9.	Hydrocephalic Idiocy		
10.	Paralytic Idiocy		
11.	Cretinism		
12.	Traumatic Idiocy		
13.	Inflammatory Idiocy		
14.	Idiocy by Deprivation		

"It is difficult in the limits of a review to do justice to its many excellencies. It must be read to be appreciated."—*British Medical Journal*.

"We can cordially recommend the work. . . . Readers will find it to be a pleasant and interesting book on a repulsive and uninteresting subject."—*Practitioner*.

J. & A. CHURCHILL, NEW BURLINGTON STREET.

Crown 8vo., 5s.

A MANUAL OF NECROSCOPY: OR, A GUIDE TO POST MORTEM EXAMINATIONS, with Notes on the Morbid Appearances, and Suggestions for Medico-Legal Examinations.

By A. H. NEWTH, M.D.

"This Manual may be confidently recommended, and will, we are inclined to think, supply a want felt by the general body of the profession."—*Lancet*.

"Embraces in its scope a systematic arrangement of the lesions which may be met with in post mortem investigations. Considering the restricted limits within which the author has apportioned his task, we consider that he has done his work thoroughly and well."—*London Medical Record*.

"This very useful book supplies a well recognized want. The author treats in a singularly able and lucid manner of those points which a student or practitioner requires to have at his finger ends in the Post-mortem Room. Much valuable information is found in all parts of the book, which is exactly the thing for all who are pursuing any pathological work."—*Guy's Hospital Gazette*.

SMITH, ELDER & Co. 1878.

Price 1s. 6d. Monthly.

THE PRACTITIONER: a Journal of Therapeutics and Public Health.

Edited by T. LAUDER BRUNTON, M.D., F.R.S., Fellow of the Royal College of Physicians; Assistant Physician to St. Bartholomew's Hospital; and Lecturer on Materia Medica and Therapeutics in St. Bartholomew's Hospital School.

MACMILLAN AND CO., 29 & 30, Bedford Street, Covent Garden, London.
