CONTENTS

NO.		PAGE
1.	The Future of Synthetic Plastics. By Professor H. W. Melville, F.R.S. (*Bruce-Preller Lecture delivered March* 1, 1943.) Issued separately November 17, 1943, . . .	1
2.	The Fundamental Concepts of Natural Philosophy. By Professor E. A. Milne, M.B.E., F.R.S. (*James Scott Lecture delivered on May* 3, 1943.) Issued separately November 17, 1943, ...	10
*3.	On the Matrix Representation of Complex Symbols. By D. E. Rutherford, M.A., B.Sc., D.Math., United College, University of St Andrews. Issued separately November 17, 1943, ...	25
*4.	A Note on Karl Pearson's Selection Formulæ. By D. N. Lawley, B.A., Moray House, University of Edinburgh. *Communicated by* Professor Godfrey H. Thomson, D.C.L., D.Sc., Ph.D. Issued separately November 17, 1943, ...	28
*5.	On Whittaker's Solution of Laplace's Equation. By E. T. Copson, University College, Dundee, in the University of St Andrews. Issued separately March 7, 1944, . . .	31
*6.	Atomic Wave Functions for Ground States of Elements *Li* to *Ne*. By W. E. Duncanson, M.Sc., Ph.D., University College of London, and C. A. Coulson, M.A., Ph.D., University College, Dundee. Issued separately March 7, 1944, ...	37
*7.	Quantum Mechanics of Fields. I. Pure Fields. By Professor Max Born, F.R.S., and H. W. Peng, Ph.D., University of Edinburgh. Issued separately March 7, 1944, .	40
*8.	A Measurement of the Velocity of Light in Water. By R. A. Houstoun, M.A., D.Sc., F.Inst.P., Natural Philosophy Department, University of Glasgow. Issued separately March 7, 1944, ...	58
9.	On the Line-Geometry of the Riemann Tensor. By H. S. Ruse, University College, Southampton. Issued separately September 12, 1944, ...	64
*10.	The Factorial Analysis of Multiple Item Tests. By D. N. Lawley, B.A., Moray House, University of Edinburgh. *Communicated by* Professor Godfrey H. Thomson. Issued separately September 12, 1944, ...	74
*11.	The Identification of Klein's Quartic. By W. L. Edge, M.A., Sc.D. Issued separately September 12, 1944, ...	83
*12.	Quantum Mechanics of Fields. II. Statistics of Pure Fields. By Professor Max Born, F.R.S., and H. W. Peng, Ph.D., Carnegie Research Fellow, University of Edinburgh. Issued separately September 22, 1944, ...	92
*13.	A Problem in the Random Distribution of Particles. By Philip Eggleton, D.Sc., and William Ogilvie Kermack, D.Sc., LL.D., F.R.S. From the Physiology Department, University of Edinburgh, and the Royal College of Physicians Laboratory, Edinburgh. (With Eight Text-figures.) Issued separately September 22, 1944, ...	103
*14.	On Substitutional Equations. By D. E. Rutherford, M.A., B.Sc., D.Math., United College, University of St Andrews. Issued separately December 14, 1944, ...	117
*15.	Quantum Mechanics of Fields. III. Electromagnetic Field and Electron Field in Interaction. By Professor Max Born, F.R.S., and H. W. Peng, Ph.D., Carnegie Research Fellow, University of Edinburgh. Issued separately December 14, 1944, . . .	127
*16.	Studies in Practical Mathematics. IV. On Linear Approximation by Least Squares. By A. C. Aitken, D.Sc., F.R.S., Mathematical Institute, University of Edinburgh. Issued separately October 24, 1945, ...	138
17.	The Regraduation of Clocks in Spherically Symmetric Space-times of General Relativity. By G. C. McVittie, Ph.D. Issued separately November 5, 1945, ...	147

https://doi.org/10.1017/S0080454100006798 Published online by Cambridge University Press

NO. PAGE

18. The Riemann Tensor in a Completely Harmonic V_4. By H. S. Ruse, University College, Southampton. Issued separately November 5, 1945, ... 156

19. A Theory of Regraduation in General Relativity. By A. G. Walker, D.Sc., Department of Pure Mathematics, University of Liverpool. *Communicated by* Sir Edmund Whittaker, F.R.S. Issued separately March 21, 1946, ... 164

20. Evaluation and Application of Certain Ladder-Type Networks. By W. E. Bruges, M.Sc., A.C.G.I., D.I.C., Assoc.M.Inst.C.E. *Communicated by* Professor M. G. Say, Ph.D., M.Sc. (With Seven Text-figures.) Issued separately March 25, 1946, ... 175

21. Tables of Chebyshev Polynomials. By C. W. Jones, M.Sc., and J. C. P. Miller, Ph.D., of the University of Liverpool, and J. F. C. Conn, D.Sc., and R. C. Pankhurst, Ph.D., of the National Physical Laboratory. *Communicated by* Dr A. C. Aitken, F.R.S., . . . 187

22. Two Numerical Applications of Chebyshev Polynomials. By J. C. P. Miller, Ph.D., University of Liverpool. *Communicated by* Dr A. C. Aitken, F.R.S. Issued separately October 25, 1946, ... 204

23. The Number of the Elements. By N. Feather, Ph.D., Cavendish Laboratory, Cambridge. *Communicated by* Sir Edmund Whittaker, F.R.S. (With Three Text-figures.) (*Ritchie Lecture delivered March* 1, 1945.) Issued separately October 25, 1946, ... 211

24. Time-Scales in Relativity. By A. G. Walker, M.A., D.Sc., Department of Pure Mathematics, University of Liverpool. *Communicated by* Sir Edmund Whittaker, F.R.S. Issued separately October 25, 1946, ... 221

*25. Some Continuant Determinants arising in Physics and Chemistry. By D. E. Rutherford, M.A., B.Sc., D.Math., United College, University of St Andrews. (With Four Text-figures.) Issued separately May 8, 1947, ... 229

*26. The Universal Integral Invariants of Hamiltonian Systems and Application to the Theory of Canonical Transformations. By Hwa-Chung Lee, Ph.D. (Edin.), Wuhan University, China. *Communicated by* Sir Edmund Whittaker, F.R.S. Issued separately May 8, 1947, ... 237

*27. Expansions of Lamé Functions into Series of Legendre Functions. By A. Erdélyi, Mathematical Institute, The University, Edinburgh. Issued separately February 25, 1948, . 247

*28. The Discriminant of a Certain Ternary Quartic. By W. L. Edge, M.A., Sc.D. (Cantab.), Mathematical Institute, University of Edinburgh. Issued separately February 25, 1948, . 268

*29. On a Problem in Correlated Errors. By A. C. Aitken, D.Sc., F.R.S., Mathematical Institute, University of Edinburgh. Issued separately February 25, 1948, . . . 273

30. On Hill's Problems with Complex Parameters and a Real Periodic Function. By M. J. O. Strutt. *Communicated by* Sir Edmund Whittaker, F.R.S. (With Five Text-figures.) Issued separately May 12, 1948, ... 278

*31. Thermal Diffusion in some Aqueous Solutions. By Archibald C. Docherty and Mowbray Ritchie, Chemistry Department, University of Edinburgh. (With Five Text-figures.) Issued separately May 12, 1948, ... 297

*32. An Elementary Treatment of Thermal Diffusion in Gaseous and Liquid Systems. By Mowbray Ritchie, Chemistry Department, University of Edinburgh. (With Three Text-figures.) Issued separately May 12, 1948, ... 305

33. Applications of Elliptic Functions to Wind Tunnel Interference. By L. M. Milne-Thomson. Issued separately May 12, 1948, ... 316

34. Foundations of Relativity: Parts I and II. By A. G. Walker, D.Sc., Department of Mathematics, University of Sheffield. *Communicated by* Sir Edmund Whittaker, F.R.S. (With One Text-figure.) Issued separately May 12, 1948, ... 319

https://doi.org/10.1017/S0080454100006798 Published online by Cambridge University Press

NO. PAGE

35. Graphite Crystals and Crystallites. I. Binding Energies in Small Crystal Layers. By Mary Bradburn (Royal Holloway College, London University), C. A. Coulson (Wheatstone Physics Laboratory, King's College, London), and G. S. Rushbrooke (Chemistry Department, Leeds University). (With Two Text-figures.) Issued separately September 22, 1948, ... 336

36. Graphite Crystals and Crystallites. II. Energies of Mobile Electrons in Crystallites Infinite in One Direction. By C. A. Coulson (Wheatstone Physics Laboratory, King's College, London) and G. S. Rushbrooke (Chemistry Department, Leeds University). (With Three Text-figures.) Issued separately September 22, 1948, ... 350

37. The Van der Waals Force between a Proton and a Hydrogen Atom. II. Excited States. By C. A. Coulson (King's College, London) and Miss C. M. Gillam (University College, Dundee). (With One Text-figure.) Issued separately September 22, 1948, ... 360

*38. On the Estimation of Many Statistical Parameters. By A. C. Aitken, D.Sc., F.R.S., Mathematical Institute, University of Edinburgh. Issued separately September 22, 1948, 369

*39. Transformations of Hypergeometric Functions of Two Variables. By A. Erdélyi, Mathematical Institute, The University, Edinburgh. Issued separately September 22, 1948, . 378

*40. The Linear Difference-differential Equation with Constant Coefficients. By E. M. Wright, University of Aberdeen. Issued separately May 20, 1949, ... 387

*41. Problems in Factor Analysis. By D. N. Lawley, M.A., D.Sc. Issued separately February 3, 1949, ... 394

42. The Nature of Scientific Philosophy. By Professor Herbert Dingle, D.I.C., A.R.C.S., D.Sc. Issued separately May 20, 1949, ... 400

43. On the Gravitational Mass of a System of Particles. By G. L. Clark, Trinity College, Cambridge. *Communicated by* Sir Edmund Whittaker, F.R.S. Issued separately May 20, 1949, ... 412

44. The Equivalence of the Gravitational and Invariant Mass of an Isolated Body at Rest. By G. L. Clark, Trinity College, Cambridge. *Communicated by* Sir Edmund Whittaker, F.R.S. Issued separately May 20, 1949, ... 424

45. The Internal and External Fields of a Particle in a Gravitational Field. By G. L. Clark, Trinity College, Cambridge. *Communicated by* Sir Edmund Whittaker, F.R.S. Issued separately May 20, 1949, ... 427

46. The Mechanics of Continuous Matter in the Relativity Theory. By G. L. Clark, Trinity College, Cambridge. *Communicated by* Sir Edmund Whittaker, F.R.S. Issued separately May 20, 1949, ... 434

*47. Non-Associative Arithmetics. By I. M. H. Etherington, University of Edinburgh. (With Three Text-figures.) Issued separately May 20, 1949, ... 442

*48. On Commuting Matrices and Commutative Algebras. By D. E. Rutherford, M.A., B.Sc., Dr.Math., United College, University of St Andrews. Issued separately May 20, 1949, 454

49. Generalizations of a Problem of Pillai. By L. Mirsky, Department of Mathematics, University of Sheffield. *Communicated by* Professor A. G. Walker. Issued separately May 24, 1949, ... 460

*50. Quantum Theory of Rest-Masses. By M. Born, F.R.S., and H. S. Green. With Appendices by K. C. Cheng and A. E. Rodriguez, Edinburgh University. (With Two Text-figures.) Issued separately May 24, 1949, ... 470

* The thanks of the Society are due to the Carnegie Trust for the Universities of Scotland for grants towards the cost of these papers.

https://doi.org/10.1017/S0080454100006798 Published online by Cambridge University Press

For fine pencil sketches, and line and wash sketches, the whitest base available should be used. The lightest tones or lines should be a little stronger than is desired in the reproduction, and the heavier tones strengthened in proportion, so that in reproduction the whole scale of tones may be adjusted to bring the base into its proper relationship. Otherwise a very light pencil line or a weak wash will not reproduce as a stronger tone than the base, but will merge with it and be lost. Fine pencil lines should be uniform throughout.

Drawings and photographic prints should be kept as clean as possible.

When the illustrations are to form plates, a scheme for the arrangement of the figures in Roy. 4to plates for the *Transactions*, and in Super Roy. 8vo for the *Proceedings*, must be given, and the figures numbered (and, when necessary, lettered).

Space available for figures and lettering in *Transactions*, $9\frac{3}{4}'' \times 7\frac{3}{4}''$.
" " " " *Proceedings*, $7\frac{3}{4}'' \times 5''$.

A proof of each paper will be sent to the author, whose address should be given on the MS. The cost of corrections made in the proof should not exceed 5 per cent. of the printers' charges for the setting of each paper. The author may be charged with any excess.

The proof must, if possible, be returned within one week, addressed to *The Secretary, Royal Society of Edinburgh, 22 George Street, Edinburgh*, 2, and *not to the printer*. To prevent delay, an author residing abroad should appoint someone residing in this country to correct the proof.

As soon as a *Transactions* paper, or the sheet in which the last part of a *Proceedings* paper appears, is ready for press, copies or reprints, in covers, bearing the title of the paper and the name of the author, are printed off and placed on sale. The date of such separate publication is printed on each paper.

Authors of papers will receive fifty reprints free, if they so desire; but in view of the strict necessity for economy in paper and printing, their attention is directed to the desirability of requesting only twenty-five gratis copies, where this number will meet their needs. Authors may have a reasonable number of additional reprints at a fixed scale of prices, which will be furnished by the printer, who will charge them with the cost. To prevent disappointment, especially if the paper contains plates, the author should, as soon as possible, notify to the Secretary the number of additional reprints required.

To facilitate the compilation of indexes, and to secure that due attention to the important points in a paper shall be given in General Catalogues of Scientific Literature and in Abstracts published by periodicals, each author is requested to return to the Secretary, together with the proof of his paper, a brief index (on the model given below) of the points in it which he considers new or important. These indexes will be edited by the Secretary and incorporated in separate index slips issued with each part of the *Transactions* and *Proceedings*.

MODEL INDEX

Schäfer, E. A.—On the Existence within the Liver Cells of Channels which can be directly injected from the Blood-vessels. Proc. Roy. Soc. Edin., XXIV, 1902, 65-69.

NO. PAGE

XLVI. The Mechanics of Continuous Matter in the Relativity Theory. By G. L. CLARK, Trinity College, Cambridge. *Communicated by* Sir EDMUND WHITTAKER, F.R.S. . 434

(*Issued separately May* 20, 1949)

XLVII. Non-Associative Arithmetics. By I. M. H. ETHERINGTON, University of Edinburgh. (With Three Text-figures) 442

(*Issued separately May* 20, 1949)

XLVIII. On Commuting Matrices and Commutative Algebras. By D. E. RUTHERFORD, M.A., B.Sc., Dr.Math., United College, University of St Andrews . . . 454

(*Issued separately May* 20. 1949)

XLIX. Generalizations of a Problem of Pillai. By L. MIRSKY, Department of Mathematics, University of Sheffield. *Communicated by* Professor A. G. WALKER . . 460

(*Issued separately May* 24, 1949)

L. Quantum Theory of Rest-Masses. By M. BORN, F.R.S., and H. S. GREEN. With Appendices by K. C. CHENG and A. E. RODRIGUEZ, Edinburgh University. (With Two Text-figures) 470

(*Issued separately May* 24, 1949)

Index to Volume 489

The Papers published in this part of the PROCEEDINGS *may be had separately, on application to the Publishers, at the following Prices:—*

No. XL . . .	Price 1s. od.	No. XLVI . .	Price 1s. 6d.
