risk profile scores contain clues related to modifiable risk factors**  
McGrath J.J.

1

### EDITORIALS

**Aetiological stratification as a conceptual framework for gene-by-environment interaction research in psychiatry**  
van Winkel R.

6

**Novel directions for G x E analysis in psychiatry**  
Vinkhuyzen A.A.E. & Wray N.R.

12

### CONTEMPORARY OUTSIDER ART

**The art & life of Gerald Hawkes**  
Hoffberger R.

20

### EPIDEMIOLOGY FOR CLINICAL PSYCHOPHARMACOLOGY

**Adherence to generic v. brand antidepressant treatment and the key role of health system factors**  
Barbui C. & Conti V.

23

### SPECIAL ARTICLE

**Investigating 'place effects' on mental health: implications for population-based studies in psychiatry**  
Astell-Burt T. & Feng X.

27

### COMMENTARIES

**Is a geographical approach worthwhile for epidemiological research in mental health?**  
Amaddeo F., Salazzari D. & Salinas-Pérez, J.A.

38

**The role of geographic context on mental health: lessons from the implementation of mental health atlases in the Basque Country (Spain)**

Iruin-Sanz A., Pereira-Rodríguez C. & Nuño-Solinís R.

42

### ORIGINAL ARTICLES

**Onset and temporal sequencing of lifetime anxiety, mood and substance use disorders in the general population**  
Slade T., McEvoy P.M., Chapman C., Grove R. & Teesson M.

45

**Is the use of accurate psychiatric labels associated with intentions and beliefs about responses to mental illness in a friend? Findings from two national surveys of Australian youth**

Yap M.B.H., Reavley N.J. & Jorm A.F.

54

**Sub-clinical psychosis syndromes in the general population: results from a large-scale epidemiological survey among residents of the canton of Zurich, Switzerland**

Rössler W., Ajdacic-Gross V., Haker H., Rodgers S., Müller M. & Hengartner M.P.

69

**Cost drivers of inpatient mental health care: a systematic review**

Wolff J., McCrone P., Koeser L., Normann C. & Patel A.

78

**Life in acute mental health settings: experiences and perceptions of service users and nurses**

Rose D., Evans J., Laker C. & Wikes T.
