

AN ECONOMIC HISTORY OF THE UNITED STATES

Second Edition

Gilbert C. Fite and Jim E. Reese

The second edition of this popular text retains all of the successful features of the previous edition and places special emphasis on economic development. The opening chapter establishes a conceptual framework which illuminates the historical material throughout the book. New material on the early and late 19th century brings into focus the theme of economic development consistent with the framework outlined in Chapter 1. Recent interpretive analyses of controversial questions and the use of the latest available statistics are included in the revision.

READINGS IN UNITED STATES ECONOMIC AND BUSINESS HISTORY

Edited by Ross M. Robertson and James L. Pate

This well balanced collection of 45 outstanding articles and 36 significant historical documents presents to the beginning student the realities of our developing economy in the context of controversy and change. Both sides of arguments are given wherever possible, and the substantial section of articles on methodology comprising Part I effectively reveals the changes in American economic history in the past fifty years.

*An Economic History with a
New Approach*

THE SINEWS OF AMERICAN CAPITALISM

By Clark C. Spence

*Chairman, Department of History,
University of Illinois*

Professor Spence introduces a new approach to explain the growth and integration of the American economy. Developments in different functions of the economy—those of production, distribution, transportation, finance, and public policy—are tied together around the forces making for the most economic change.

This unusual way of exploring American economic history produces a reordering of economic events that is both dynamic and causative. Professors and students have found this new synthesis both refreshing and convincing.

“Clark Spence’s *The Sinews of American Capitalism* is first rate, its coverage ample, omissions few, and data accurate. It ties the changing economy in with broader political and social developments and yet rarely omits the essential detail of the economic story. It is one of the very best of the short economic histories of the United States available.”—PROFESSOR ALFRED D. CHANDLER JR., *Chairman, Department of History, The Johns Hopkins University.*

The Sinews of American Capitalism is one in a series of topical histories being published under the general editorship of Aida DiPace Donald.

THE ECONOMIC HISTORY ASSOCIATION

The Economic History Association was organized in 1940. Its purpose is to encourage research and teaching in the history of economic activity and of economic thought. It seeks to cooperate with societies devoted to the study of agricultural, industrial, and business history. It aims to bring together economists, historians, statisticians, geographers, and others who find that the story of economic change throws light on their field of interest or is enriched by their contribution. Membership is open to all who are interested in the history of economic life in all its phases in the United States and other countries.

The *JOURNAL OF ECONOMIC HISTORY* is published for The Economic History Association by the Graduate School of Business Administration of New York University. Correspondence concerning contributions to the Journal should be addressed to the editorial office: Hugh G. J. Aitken, Editor, Department of Economics, Amherst College, Amherst Massachusetts 01002. Applications for membership should be addressed to Herman E. Krooss, Treasurer, in care of New York University, 100 Trinity Place, New York, New York 10006.
