# Applied Psycholinguistics

## Editor

Martha Crago, *Dalhousie University, Canada*

*Applied Psycholinguistics* publishes original research papers on the psychological processes involved in language. It examines language development and disorders in adults and children with and without developmental disabilities. Articles in *Applied Psycholinguistics* address the nature, acquisition, and impairments of language expression and comprehension, including writing and reading. This journal gathers together the best work from a variety of fields including linguistics, psychology, reading, education, language learning, sociology, speech and hearing, and neurology. In addition, issues include reviews of important new books, problem-oriented reviews of important or emergent areas, discussions of previously published papers, and methodological notes.

# Journal of Child Language

## Editor

Heike Behrens, University of Basel, Switzerland

A key publication in the field, *Journal of Child Language* publishes articles on all aspects of the scientific study of language development and behaviour in children, the principles which underlie it, and the theories which may account for it. The international range of authors and breadth of coverage allow the journal to forge links between many different areas of research including psychology, linguistics, cognitive science, speech pathology and anthropology. The interdisciplinary and crosslinguistic perspective spans a wide range of interests: phonology, phonetics, morphology, syntax, vocabulary, semantics, pragmatics, sociolinguistics and other recognised aspects of language study. In addition to articles and brief research reports, the journal also features occasional review articles plus invited commentaries.

# Studies in Second Language Acquisition

**Editor**

Albert Valdman, *Indiana University, USA*

**Associate Editor**

Susan Gass, *Michigan State University, USA*

*Studies in Second Language Acquisition* is a refereed journal devoted to the scientific discussion of issues in second and foreign language acquisition of any language. Each volume contains four issues, one of which is generally devoted to a current topic in the field. The other three issues contain articles dealing with theoretical topics, some of which have broad pedagogical implications, and reports of quantitative and qualitative empirical research. Other articles include replication studies, State-of-the-Art articles, responses, book reviews, and book notices.

# Annual Review of Applied Linguistics

An official journal of the American Association for Applied Linguistics (AAAL)

**Editor-in-Chief**

Charlene Polio, *Michigan State University, USA*

*Annual Review of Applied Linguistics* provides a comprehensive, up-to-date review of research in key areas in the broad field of applied linguistics. Each issue is thematic, covering the topic by means of critical summaries, overviews and bibliographic citations. Every fourth or fifth issue surveys applied linguistics broadly, offering timely essays on language learning and pedagogy, discourse analysis, teaching innovations, second-language acquisition, computer-assisted instruction, language use in professional contexts, sociolinguistics, language policy, and language assessment, to name just a few of the areas reviewed.
