

Business Ethics

THE MAGAZINE OF CORPORATE RESPONSIBILITY

Volumes 1–20, 1987–2006, now available online!

Business Ethics magazine was founded in 1987 by Miriam Kniaz and Marjorie Kelly to promote ethical business practices and to serve the growing community of professionals and individuals striving to work and invest in responsible ways. For twenty years, it was the only US-based business magazine focusing on ethics and corporate responsibility. It published articles, reviews, interviews, letters, and analyses of contemporary business trends, as well as annual awards to honor companies that had gone out of their way to do something right. The magazine ceased publication in print format in 2006. The Philosophy Documentation Center now offers online access to the entire collection of original print issues in cooperation with New Mountain Media.

ENVIRONMENTAL ETHICS

**AN INTERDISCIPLINARY JOURNAL DEDICATED TO THE
PHILOSOPHICAL ASPECTS OF ENVIRONMENTAL PROBLEMS**

Eugene C. Hargrove, Editor

Environmental Ethics is a peer-reviewed professional journal that explores the philosophical aspects of environmental problems. Since 1979, it has published over 1400 articles, discussions, and reviews, and has become the leading journal in its field. The Philosophy Documentation Center offers online subscription options that include all issues of this essential journal.

The major journal in this field, and where most of the important papers are published. . . . Makes most environmentalish magazines . . . seem like glossy 4-H club bulletins.—The Whole Earth Review

This journal . . . is without doubt the leading forum for serious philosophical work in environmental philosophy. The articles tend to be of high scholarly caliber, although accessible to non-philosophers as well. . . . An excellent source—highly recommended.—Green Earth Observer

Interest in environmental philosophy is growing: college courses are being offered and books published on the subject. In documenting this philosophic approach, Environmental Ethics gives careful readers new ways to consider and understand environmental issues.—The Bear Essential

Journal of Business Ethics Education

John Hooker, Editor

The task of business ethics education is to supply the conceptual tools managers need to make choices that are ethically responsible and culturally sensitive, as well as technically sound. The mission of the *Journal of Business Ethics Education* is to assist educators in this task by providing timely educational materials and a forum for the exchange of ideas and research. Online subscriptions include access to all issues, volume 1 (2004) to the present. All text is displayed in PDF format.

“JBEE is a great resource that provides educators with top-notch research, great ideas, and the latest tools for making sure tomorrow’s business leaders are well-equipped to face the many ethical issues that will confront them daily.”—Joan Fontrodona, Center for Business in Society, IESE Business School, Spain

Philosophy Directories Now Online!

Directory of American Philosophers *International Directory of Philosophy and Philosophers*

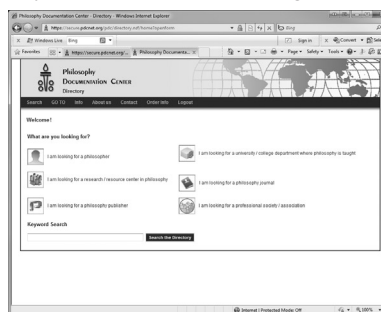

Essential Reference Sources Now Consolidated Online*

The Philosophy Documentation Center has been publishing philosophy directories since 1970, becoming a trusted source of edited information on university philosophy departments and programs, philosophy journals, societies, associations, research centers, and publishers around the world. All of this data is now in a single online resource—the **INTERNATIONAL DIRECTORY OF PHILOSOPHY**. The database presently contains listings for the following:

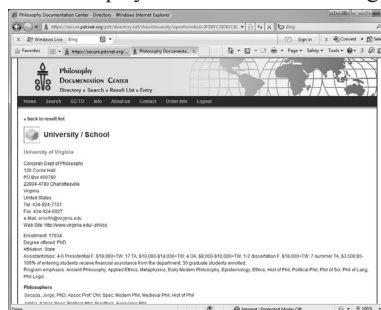

- 28,000 philosophers in over 100 countries
- 3,000 university departments / programs
- 1,000 philosophy journals
- 420 societies / associations
- 350 research centers / institutes
- 700 philosophy publishers

Access is provided on an annual subscription basis for both individuals and institutions. Listings are provided free of charge and all information can be updated online.

Easily search all sections in a single interface.

Clear display of all data in each listing

The ONLY book that uses Microsoft Excel® as THE means to teach Finance

Principles of Finance with Excel

SECOND EDITION

SIMON BENNINGA, *Tel Aviv University* and the *University of Pennsylvania*

Principles of Finance with Excel is the only finance text that comprehensively integrates Microsoft Excel® throughout as the central means for the teaching and practice of finance. In this second edition, author Simon Benninga—one of the most recognized names in financial modeling—shows how Excel is the tool of financial analysis and the primary skill demanded of both students entering the academic environment as well as business finance graduates entering the job market.

2010 816 pp. cloth \$99.00

New to this Edition

- Offers a streamlined structure that allows students to dive right into the heart of finance: time value of money and discounting
- Provides updated examples, most of which refer to the post-2008-crash financial world
- Uses Microsoft Excel® 2007 throughout (all examples and spreadsheets are compatible with previous versions of the program)
- The FREE in-text CD-ROM includes electronic spreadsheets for the entire book

We invite you to compare the price* and quality of our book to other books published for your course, including:

Author	Title	Publisher	Pub Date	Page Count	Price
Benninga	<i>Principles of Finance with Excel, 2E</i>	OUP	2010	816 pp.	\$99.00
