

ANIMAL PRODUCTION

JOURNAL OF THE BRITISH SOCIETY OF ANIMAL PRODUCTION

OLIVER & BOYD LTD.
EDINBURGH AND LONDON

SEPTEMBER 1960

VOL. 2 PART 2

INFORMATION FOR CONTRIBUTORS TO *ANIMAL PRODUCTION*

Animal Production publishes papers on original research provided that they have not been, and will not be, published elsewhere in whole, or in part, without the Editors' written permission. Contributions may be in the field of animal production, or in any related scientific field. Papers presented at meetings of the British Society of Animal Production, if submitted to the Editors, will be given equal consideration with other papers.

Animal Production is published not less than twice a year, each number consisting of about 96 pages. Annual subscription for every 2 numbers is 30s. (or \$5.00 in the U.S.A. and Canada) and the price for a single number is 17s. 6d. (or \$2.75).

Length of papers should not normally exceed the equivalent of 6,000 words, inclusive of tables, text figures and references.

Manuscripts should be typed in double spacing and the ribbon copy sent to one of the Editors at the addresses given below. Manuscripts are not returned with the proofs; authors should therefore retain copies.

Illustrations (figures and plates) should be simple and few, otherwise a charge may have to be made to authors. Legends should be typed on a separate sheet.

- (a) Diagrams should be drawn in Indian ink, about twice the size of the finished block, on Bristol board or stout tracing paper. Photographed diagrams are also accepted. Lettering inside the framework of the diagram should be inserted in Indian ink. Marginal lettering may, if preferred, be inserted lightly in pencil. Costs of touching-up diagrams found to be incomplete or unsuitable for line-block reproduction will be charged to authors.
- (b) Photographs intended for half-tone reproduction should be on glossy paper. They will be accepted only if found necessary by the Editors. Part of their cost may have to be borne by authors.
- (c) Colour plates will not be accepted unless the author bears the cost.

[Continued on inside back cover]

Single number, 17s. 6d. or \$2.75 net. Annual subscription, 30s. or \$5.00

Technical Communication No. 14

**THE INDIGENOUS LIVESTOCK OF
EASTERN AND SOUTHERN AFRICA**

by I. L. Mason and J. P. Maule

This book is the result of a thorough investigation of all available sources of information on the livestock in the area east of a line drawn from the Northern Sudan to the mouth of the Congo. It covers the following species: camel, horse, ass, cattle, sheep, goat and pig. In describing the animals a system of classification has been followed which links those of similar type. Measurements and liveweights are given where possible, together with an indication of performance.

150 pp.

180 illustrations and 3 maps

ANIMAL BEHAVIOUR

Editor: Alastair N. Worden

Animal Behaviour is issued twice a year in April and October. It publishes original papers on animal behaviour and related subjects from contributors in many countries. Reports of researches, book reviews and correspondence are included, as are reports of the Proceedings of the Association for the Study of Animal Behaviour and the Section of Animal Behavior and Sociobiology (Ecological Society of America and American Society of Zoologists), of which it is the official journal.

Contents of the current issue include:

F. V. Smith. Towards Definition of the Stimulus Situation for the Approach Response in the Domestic Chick.

H. L. Marks, P. B. Siegel, and C. Y. Kramer. Effect of Comb and Wattle Removal on the Social Organisation of Mixed Flocks of Chickens.

W. L. Sheridan. Frequency of Digging Movements of Female Pink Salmon Before and After Egg Deposition.

D. Davenport, G. Camougis, and J. F. Hickok. Analyses of the Behaviour of Commensals in Host-Factor. I. A Hesionid Polychaete and a Pinnotherid Crab.

Erica Eisner. The Relationship of Hormones to the Reproductive Behaviour of Birds, Referring Especially to Parental Behaviour: A Review.

S. C. Ratner and R. W. Thompson. Immobility Reactions (Fear) of Domestic Fowl as a Function of Age and Prior Experience.

M. Delia Allen. The Honeybee Queen and Her Attendants.

Annual Subscription 50s., U.S.A. & Canada \$8.00

nutrition abstracts and reviews

This journal is produced by the Commonwealth Bureau of Animal Nutrition. The Bureau is part of the Commonwealth Agricultural Bureaux organisation financed by Commonwealth governments and the journal is issued under the direction of the Commonwealth Agricultural Bureaux Council, the Medical Research Council and the Reid Library of the Rowett Research Institute. In its four quarterly parts there are informative abstracts on all aspects of nutrition both animal and human and each part contains a critical review article on some special aspect of the subject.

The current volume is Volume 30 for which subscription rate is £6. 6s.

CONTENTS

PRESIDENTIAL ADDRESS:—

Quarantine in Australia's Defence, by A. G. STRICKLAND.

REVIEWS:—

Date Growing in Australia, by URSULA and V. DE FONTENAY.

The Principles of conducting variety trials involving subjective judgment, by G. G. COOKE.

Possibilities of inducing twinning in cattle using gonado-trophic hormones, by D. R. LAMMOND and N. T. CLARKE.

The selection and establishment of pasture species in a semi-arid environment—An ecological assessment of the problem, by O. B. WILLIAMS.

The Extension Process, by P. C. ANGOVE.

TECHNICAL NOTES:—

Cobalt Status of the Wallum, by W. W. BRYAN, PEGGY M. THORNE and C. S. ANDREW.

Losses of Nitrogen on Burning Native Pasture at Katherine Northern Territory, by M. J. T. NORMAN.

Dry matter and protein yields in four drains of *Leucaena Glauca*, by E. M. HUTTON and I. A. BONNER.

A Vascular Necrosis of Tomato roots, by W. S. SUTTON.

Talks, News, Notes—Thesis Summaries and Book Reviews

Published quarterly. Annual subscription rates, including postage, within Australia £1, 10s.: British Commonwealth countries, £1, 13s.; Other countries, £1, 15s.

Orders and subscriptions should be sent to:

Victoria, Australia.

CYANOPHYTA by T. V. Desikachary

Pp. 686. Plates 139.

Price 72s.

This monograph offers up-to-date taxonomic and morphological information on blue-green algae of India and neighbouring countries. It is divided into two parts. Part I deals with the structure of the cell, its contents, the methods of propagation and a discussion on classification and phylogeny. Part II gives the taxonomic description of each genus and species, their delimitation, and keys to genera and species.

ZYGNEACEAE by M. S. Randhawa

Pp. 478. Illustrations 521.

Price 50s.

This monograph deals with the species and genera of Zygnemaceae recorded from the different countries of the world. A review of the world literature with special reference to contributions made by India is followed by a general account of the family including a discussion on its classification, evolution and relationship. Full information on the geographical distribution of the family and its general is also given. A major part of the monograph is devoted to a taxonomic description. Keys to genera and species are simple and well-illustrated. Standard works and references given at the end of the book would be found highly useful by students and specialists alike.
