International Astronomical Union. Symposium (143rd : 1990 : Sanur, Indonesia)

Wolf-Rayet stars and interrelations with other massive stars in galaxies : proceedings of the 143rd Symposium of the International Astronomical Union held in Sanur, Bali, Indonesia, June 18-22, 1990 / edited by Karel A. van der Hucht and Bambang Hidayat.

p. cm.

Includes index.

ISBN 0-7923-1086-1 (alk. paper)

1. Wolf-Rayet stars--Congresses. 2. Supergiant stars--Congresses.

I. Hucht, Karel A. van der. II. Hidayat, Bambang.

III. International Astronomical Union. IV. Title.

QB843.W6I57 1990

Preface	xv
The Organizing Committee	xvii
Conference Photograph	xviii*
List of Participants	xx
WELCOMING ADDRESSES	
Chairman Local Organizing Committee, <i>Bambang Hidayat</i>	3
Chairman Scientific Organizing Committee, <i>Karel A. van der Hucht</i>	5
Minister of Education and Culture, <i>Fuad Hasan</i>	7
Rector Institut Teknologi Bandung, <i>Wiranto Arismunandar</i>	9
Director General of Higher Education, <i>Sukadji Ranuwihardjo</i>	10
AFTER-DINNER SPEECH	
Wolf-Rayet stars in the Old Days, <i>Leonard V. Kuhi</i>	11
SESSION I. INTRODUCTION – Chair: Bambang Hidayat	
A decade of Wolf-Rayet literature (<i>Review</i>) <i>K.A. van der Hucht</i>	19
SESSION II. ATMOSPHERES – Chair: André Maeder	
Observations versus atmospheric models of WR stars (<i>Review</i>) <i>W. Schmutz</i>	39
Evidence that WR stars are pre-main-sequence objects <i>A.B. Underhill</i>	53
Theory of Wolf-Rayet atmospheres (<i>Review</i>) <i>D.J. Hillier</i>	59
Chemical composition in the envelopes of different WR subtypes <i>T. Nugis</i>	75
Analyses of Wolf-Rayet spectra <i>W.-R. Hamann</i>	81
VLBI observations of WR stars <i>M. Felli and M. Massi</i>	87
Session II Poster Summaries	
Helium in Wolf-Rayet spectra <i>Y. Andriolat and J.-M. Vreuz</i>	95

Some emission lines in WCE stars have nearly constant line strengths <i>K.R. Brownsberger and P.S. Conti</i>	96
The H/He ratio of WN stars <i>P.A. Crowther, L.J. Smith and A.J. Willis</i>	97
Optical continuum formation in rotating-wind models of WR stars <i>L.R. Doherty</i>	98
Identification and analysis of infrared lines of WC stars <i>P.R.J. Eenens, P.M. Williams and R. Wade</i>	99
The hydrogen abundances in WN stars <i>W.-R. Hamann, G. Duennebeil, U. Wessolowski and W. Schmutz</i>	100
The properties of Population I WO stars <i>R.L. Kingsburgh and M.J. Barlow</i>	101
X-rays from hot stars and the role of relativistic electrons <i>A.M.T. Pollock</i>	102
Diffuse CIV emission around the WO star ST3 <i>V.F. Polcaro, F. Giovannelli, R.K. Manchanda, A. Pollock, L. Norci and C. Rossi</i>	103
More Einstein views of Wolf-Rayet stars <i>A.M.T. Pollock</i>	105
The nitrogen spectra of WN stars: The WN6 'standard' star HD192163 (WR136) <i>U. Wessolowski, W.-R. Hamann and W. Schmutz</i>	106
 SESSION III. INTRINSIC VARIABILITY – Chair: Allan J. Willis	
Intrinsic variability of WR stars from an observational point of view (<i>Review</i>) <i>A.F.J. Moffat and C. Robert</i>	109
Sporadic variations in Wolf-Rayet stars <i>B.S. Shylaja</i>	125
(Intrinsic) variations of Wolf-Rayet stars <i>A.M. van Genderen, M.A.W. Verheijen, K.A. van der Hucht, C.W.H. de Loore, H.E. Schwarz, B.P.M. van Esch, H. Greidanus, R. van der Heiden, E. van Kampen, E. Kuulkers, R.S. le Poole, R.A. Reijns, F.H.A. Robijn and L. Spijkstra</i>	129
Physical parameters of inhomogeneities in Wolf-Rayet winds <i>C. Robert, A.F.J. Moffat and W. Seggewiss</i>	147
Theory of intrinsic variability in hot-star winds (<i>Review</i>) <i>S.P. Owocki</i>	155
Theoretical results on WR instabilities <i>A. Maeder and G. Schaller</i>	167

Modelling the wind eclipses in WR+O binaries: The qualitative picture <i>G. Koenigsberger and L.H. Auer</i>	175
Session III Poster Summaries	
The UV variability of the WR star HD 50896 - A one day recurrence timescale <i>N. St-Louis, A.J. Willis, L.J. Smith, C.D. Garmany and P.S. Conti</i>	179
EZ (easy?) Canis Majoris <i>C. Robert, A.F.J. Moffat, L. Drissen, V.S. Niemela, P. Barrett, W. Seggewiss and R. Lamontagne</i>	181
Emission line variations in γ^2 Velorum <i>M.-J. Taylor</i>	182
The impact of polarimetry on Wolf-Rayet star models <i>R.E. Schulte-Ladbeck</i>	183
Gyroscopics as a means of demonstrating rotational instability in stars <i>M.S.A. Sastroamidjojo</i>	184
SESSION IV. BINARIES - Chair: Anthony F.J. Moffat	
Wolf-Rayet binaries: Observational aspects (<i>Review</i>) <i>A.M. Cherepashchuk</i>	187
New Wolf-Rayet binaries <i>V.S. Niemela</i>	201
Massive contact binary systems <i>K.-C. Leung</i>	207
WR binaries: theoretical aspects (<i>Review</i>) <i>J.P. De Greve</i>	213
Decoding of the light changes in Wolf-Rayet eclipsing binaries: an application to HD 5980 in the Small Magellanic Cloud <i>J. Breysacher and C. Perrier</i>	229
IUE and massive binaries <i>D.J. Stickland</i>	237
Session IV Poster Summaries	
Long period WR binaries <i>K. Annuk</i>	245
The all-variable binary WR140 <i>K.A. van der Hucht, P.M. Williams, A.M.T. Pollock, B. Hidayat, C.F. McCain, T.A.Th. Spoelstra and W.M. Wamsteker</i>	251

The origin of WR140 <i>J.-P. De Greve</i>	252
The structure of colliding stellar winds <i>A.M.T. Pollock, J. Blondin and I. Stevens</i>	253
The light curve of V444 Cygni <i>W.-R. Hamann, E. Schwarz and U. Wessolowski</i>	254
V444 Cygni and CQ Cephei, key Wolf-Rayet binary stars <i>A.B. Underhill</i>	255
Spectroscopic CCD study of the two-day WN5+O8V binary CX Cep <i>D. Lewis, A.F.J. Moffat and C. Robert</i>	256
Polarization variability of Wolf-Rayet binaries: constraints on WR parameters <i>A.F.J. Moffat, V.S. Niemela, W. Seggewiss, A.M. Magalhães and M.A. Cerruti</i>	257
Spectroscopic CCD search for the unseen companions in three single-line WNL binaries <i>A. Grandchamps and A.F.J. Moffat</i>	258
UV observations of selective wind eclipses in the Wolf-Rayet star γ Velorum <i>N. St-Louis and A.J. Willis</i>	259
The Wolf-Rayet + Of star binary AB7: A warmer in the Small Magellanic Cloud <i>M.W. Pakull and L. Bianchi</i>	260
Emission line profiles in RY Scuti: a massive binary system in a pre-WR stage? <i>D. de Martino, A.A. Vittone, C. Rossi and F. Giovannelli</i>	261
SESSION V. MASS LOSS – Chair: Lindsey F. Smith	
Observations of Wolf-Rayet mass loss (<i>Review</i>) <i>A.J. Willis</i>	265
IR observations of mass loss from massive stars <i>M.J. Barlow</i>	281
Wolf-Rayet stellar wind theory (<i>Review</i>) <i>J.P. Cassinelli</i>	289
Deceleration zones in the winds of WR and P Cygni type stars <i>T. Nugis</i>	309
Session V Poster Summaries	
Radio observations of massive OB stars <i>I.D. Howarth and A. Brown</i>	315

Photometric determination of mass loss rates and orbital inclinations for WR binaries	316
<i>R. Lamontagne, C. Robert, A. Grandchamps, N. Lapierre, A. Moffat, L. Drissen and M.M. Shara</i>	
Terminal velocities for a large sample of O stars, B supergiants, and Wolf-Rayet stars	317
<i>R.K. Prinja, M.J. Barlow and I.D. Howarth</i>	
Stellar winds from massive stars: The influence of X-rays on the dynamics	318
<i>I. Stevens, G. Cooper and S. Owocki</i>	
An analytical approach to the problem of mass loss from Wolf-Rayet stars	319
<i>R. Turolla</i>	
SESSION VI. ENRICHMENT – Chair: Joseph P. Cassinelli	
Enrichment by Wolf-Rayet stars and other massive stars in gas, dust and energy (Review)	323
<i>M. Cohen</i>	
Dust formation in WC-star shells	335
<i>E. Sedlmayr and H. Gass</i>	
Cool supergiants in the solar neighborhood	341
<i>M. Jura</i>	
Ring nebulae around massive stars (Review)	349
<i>Y.-H. Chu</i>	
Ring nebulae around Of and WO stars	365
<i>T.A. Lozinskaya</i>	
G2.4+1.4: An extraordinary mass-loss bubble driven by an extreme WO star	371
<i>M.A. Dopita and T.A. Lozinskaya</i>	
Abundances in WR nebulae	379
<i>J.M. Vilchez and C. Esteban</i>	
The dynamics of the AG Car ring nebula	385
<i>L.J. Smith</i>	
Spectrophotometry of ring nebulae around Wolf-Rayet stars	391
<i>M.W. Pakull</i>	
Massive stars and Giant HII regions: the high-energy picture (Review)	397
<i>T. Montmerle</i>	
Warmers	409
<i>J. Melnick and M. Heydari-Malayeri</i>	

Session VI Poster Summaries

Recurrent dust formation by Wolf-Rayet stars <i>P.M. Williams, K.A. van der Hucht, P.S. Thé, P. Bouchet and G. Roberts</i>	417
A two-component dust model for the WR ring nebula RCW 58 <i>J.P. Cassinelli, J.S. Mathis, K.A. van der Hucht, T. Prusti and P.R. Wesselius</i>	421
On the chemodynamics of NGC 6888 <i>C. Esteban and J.M. Vilchez</i>	422
Detection of strong winds in giant extragalactic HII regions <i>H.O. Castañeda and J.M. Vilchez</i>	423
HI bubbles surrounding Wolf-Rayet stars <i>V.S. Niemela and C. Cappa de Nicolau</i>	424
A search for high excitation nebulae around Wolf-Rayet stars in the Magellanic Clouds <i>V.S. Niemela, S.R. Heathcote and W.G. Weller</i>	425
Stellar content of the giant HII region NGC 604 <i>B. Debray</i>	427

SESSION VII. EVOLUTION – Chair: Peter S. Conti

Stellar Evolution in the upper HRD: Theory (<i>Review</i>) <i>N. Langer</i>	431
Metallicity effects in massive star evolution and number frequencies of WR stars in galaxies <i>A. Maeder</i>	445
Estimates of bolometric corrections for WR stars and progenitors of WN binaries <i>C. de Loore and J.P. De Greve</i>	453
Statistics of Wolf-Rayet binaries <i>L.R. Yungelson and A.V. Tutukov</i>	459
Observational aspects of stellar evolution in the upper HRD (<i>Review</i>) <i>C. Leitherer</i>	465
LMC OB associations containing Wolf-Rayet stars <i>H. Schild, M.C. Lortet and G. Testor</i>	479
The Wolf-Rayet connection - Luminous Blue Variables and evolved supergiants (<i>Review</i>) <i>R.M. Humphreys</i>	485
AG Carinae and the WR phenomenon in Luminous Blue Variables <i>R. Viotti, G.B. Baratta, C. Rossi and A. di Fazio</i>	499

New observations of LBV environments <i>N.R. Walborn, I.N. Evans, E.L. Fitzpatrick and M.M. Phillips</i>	505
Nomenclature problems <i>M.-C. Lortet</i>	513
Explosions of helium stars and Type Ib/Ic/IIb supernovae (<i>Review</i>) <i>K. Nomoto</i>	515
Are Wolf-Rayet stars the progenitors of Type Ib/Ic supernovae? <i>A.V. Filippenko</i>	529
X-ray and gamma-ray signatures of Wolf-Rayet supernova explosions <i>L.-S. The, D.D. Clayton and A. Burrows</i>	537
Session VII Poster Summaries	
Is stellar wind mass loss during core hydrogen burning important for evolution? <i>R. Blomme, D. Vanbeveren and W. van Rensbergen</i>	547
Single-lined spectroscopic appearances during the evolution of a massive binary system <i>C. de Loore and J.P. De Greve</i>	548
Convectively generated turbulent pressure: A possible cause for η Car-type shell ejections <i>M. Kiriakidis, N. Langer and K.J. Fricke</i>	549
Nucleosynthesis activity of WR stars: Implications for ^{26}Al in the Galaxy and isotopic anomalies in cosmic rays and the earlier solar system <i>N. Prantzos</i>	550
Is rotation a really important property to the understanding of the evolution of massive stars? <i>S.R. Sreenivasan</i>	551
New results in evolution in the upper HRD <i>E.I. Staritsin</i>	552
The WR / WR-progenitor number ratio: theory and observations <i>D. Vanbeveren</i>	553
The mass of WR progenitors <i>D. Vanbeveren</i>	554
The influence of WR like stellar wind mass loss rates on the evolution of massive core helium burning stars <i>D. Vanbeveren</i>	555
From LBV binary to WR+OB binary <i>D. Vanbeveren</i>	556

P Cygni: will it ever become a Wolf-Rayet star? <i>M.J.H. de Groot</i>	557
The infrared spectrum of P Cygni <i>J.R. Deacon and M.J. Barlow</i>	558
A spectroscopic study of η Car and the homunculus <i>D.J. Hillier and D.A. Allen</i>	559
The distance to the S Dor type star HR Carinae <i>A.M. van Genderen, F.H.A. Robijn, P.B.M. van Esch and H.J.G.L.M. Lamers</i>	560
R127 and its surrounding star cluster <i>A. Nota, C. Leitherer, M. Clampin and R. Gilmozzi</i>	561
Photometric evidence of small 'S Dor type eruptions' in S Dor type stars in or near minimum <i>A.M. van Genderen</i>	563
Observational evidence for evolutionary connections between Wolf-Rayet stars and red supergiants <i>L.N. Georgiev</i>	564
The anomalous A-type supergiants in the Magellanic Clouds - Evidence for post-red supergiant evolution <i>R.M. Humphreys, R.P. Kudritzki and H. Groth</i>	565
Supernovae from Wolf-Rayet stars <i>N. Langer and S.E. Woosley</i>	566
Progenitors of Type Ib supernovae <i>N. Panagia and V.G. Laidler</i>	567
Evolution of the progenitor of SN1987A in the HR diagram <i>H. Yamaoka, H. Saio, K. Nomoto and M. Kato</i>	571
 SESSION VIII. INVENTORY AND DISTRIBUTION – Chair: JiPi De Greve	
Wolf-Rayet stars in nearby galaxies: Facts and fancies (<i>Review</i>) <i>P. Massey and T.E. Armandroff</i>	575
Galactic Wolf-Rayet distribution and IMF <i>B. Hidayat</i>	587
A deep survey for faint galactic Wolf-Rayet stars <i>M.M. Shara, M. Potter, A.F.J. Moffat and L.F. Smith</i>	591
Wolf-Rayet stars in Local Group Giant HII regions <i>L. Drissen</i>	595
Wolf-Rayet populations in dwarf galaxies (<i>Review</i>) <i>L.F. Smith</i>	601

Large number of Wolf-Rayet stars in emission line galaxies <i>J.M. Mas-Hesse and D. Kunth</i>	613
On the detection of WR stars in nearby galaxies <i>J. Lequeux and M. Azzopardi</i>	619
Massive stars and galactic evolution (<i>Review</i>) <i>F. Matteucci</i>	625
Session VIII Poster Summaries	
The distance to HD 50896 (EZ CMa) <i>W. Schmutz and I.D. Howarth</i>	639
Determination of the interstellar extinction toward WN stars from observed <i>ubv</i> color indices <i>W.D. Vacca and W. Schmutz</i>	640
The distribution of M supergiants with large IR excess and WR stars in the Galaxy <i>M. Raharto</i>	641
On the luminosity function of open clusters containing Wolf-Rayet stars <i>A.G. Admiranto and B. Hidayat</i>	643
The stellar association LH 99 <i>M.-C. Lortet, G. Testor and H. Schild</i>	644
Multiplicity of very massive stars <i>M. Heydari-Malayeri</i>	645
A WC9 star in the LMC <i>M. Heydari-Malayeri and J. Melnick</i>	647
Massive stars in M31 and M33 OB associations <i>K. Cananzi and M. Azzopardi</i>	649
Optical spectroscopy of WR stars in M33 and M31 <i>H. Schild, L.J. Smith and A.J. Willis</i>	650
H α emission-line stars in M33 <i>C.L. Neese, T.E. Armandroff and P. Massey</i>	651
CCD survey for WR stars in the central part of M33 <i>L. Drissen, A.F.J. Moffat and M.M. Shara</i>	652
A Wolf-Rayet cluster in IC 4662 <i>O.-G. Richter and M.R. Rosa</i>	653
Discovery of Wolf-Rayet stars in the SBmIII galaxy NGC 4214 <i>A.V. Filippenko and W.L.W. Sargent</i>	655
Wolf-Rayet galaxies <i>W.D. Vacca and P.S. Conti</i>	656

Computer simulation of the evolution of active AGN: single supermassive star versus a cluster of massive WR stars <i>R. Spurzem and K. Herzig</i>	657
---	-----

SESSION IX. SUMMARY – Chair: Karel A. van der Hucht

Summary of symposium <i>P.S. Conti</i>	661
---	-----

CLOSING ADDRESS

Rector Universitas Udayana, <i>Prof.Dr. I.G.N.P. Adnyana</i>	669
