Design a logo for a new College campaign

A small working party, chaired by Professor Arthur Crisp, has been meeting to draft a proposal for a new College campaign entitled *Every Family in the Land*. We are eager to ensure that any new College stigma campaign has its own identity and the working party is keen to involve the College at large in the quest for a suitable logo. If you are an artist or just a doodler and interested in this challenge, we would like to hear from you. Finished artwork is not required as the winning design will be developed by a designer. The reward will be the satisfaction of seeing your logo on the campaign stationery for a period of five years. Please send your designs to Deborah Hart of the External Affairs Department at the College.
