## The Horse, the Wheel, and Language

*How Bronze-Age Riders from the Eurasian Steppes Shaped the Modern World*

David W. Anthony

“A very significant contribution to the field. This book attempts to resolve the longstanding problem of Indo-European origins by providing an examination of the most relevant linguistic issues and a thorough review of the archaeological evidence. I know of no study of the Indo-European homeland that competes with it.”

### ARCHAEOLOGY IN THE CONSTRUCTION, COMMEMORATION, AND CONSECRATION OF NATIONAL PASTS

**Edited by Philip L. Kohl, Mara Kozelsky,  
and Nachman Ben-Yehuda**

“In this deeply intriguing and appealing book, expert contributors explore a wide and varied set of political, cultural, and ethical issues. Not only will this excellent collection be formative for the history and practice of archaeology for years to come, but it may also be hotly debated in the various regions it describes.”

—SUZANNE MARCHAND, Louisiana State University

## The Complete Pompeii

Joanne Berry

*'Pompeii retains the power to evoke, as few other places, a past world. Joanne Berry knows the site intimately from her work there. She here offers an admirably up-to-date and balanced treatment of Pompeii as a whole, bringing the lost city to life'* Andrew Wallace-Hadrill, Director of the British School in Rome

The drama of Pompeii's destruction is one of the most emotive and well-known stories in all history. Yet, until now, there has been no up-to-date, authoritative and comprehensive account for the general reader of the city's rise, fall and splendour. *The Complete Pompeii* fills that gap. With its lavish illustrations, numerous box features and reams of information, this book is the ultimate resource and guide to this magnificent ancient site.

318 illustrations, 275 in colour 25.4 x 19.2cm 256pp ISBN 978 0500 051504 **£24.95** hb

## Discovery!

*Unearthing the New Treasures of Archaeology*

Edited by Brian M. Fagan

This accessible and engaging survey of contemporary archaeology reveals the exciting, significant and astonishing finds from the last fifteen years that have changed the way we see our past. Many of the book's contributions are written by the discoverers themselves, who give first-hand accounts of their finds and assess their significance. Spanning a timescale of two million years and truly international in scope, *Discovery!* is illustrated throughout with amazing photographs, sometimes taken at the very moment of discovery.
