VOL. LXIX

1963-1965

PUBLISHED BY THE
ROYAL SOCIETY OF EDINBURGH
22 GEORGE STREET
EDINBURGH 2

1966

CONTENTS

NO.	PAGE
*1. Copepoda (Crustacea) from the Meiobenthos of Some Scottish Marine Sub-littoral Muds. By J. B. J. Wells, Department of Natural History, Marischal College, University of Aberdeen. <i>Communicated by</i> Professor V. C. Wynne-Edwards. (With Eleven Text-figures and Two Tables.) Issued June 18, 1965,	I
2. The Hydroid Collections of James Ritchie. By William J. Rees and Sarah Thursfield. <i>Communicated by</i> A. Rodger Waterston, O.B.E. Issued October 18, 1965,	34
3. On the Relationships of Certain Carboniferous Dipnoi; with Descriptions of Four New Forms. By Keith Stewart Thomson, B.Sc., Ph.D., Department of Zoology, University College London. <i>Communicated by</i> Professor T. S. Westoll, F.R.S. (With Eight Text-figures and Four Plates.) Issued October 29, 1965,	221
*4. Biological Effects of Water Utilization by Hydro-Electric Schemes in Relation to Fisheries, with Special Reference to Scotland. By Hugh Y. Elder, Department of Zoology, University of Glasgow. <i>Communicated by</i> Dr C. M. Yonge, C.B.E., F.R.S. (With Three Text-figures.) Issued December 21, 1965,	246
*5. The Profundal Fauna of Loch Lomond, Scotland. By H. D. Slack, Department of Zoology, University of Glasgow, (With Five Text-figures, Two Maps and Two Tables.) Issued December 21, 1965,	272
6. The Tardigrada of the Scottish Lake Survey Described as New Species by James Murray. By J. van der Land, Rijksmuseum van Natuurlijke Historie, Leiden, Holland. <i>Communicated by</i> A. Rodger Waterston, O.B.E. (With Eighteen Text-figures and Five Tables.) Issued September 7, 1966,	298
7. On the Neonatus of <i>Callimico gældii</i> (Thomas). By W. C. Osman Hill, M.D., Yerkes Regional Primate Research Center, Emory University, Atlanta, Georgia, (With Four Plates, One Text-figure and Two Tables.) Issued September 7, 1966,	321
*8. Electron Microscopic Study and Amino Acid Analysis on Human Aortic Elastin. By A. Serafini-Fracassini and G. R. Tristram, Department of Physiology and Biochemistry, University of St Andrews. (With Two Plates, Two Text-figures and Three Tables.) Issued September 7, 1966,	334

* The thanks of the Society are due to the Carnegie Trust for the Universities of Scotland for grants towards the costs of these papers.

INSTRUCTIONS TO AUTHORS (*continued*)

The overall space available for figures and plates is $9\frac{1}{2}'' \times 7\frac{1}{2}''$ in *Transactions* and $7\frac{1}{2}'' \times 4\frac{3}{4}''$ in *Proceedings*.

Photographs should be unmounted glossy black and white prints, marked on the back with the name of the author, number of the figure, and an indication of the top. Prints should not be trimmed or cut out. Authors should suggest the arrangement of the figures on each plate, either by a diagram or a paste-up of rough prints, with indication of any lettering to be inserted.

Lettering must be in black ink in neat and legible style, or lightly written in pencil.

Indicating Lines and Arrows required on wash drawings or photographs should have the point marked by a pin-hole, and must be drawn on the back or on a covering tissue and not on the photograph or drawing. On line drawings such lines should be drawn thin but firmly.

Graphs should be drawn on white Bristol board or on squared paper ruled in faint blue lines: no other colour ruling is suitable. Since blue lines do not appear in reproductions, any cross-lines required must be drawn. If a tracing of a graph constructed on an unsuitable grid is submitted, white tracing paper should be used.

Numerical values. In papers concerned with the biological sciences ALL numerical values must be accompanied by their decimal equivalents.

Tables. Tabular matter must be kept to a minimum. No paper should present both tables and corresponding graphs, except where good reason can be given.

Duplicates. When the author can conveniently do so, it is desirable that duplicates of illustrations should be supplied for the use of the referees.

Proofs of papers will be sent to authors or communicators to the addresses indicated in correspondence or on MSS. The cost of authors' **corrections in excess of 5 per cent** of the printer's charges for the setting of a particular paper **will be charged to the authors.** Proofs should, if possible, be returned within one week to *The Secretary, Royal Society of Edinburgh, 22 George Street, Edinburgh, 2*, and *not to the printer.* To prevent delay, authors who are abroad should, if possible, appoint someone in this country to correct proofs.

Offprints. As soon as a *Transactions* paper, or the sheet in which the last part of a *Proceedings* paper appears, is ready for press, copies of offprints, in covers bearing the title of the paper and the name of the author, are printed and placed on sale. The date of such separate publication is printed on each paper. Authors of papers will receive twenty-five offprints free, if they so desire. Additional offprints may be obtained at a fixed scale of prices given on a form attached to the first proof. To prevent disappointment, especially if a paper contains plates, authors should, as soon as possible, notify the Secretary of the number of additional copies required.

Indexes. To facilitate the compilation of indexes, and to secure due attention being given to the important points of a paper in Catalogues of Scientific Literature, authors are requested to supply to the Secretary, with the final proofs of papers, a brief index (on the model given below) of the points in a paper which are considered new or important. Indexes will be edited by the Secretary for publication in each volume of the *Transactions* and *Proceedings*.

MODEL INDEX

Houstoun, R. A.—A measurement of the velocity of light. *Proc. Roy. Soc. Edin.*, A, 63, 1949–50, 95–104.

Light, A measurement of the velocity of.

R. A. Houstoun. *Proc. Roy. Soc. Edin.*, A, 63, 1949–50, 95–104.

Velocity of Light, A measurement of the.

R. A. Houstoun. *Proc. Roy. Soc. Edin.*, A, 63, 1949–50, 95–104.

Authors are advised, before submitting papers, to consult *General Notes on the Preparation of Scientific Papers* (2nd Edn., 1965) (Royal Society of London), especially the chapters dealing with symbols, signs, and abbreviations recommended for British Scientific Publications. A copy may be consulted in the Library of the Royal Society of Edinburgh. Personal copies of the *General Notes* may be obtained, price 5s. 6d. per copy, postage included, from the Executive Secretary, Royal Society of London, Burlington House, London, W.1.
